RT - REVEGETATION TREATMENTS

IMPLEMENTATION

Grant #: **Project title:**

Date : **Evaluator:** **Site ID:** page ___ of ___

	Project Feature Number			
	Feature Type Code			
Metics	1. Was the length of riparian streambank planted the same as approved?			
	a. Length of riparian streambank treated: (ft)			
	2. Was the area planted the same as approved?			
	a. Amount of riparian or upland area treated: (ft²)			
	3. Was vegetation planted in the approved location?			
	a. Location treated: FLD, LBK, RBK, UPL, OTH			
Vegetation Type & Cover	4. Were the approved species planted?			
	a. Species planted: (enter species codes)			
	5. Were the approved number of plants planted?			
	a. Number of plants planted:			
	b. Targeted minimum adequate survival: (%)			
	6. Were plants spaced as approved?			
	a. Average spacing, on center: (ft)			
	7. Were plants planted opportunistically or irregularly spaced, as approved?			
	8. Was vegetation planted during the designated planting season?			
	9. Will vegetation be irrigated?			
	a. Irrigation method: HAN, IRS, TRW, NON, OTH			
	b. Is there an agreement to insure irrigation completion and maintenance?			
	c. Number of years the vegetation will be irrigated: (yrs)			
	10. If applicable, were weed control measures applied as approved?			
	11. If applicable, were herbivore control measures applied as approved?			
	12. If applicable, were provisions for plant shading applied as approved?			
Implementation	13. Does the feature meet design, contract & permit specifications?			
	a. If not, were modifications beneficial to performance?			
	b. Is non-compliance significant enough to jeopardize performance?			
	c. Are corrections needed?			
	14. Would a different treatment or design have been preferable? If Y, comment.			
	15. **Feature Implementation Rating: Excl, Good, Fair, Poor, Fail**
