Notes:

VOC = Volatile Organic Compound
PCE = Tetrachloroethene; TCE = Trichloroethene; TCA = Trichloroethane; DCE = Dichloroethene; DCA = Dichloroethane; VC = Vinyl chloride; CET = Chloroethane; CMT = Chloromethane; CFM = Chloroform; MCL = Methylene chloride; CBN = Chlorobenzene; DCB = Dichlorobenzene; CT = Chlorotoluene; DCPE = Dichloropropene; DCPA = Dichloropropane; TCB = Trichlorobenzene; BDM = Bromodichloromethane; Freon-11 = Trichlorofluoromethane; Freon-113 = Trichlorotrifluoroethane.

Samples analyzed by EPA Method 8260B or EPA Method 524.2.
Only analytes detected most frequently in one or more samples are listed.
All concentrations are reported in micrograms per liter (µg/L).
U = Not detected at a concentration greater than the reporting limit shown.
UB =Analyte detected in sample at a concentration less than 5 times the level reported in the method blank.
J = Detected at an estimated concentration between method detection and laboratory reporting limits.
-- = analyte was either not analyzed or not reported.
ft MSL = feet above mean sea level.

Sample Type:
K = Duplicate (split) groundwater sample
