SOUTHERN CALIFORNIA
ASSOCIATION of GOVERNMENTS

Our VISION

An international and regional planning forum trusted for its leadership and inclusiveness in developing plans and policies for a sustainable Southern California.

Our MISSION

Under the guidance of the Regional Council and in collaboration with our partners, our mission is to facilitate a forum to develop and foster the realization of regional plans that improve the quality of life for Southern Californians.

Funding: The preparation of this document was financed in part through funds from the Federal Highway Administration and Federal Transit Administration in accordance with the provisions under the Metropolitan Planning Program as set forth in Section 104(f) of Title 23 of the U.S. Code. Additional financial assistance was provided by the California Department of Transportation.

EXECUTIVE SUMMARY

INTRODUCTION

The Federal Transportation Improvement Program (FTIP) is a multimodal list of capital improvement projects to be implemented over a six year period. The SCAG 2015 FTIP is a capital listing of all transportation projects proposed over Fiscal Years (FY) 2014/15 – 2019/20 for the SCAG region. As the Metropolitan Planning Organization (MPO) for the region, SCAG is responsible for developing the FTIP for submittal to the California Department of Transportation (Caltrans) and the federal funding agencies. The 2015 FTIP for the SCAG region has been developed in partnership between the six County Transportation Commissions (CTCs) of Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura as well as Caltrans Districts 7, 8, 11, and 12. This listing identifies specific funding sources and fund amounts for each project. It is prioritized to implement the region's overall strategy for providing mobility and improving both the efficiency and safety of the transportation system, while supporting efforts to attain federal and state air quality standards for the region by reducing transportation related air pollution. Projects in the FTIP include highway improvements, transit, rail and bus facilities, high occupancy vehicle (HOV) lanes, signal synchronization, intersection improvements, freeway ramps, and non-motorized projects.

The FTIP must include all federally funded transportation projects in the region, as well as all regionally significant transportation projects for which approval from federal funding agencies is required, regardless of funding source. The projects in this 2015 FTIP have been found to be consistent with SCAG's approved 2012-2035 Regional Transportation Plan/Sustainable Communities Strategy (2012-2035 RTP/SCS). The FTIP is developed to incrementally implement the programs and projects in the RTP.

PROGRAM SUMMARY

The 2015 FTIP includes approximately 2200 projects and programs totaling $31.8 billion over the next six years. The following charts and tables demonstrate how these funds are distributed based on funding source, program, and county.

Figure 1 is a summary of fund sources categorized as federal, state, and local sources. Figure 1 and its accompanying pie chart illustrate that 24 percent of the total is from federal funds, 14 percent is from state funds, and 62 percent is from local funds.

Environmental Justice

The Final 2012-2035 RTP/SCS, approved by the SCAG Regional Council on April 4, 2012 (and approved by FHWA/FTA with regard to transportation conformity on June 4, 2012), included a comprehensive environmental justice analysis. The 2015 FTIP is consistent with the policies, programs, and projects included in the 2012-2035 RTP/SCS, as amended by the proposed 2012-2035 RTP/SCS Amendment No. 2, and as such the environmental justice analysis included as part of the 2012-2035 RTP/SCS appropriately serves as the analysis for the transportation investments in the 2015 FTIP.

A key component of the 2012-2035 RTP/SCS development process was to further implement SCAG's Public Participation Plan, which involved outreach to achieve meaningful public engagement with minority and low-income populations, and included seeking input from our environmental justice stakeholders. As part of the environmental justice analysis for the 2012-2035 RTP/SCS, SCAG identified several performance measures to analyze existing social and environmental equity in the region and to address the impacts of the 2012–2035 RTP/SCS on various environmental justice population groups. These performance measures included impacts related to tax burdens, share of transportation system usage, jobs-housing imbalance or mismatch, potential gentrification and displacement, air quality, health, noise, and rail related impacts. For additional information regarding these and other environment justice performance measures and the detailed environmental justice analysis, please see http://rtpscs.scag.ca.gov/Documents/2012/final/SR/2012fRTP_EnvironmentalJustice.pdf .

Additionally, SCAG recently updated its Public Participation Plan, adopted on April 3, 2014, which addresses Title VI Requirements and Guidelines for Federal Transit Administration Recipients (FTA Circular 4702.1B; Effective October 1, 2012), including enhanced strategies for engaging minority and limited English proficient populations in SCAG's transportation planning and programming processes, as well as Environmental Justice Policy Guidance for Federal Transit Administration Recipients (FTA Circular 4703.1; Effective August 15, 2012).

Interagency Consultation and Public Participation

As stated earlier in this document, the 2015 FTIP complies with applicable federal and state requirements for interagency consultation and public involvement by following the strategies described in SCAG's Public Participation Plan (PPP) (for more information on SCAG's PPP please visit http://scag.ca.gov/Documents/PPP2014_Adopted-FINAL.pdf). In accordance with the PPP, SCAG's Transportation Conformity Working Group serves as a forum for interagency consultation.

On July 1, 2014 the Draft 2015 FTIP was released for a 30-day public review period. In addition, during the public review period, two (2) public hearings were held on the Draft 2015 FTIP on July 10th and 24th, 2014 at SCAG's Los Angeles office with video-conferencing available from SCAG Regional offices, located in Imperial, Orange, Riverside, San Bernardino, and Ventura Counties. These public hearings were noticed in numerous newspapers throughout the region. The notices were published in English, Spanish, Korean, Chinese, and Vietnamese languages (copies of these notices are included in Section V of the Final Technical Appendix). The 2015 FTIP is posted on the SCAG website and distributed to libraries throughout the region.

Likewise, the Guidelines for the 2015 FTIP went through a similar public review process. SCAG, in cooperation with the CTCs, TCWG, and other local, state and federal partners, completed its update of the 2015 FTIP Guidelines. The draft Guidelines were presented to the SCAG Transportation Committee for release on September 12, 2013. SCAG received comments during the review period from local, state and federal agencies as well as other interested parties, and revised the document as necessary. The Final Guidelines for the 2015 FTIP were approved by the SCAG Regional Council on October 3, 2013. For additional information on the 2015 FTIP Guidelines, please visit http://ftip.scag.ca.gov/Documents/Final2015FTIPGuidelines.pdf.

Economic Impacts of 2015 FTIP Program Expenditures
The FTIP's Investment Plan in terms of Economic Growth and Job Creation

The FTIP program budget includes spending on a mix of transportation projects – state highway, local highway, and transit – that are planned in six Southern California counties over a six- year time period beginning in 2014/2015 and ending in 2019/2020. Economic and job impacts were calculated using REMI, a regional impact model that estimates economic and employment gains arising from transportation and infrastructure investments.

FTIP expenditures are categorized by function into three broad industries: construction, transit operations, and architectural and engineering services. Highway operations and maintenance expenditures are included with construction given their similarity. Due to differences in economic impacts arising from different kinds of transportation spending, FTIP transportation project expenditure data is sorted by category, such as construction services, operations and maintenance for transit operations, and architectural and engineering services. Right-of-way acquisition costs are excluded since these represent a transfer of assets and are generally considered to have no economic impact. Each category of spending was modeled separately and their impacts summed. Employment estimates are measured on a job-count basis for employment gains and are reported on an annual basis, i.e., the number of jobs generated in each year respectively.

Over the six-year period, the FTIP program will generate an annual average of approximately 95,000 jobs in the six-county SCAG region. The total employment impact of the 2015 FTIP transportation program is shown in Figure 3.

Figure 3 - Jobs Creation

	2014-2015	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	Average
SCAG	129295	120029	94064	95752	75996	52924	94677
Los Angeles	71009	53375	41898	36560	28183	14166	40865
Orange County	32838	39334	26587	25511	27799	19899	28661
San Bernardino County	10178	9889	7965	8596	5180	9764	8595
Riverside County	11755	13927	15265	22991	12493	8524	14159
Ventura County	3138	3104	2035	1760	2229	520	2131
Imperial County	375	400	314	336	112	51	265

In addition, the rest of the state of California will benefit from spillover impacts of an additional 6,900 jobs per year on average, and an additional 35,000 jobs per year on average will accrue to other states throughout the U.S.

These impacts are primarily related to the construction and maintenance-related benefits of the 2015 FTIP, or the economic and job creation impacts of the direct investment in transportation infrastructure. In addition, there are longer term economic impacts because of the relative efficiency of the regional transportation system. SCAG's 2012-2035 RTP/SCS included an analysis of economic impacts arising from efficiency gains in terms of worker and business economic productivity and goods movement that will beneficially impact Southern California, the state, and the nation in terms of economic development, competitive advantage, and overall economic competitiveness in the global economy. Projects that reduce congestion may help firms produce at lower cost, or allow those firms to reach larger markets or hire more capable employees. An economy with a well-functioning transportation system can be a more attractive place for firms to do business, enhancing the economic competitiveness of the SCAG region.
As Southern California slowly recovers from the Great Recession, these "transportation network efficiency" benefits become all the more important to in terms of attracting and retaining employers in the Southern California region. Economic analysis of the 2012-2035 SCAG RTP/SCS estimated that, when fully implemented, the network efficiency benefits of the RTP/SCS could result in 354,000 jobs per year on average. Transportation modeling of the 2015 FTIP shows overall increased network efficiency on the order of approximately 10%, suggesting increased network efficiency benefits over and above the 354,000 associated with the 2012 RTP.

Program Performance of 2015 FTIP

The 2012-2035 RTP/SCS sets forth a vision to advance Southern California's mobility, economy, and sustainability for the next several decades. To help realize this vision, the RTP/SCS includes specific regional goals and policies. To measure the extent to which the RTP/SCS achieves these goals and policies, and to help guide the identification of preferred strategies and alternatives, SCAG used a set of multi-modal performance measures (see 2012-2035 RTP/SCS and the Performance Measures technical appendix at http://rtpscs.scag.ca.gov/Pages/default.aspx).

MAP-21, the Moving Ahead for Progress in the 21st Century Act, was signed into law on July 6, 2012, and placed new federal requirements on MPOs such as SCAG to establish and use a performance-based approach to transportation decision making and development of transportation plans. Although SCAG has been using performance measures in its metropolitan planning for many years, MAP-21 calls for the establishment of performance targets that address the performance measures specifically called out in the legislation:

- pavement condition on the Interstate System and National Highway System (NHS);
- performance of the Interstate System and NHS;
- bridge condition on the NHS;
- fatalities and serious injuries on all public roads;
- traffic congestion;
- on-road mobile source emissions;
- freight movement on the Interstate System;
- transit safety; and
- transit asset management/state of good repair.

Further, MAP-21 requires that the FTIP include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving these performance targets, thereby linking investment priorities to those targets. The US Department of Transportation (USDOT) is currently moving forward with the rulemaking process to implement the provisions of MAP-21, and SCAG is monitoring and participating in this process. At this point, specific performance measures have not been identified, nor

has work begun on developing performance targets. Therefore, the performance discussion in the 2015 FTIP focuses on key measures from the adopted 2012-2035 RTP/SCS. The results suggest that the SCAG region is already taking steps to address the key performance areas identified in MAP-21.

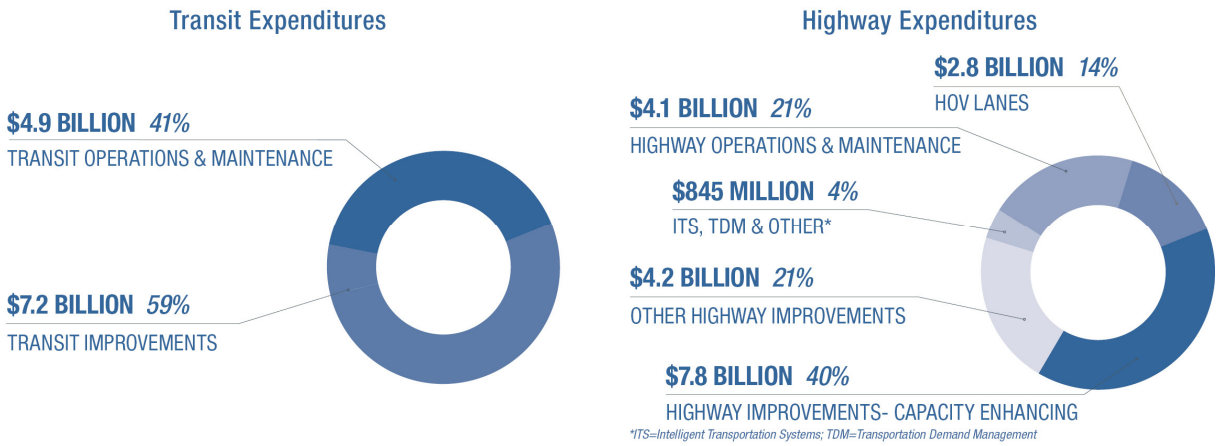

The FTIP reflects how the region is moving forward in implementing the transportation policies and goals of the 2012-2035 RTP/SCS, The 2015 FTIP funding breakdown in Figure 4 shows a shift in the region's transportation needs, with a 65% increase in transit improvements from the 2011 FTIP (2011 FTIP was the last FTIP prior to SB375 and the adoption of the 2012-2035 RTP/SCS) and an emphasis on operations and maintenance of the transportation system.

Figure 4 – Shifting Priorities in the Region

	2011 FTIP Amount Programmed ($ Millions)	2015 FTIP Amount Programmed ($ Millions)
Transit Improvements	$4,300	$7,200
Transit Operations & Maintenance	$4,300	$4,900
Highway Improvements	$17,900	$14,800
Highway Operations & Maintenance	$3,700	$4,100
Intelligent Transportation Systems & Transportation Demand Management*	$698	$655
Other	$330	$190

** Includes a portion of active transportation funds (see below).*

2015 FTIP Investment Categories

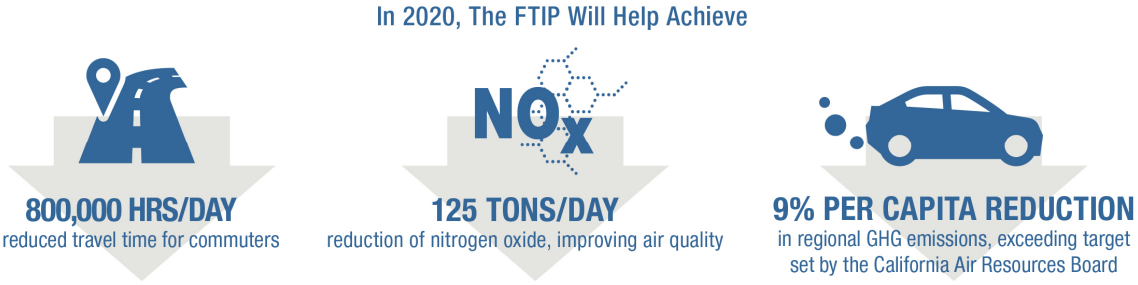

The region's commitment to active transportation is also growing – with investments outpacing the financial projections made in the 2012-2035 RTP/SCS for achieving its active transportation funding goals. Figure 5 shows an estimated $520 million funding nearly 200 active transportation projects are included in the 2015 FTIP, surpassing the $400 million SCAG had projected over roughly the same time period in the 2012-2035 RTP/SCS. The region is accelerating investments in active transportation projects and still more is being done. The 2015 FTIP does not capture all projects funded entirely with local funds nor projects funded by the California Active Transportation Program (ATP) grants. SCAG estimates that the region will receive at least $150 million in ATP funding through 2020, and is in the

process of documenting local initiatives not included in the 2015 FTIP to present a clearer picture of active transportation investments in the region.

Figure 5 – Active Transportation Expenditures (Millions)		
Bicycle and Pedestrian Infrastructure	$259.0	48%
Dedicated Bicycle Infrastructure	$78.0	14%
Dedicated Pedestrian Infrastructure	$85.0	19%
First Mile/Last Mile Strategies	$41.2	8%
Bicycle Detection & Traffic Signals	$2.2	<1%
Bicycle and/or Pedestrian Projects as Part of Larger Projects	$55.2	10%
Total	$520.6	100%

The fruits of these investments are reflected in mobility and environmental benefits. In 2020, the FTIP is projected to help the region to achieve a reduction of over 800,000 hours per day in travel time. This would result in a reduction of 125 tons per day of nitrogen oxide, a pollutant which forms from emissions from cars, trucks and buses, among other sources. This would also result in a nine percent per capita reduction in regional greenhouse gas emissions.

TRANSPORTATION CONFORMITY

The FTIP must undergo the following criteria requirements to be in compliance: it must be consistent with the 2012-2035 RTP/SCS; it must meet regional emissions tests; it must meet timely implementation of TCMs; it must go through inter-agency consultation and public involvement; and it must be financially constraint.

CONFORMITY DETERMINATIONS FOR THE DRAFT 2015 FTIP

The 2015 FTIP meets all federal transportation conformity requirements and meets the five tests required under the U.S. DOT Metropolitan Planning Regulations and EPA's Transportation Conformity Regulations. SCAG has made the following conformity findings for the 2015 FTIP under the required federal tests.

- ✓ **Consistency with 2012-2035 RTP/SCS Test**
  Finding: SCAG's 2015 FTIP (project listing) is consistent with the 2012-2035 RTP/SCS as amended (policies, programs, and projects).

✓ Regional Emissions Tests

These findings are based on the regional emissions test analyses shown in Tables 21 - 48 in Section II of the Technical Appendix.

Finding: The regional emissions analyses for the 2015 FTIP is an update to the regional emissions analyses for the 2013 FTIP as previously amended and are identical to the regional emissions analyses for the Amendment No. 2 to the 2012-2035 RTP/SCS.

Finding: The 2015 FTIP regional emissions analysis for 1997 and 2006 $PM_{2.5}$ and its precursors meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in the South Coast Air Basin (SCAB).

Finding: The 2015 FTIP regional emissions for 2008 ozone precursors meet all applicable emission budget tests for all milestone, attainment, and planning horizon years for the Morongo Band of Mission Indians (Morongo), Pechanga Band of Luiseno Mission Indians of the Pechanga Reservation (Pechanga), SCAB excluding Morongo and Pechanga, South Central Coast Air Basin ([SCCAB], Ventura County portion), Western Mojave Desert Air Basin ([MDAB], Los Angeles County Antelope Valley portion and San Bernardino County western portion of MDAB), and the Salton Sea Air Basin ([SSAB], Riverside County Coachella Valley and Imperial County portions).

Finding: The 2015 FTIP regional emissions for NO_2 meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in the SCAB.

Finding: The 2015 FTIP regional emissions for CO meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in SCAB.

Finding: The 2015 FTIP regional emissions for PM_{10} and its precursors meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in SCAB and the SSAB (Riverside County Coachella Valley portion).

Finding: The 2015 FTIP regional emissions for PM_{10} meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years for the MDAB (San Bernardino County portion excluding Searles Valley portion) and Searles Valley portion of San Bernardino County) and for the SSAB (Imperial County portion).

Finding: The 2015 FTIP regional emissions analysis for 2006 $PM_{2.5}$ and its precursors meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years for the SSAB (urbanized area of Imperial County portion).

✓ Timely Implementation of TCM Test

Finding: The TCM project categories listed in the 1994/1997/2003/2007/2012 Ozone SIPs for the SCAB area were given funding priority, are expected to be implemented on schedule, and, in the case of any delays, any obstacles to implementation have been or are being overcome.

Finding: The TCM strategies listed in the 1994 (as amended in 1995) Ozone SIP for the SCCAB (Ventura County) were given funding priority, are expected to be implemented on schedule, and, in the case of any delays, any obstacles to implementation have been or are being overcome.

✓ Inter-agency Consultation and Public Involvement Test

Finding: The 2015 FTIP complies with all federal and state requirements for interagency consultation and public involvement by following the strategies described in SCAG's Public Participation Plan (PPP) (for more information on SCAG's PPP, please visit http://scag.ca.gov/publicparticipationplan/). In accordance with the PPP, SCAG's Transportation Conformity Working Group serves as a forum for interagency consultation.

The 2015 FTIP was discussed with the Transportation Conformity Working Group (TCWG), which includes representatives from the federal, state, and local air quality and transportation agencies, on multiple occasions (September 24, 2013; October 22, 2013; December 3, 2013; January 28, 2014; February 25, 2014; March 25, 2014; April 22, 2014; May 27, 2014; and June 24, 2014). The draft conformity analysis for the 2015 FTIP was released for a 30-day public review on July 1, 2014 and two public hearings were held on July 10 and July 24, 2014 at the SCAG's Los Angeles office with video-conferencing available from the County Regional Offices. The 2015 FTIP is posted on the SCAG website, noticed in numerous newspapers, and distributed to libraries throughout the region. All conformity-specific comments, as well as other comments on the 2015 FTIP, have been documented and responded to as appropriate.

✓ Financial Constraint Test

Finding: The 2015 FTIP is fiscally constrained since it complies with federal financial constraint requirements under 23 U.S. Code Section 134(h) and 23 CFR Section 450.324(e) and is consistent with the Financial Plan contained in the 2012-2035 RTP/SCS. SCAG's 2015 FTIP demonstrates financial constraint in the financial plan by identifying all transportation revenues including local, state, and federal sources available to meet the region's programming totals.

An international and regional planning forum trusted for its leadership and inclusiveness in developing plans and policies for a sustainable Southern California.

Our MISSION

Under the guidance of the Regional Council and in collaboration with our partners, our mission is to facilitate a forum to develop and foster the realization of regional plans that improve the quality of life for Southern Californians.

Funding: The preparation of this document was financed in part through funds from the Federal Highway Administration and Federal Transit Administration in accordance with the provisions under the Metropolitan Planning Program as set forth in Section 104(f) of Title 23 of the U.S. Code. Additional financial assistance was provided by the California Department of Transportation.

CONFORMITY REQUIREMENTS AND FINDINGS

PREFACE

The federally required transportation conformity analyses and findings for the 2015 Federal Transportation Improvement Program (FTIP) are set forth in the following sections. These analyses are identical to the conformity analyses for the Amendment No.2 to the 2012-2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS). All transportation and air quality conformity analyses in this document are in compliance with applicable federal and state laws, including conformity and transportation planning regulations. This Technical Appendix contains three sections that specifically address the conformity analyses required for federal approval:

- Section I summarizes the conformity requirements and findings.
- Section II provides modeling methodologies and assumptions and results of the regional emissions analyses for the 2015 FTIP.
- Section III reports on the timely implementation of Transportation Control Measures (TCMs) and describes the implementation status of all applicable TCMs in the SCAG region.

STATE AND FEDERAL REQUIREMENTS

SCAG, the Metropolitan Planning Organization (MPO) for Southern California, is mandated to comply with federal and state transportation and air quality regulations. Federal transportation regulations authorize federal funding for highway, highway safety, transit, and other surface transportation programs. The Federal Clean Air Act (CAA) establishes air quality standards and planning requirements for various criteria air pollutants.

Regional Transportation Plan and Federal Transportation Improvement Program

Federal transportation law requires that SCAG develop a RTP for a 20-year minimum period. Additionally, SCAG must develop a FTIP that allocates funds over a four-year period to implement the RTP. In the federal nonattainment or maintenance areas, the RTP and FTIP must comply with the transportation conformity requirements of the U.S. Environmental Protection Agency's (EPA) Transportation Conformity Regulations.

The biennial FTIP update is produced on an even-year cycle, and is consistent with the State Transportation Improvement Program (STIP) cycle.

Federal Nonattainment and Maintenance Areas

EPA may make a federal "nonattainment area" designation to any area that has not met CAA health standards for one or more criteria pollutants. A nonattainment area designation may require additional air-quality controls for transportation plans, programs, and projects. The California Air Resource Board (ARB) recommends the federal nonattainment area boundaries to EPA for final designations. Subsequently, the EPA finalizes and defines the boundaries of the federally designated nonattainment areas for each criteria pollutant.

A maintenance area is any geographic region of the United States previously designated nonattainment pursuant to the CAA Amendments of 1990 and subsequently redesignated to attainment subject to the requirement to develop a maintenance plan under section 175A of the CAA, as amended.

State Implementation Plans (SIPs)

To comply with the CAA in achieving the National Ambient Air Quality Standards (NAAQS), the ARB develops SIPs for federal nonattainment and maintenance areas. In California, SIP development is a joint effort of the local air agencies and the ARB working with federal, state, and local agencies (including the MPOs). Local air quality management plans (AQMPs) are prepared in response to federal and state requirements.

In California, all SIPs have to go through three steps: air district action, ARB action, and finally EPA action. Each air district submits its respective AQMPs/SIPs to the ARB. The ARB is the official state agency that submits the SIPs to EPA for all federal nonattainment and maintenance areas in California.

The SIP includes two important components relative to transportation conformity requirements – emissions budgets (for all criteria pollutant SIPs) and TCMs (for ozone and CO SIPs only). Emissions budgets set an upper limit which transportation activities (for SIP purposes motor vehicles are also known as "on-road mobile sources") are permitted to emit. TCMs, required for serious and above Ozone nonattainment areas and serious CO nonattainment areas, are strategies to reduce emissions from on–road mobile sources. The 2015 FTIP must conform to the applicable SIPs [i.e., emissions budgets and TCMs] in the SCAG region.

Federal Transportation Conformity Rule

Transportation conformity is required under CAA section 176(c) to ensure that federally supported highway and transit project activities "conform to" the purpose of the SIP. Conformity currently applies to areas that are designated nonattainment, and those re-designated to attainment after 1990, maintenance areas, with plans developed for the specific transportation-related criteria pollutants. Conformity for the purpose of the SIP means that transportation activities will not cause new air quality violations, worsen existing violations, or delay timely attainment of the relevant NAAQS. The transportation conformity regulation is found in 40 CFR part 93 and provisions related to conformity SIPs are found in 40 CFR 51.390.

CLEAN AIR ACT DESIGNATIONS IN THE SCAG REGION

Four criteria air pollutants are subject to transportation conformity for the 2015 FTIP:

- Carbon Monoxide (CO) - a product of automobile exhaust. CO reduces the flow of oxygen in the bloodstream and is particularly dangerous to persons with heart disease.
- Nitrogen Dioxide (NO_2) - created under the high pressure and temperature conditions in internal combustion engines. It impacts the respiratory system and degrades air visibility due to its brownish color.
- Ozone - formed by the reaction between volatile organic compounds (VOC) and oxides of nitrogen (NOx) in the presence of sunlight. Ozone negatively impacts the respiratory system.
- Particulate Matter (PM_{10} and $PM_{2.5}$) - extremely small particles and liquid droplets associated with dust, soot and combustion products. Particulate pollution has been linked to significant health problems, including aggravated asthma, increases in adverse effects on respiratory systems, chronic bronchitis, decreased lung function, and premature death.

Air Basins and Air Districts in the SCAG Region

SCAG is a six-county region that contains four air basins and five air districts:

- The South Coast Air Basin (SCAB) covers the urbanized portions of Los Angeles, Riverside, and San Bernardino counties as well as the entire County of Orange. With the exception of the Morongo and Pechanga Areas of Indian Country for the 2008 ozone standard, the SCAB is within the jurisdiction of the South Coast Air Quality Management District (SCAQMD). For the 2008 ozone standard, the Morongo and Pechanga Areas of Indian Country within the SCAB are administered by their respective Indian Tribal Governments.
- The Ventura County portion of the South Central Coast Air Basin (SCCAB) covers Ventura County and is within the jurisdiction of the Ventura County Air Pollution Control District (VCAPCD).
- The Mojave Desert Air Basin (MDAB) covers the desert portions of Los Angeles, Riverside, and San Bernardino counties. A small portion of this air basin is in Kern County and outside of the SCAG region. The SCAG portion of this air basin is under the jurisdiction of three air districts:
  - The Mojave Desert Air Quality Management District (MDAQMD) administers portions of the MDAB situated in San Bernardino County and eastern Riverside County. The Riverside County portion is known as the Palo Verde Valley Area.
  - The SCAQMD administers the portion of MDAB in Riverside County situated between the Salton Sea Air Basin (SSAB) and the Palo Verde Valley Area.
  - The Antelope Valley Air Quality Management District (AVAQMD) administers the Los Angeles County portion of the MDAB.
- The Salton Sea Air Basin (SSAB) covers all of Imperial County and the eastern portion of Riverside County (excluding the MDAB portion). This air basin is under jurisdiction of two air districts:

- The Imperial County Air Pollution Control District (ICAPCD) administers the Imperial County portion of the SSAB.
- The SCAQMD administers the Riverside County portion of the SSAB situated between the SCAB and the MDAB.

Nonattainment/Maintenance Areas in the SCAG Region

The federal nonattainment/maintenance areas in the SCAG region are:

- Ventura County Portion of SCCAB – nonattainment area for 2008 8-hour Ozone
- Morongo Areas of Indian Country (Morongo Band of Mission Indians) - nonattainment area for 2008 8-hour Ozone
- Pechanga Areas of Indian Country (Pechanga Band of Luiseno Mission Indians of the Pechanga Reservation) - nonattainment area for 2008 8-hour Ozone
- SCAB excluding Morongo and Pechanga Areas of Indian Country – nonattainment 2008 8-hour Ozone
- SCAB – nonattainment or maintenance area for: 2011 CO; 2010 NO_2; 1997 and 2006 $PM_{2.5}$; and 1997 PM_{10}
- Western MDAB (Antelope Valley portion of Los Angeles County and San Bernardino County portion of MDAB excluding Searles Valley) – nonattainment area for 2008 8-hour Ozone
- San Bernardino County portion of MDAB:
  - Searles Valley – nonattainment for 1997 PM_{10}
  - San Bernardino County (excluding the Searles Valley area) – nonattainment area for 1997 PM_{10}
- Riverside County Portion of SSAB (Coachella Valley) – nonattainment area for: 1997 PM_{10}, and 2008 8-hour Ozone
- Imperial County Portion of SSAB – nonattainment for 2008 8-hour Ozone, 2006 $PM_{2.5}$, and 1997 PM_{10}

The boundaries of the air basins, air districts, and nonattainment and maintenance areas are illustrated in Exhibit A at the end of this section.

Applicable Emissions Budgets in the SCAG Region

For the 2015 FTIP conformity determination, the applicable emissions budgets are established in the SIPs and found adequate by EPA as described below:

- Ventura County Portion of SCCAB
  - 2008 8-Hour Ozone Early Progress Plan (budgets effective May 20, 2008)
- SCAB
  - 2007 Ozone SIP (budgets effective April 30, 2012)
  - 2007 $PM_{2.5}$ SIP (budgets effective January 9, 2012)
  - 2007 CO SIP (Maintenance Plan) (budgets effective June 11, 2007)
  - 2007 NO_2 SIP (Maintenance Plan) (budgets effective January 4, 2010)
  - 2010 PM_{10} SIP (Maintenance Plan) (budgets effective July 26, 2013)

- Riverside County Portion of SSAB (Coachella Valley)
  - 2008 8-Hour Ozone Early Progress Plan (budgets effective May 22, 2008)
  - 2003 PM_{10} SIP (budgets effective April 9, 2004)
- Western MDAB (Antelope Valley and portion of Los Angeles County and San Bernardino County portion of MDAB excluding Searles Valley)
  - 2008 8-Hour Ozone Early Progress Plan (budgets effective May 20, 2008)
- Imperial County Portion of SSAB (Ozone)
  - 2008 8-Hour Ozone Early Progress Plan (budgets effective May 20, 2008)

SIP Status in Other Areas of the SCAG Region

In absence of the applicable emissions budgets for conformity, SCAG has to conduct interim emissions tests for regional emissions analysis of the 2015 FTIP. At the present time, there is no federally approved SIP for the following areas.

- San Bernardino County Portion of MDAB (PM_{10})
- Searles Valley Portion of MDAB (PM_{10})
- Imperial County Portion of SSAB (PM_{10} and $PM_{2.5}$)

Applicable TCMs

The SIP documents for the applicable TCMs in the SCAG region are listed below:

- SCAB – The TCM categories established in the 2007 Ozone AQMP/SIP functions as the applicable TCM categories for the conformity finding (timely implementation of TCM analysis). The TCM categories in the 2007 AQMP/SIP are consistent with TCM categories in the 1997 (as amended in 1999) and 2003 Ozone AQMPs/SIPs as well as the TCM01 categories listed in the 1994 Ozone AQMP/SIP.

  EPA is proposing to approve the portions of the Final 2012 South Coast AQMP that update the approved control strategy for the 1997 8-hour ozone standard and that provide a demonstration of attainment of the 1-hour ozone standard by December 31, 2022. If finalized as proposed, the TCM categories established in the 2012 Ozone AQMP/SIP will function as the applicable TCM categories for the conformity finding. The TCM categories in the 2012 Ozone AQMP/SIP are consistent with the TCM categories in the 2007 Ozone AQMP/SIP.

- The Ventura County portion of SCCAB – The TCM strategies incorporated in the 1994 (as amended in 1995) Ozone AQMP/SIP function as the applicable TCMs for conformity finding.

It should be noted that while the 1-hour Ozone standard has been revoked and replaced with an 8-hour Ozone standard, the TCMs in the 1-hour Ozone SIPs remain applicable.

There are no applicable TCMs in any other federal nonattainment or maintenance areas in the SCAG region. For more information on TCMs and timely implementation of the TCMs, see Section III of this document.

CONFORMITY STATUS OF CURRENT RTP AND FTIP

The FHWA and FTA approved the conformity determination for Amendment No. 1 to the 2012-2035 RTP/SCS and Amendment No. 4 to the 2013 FTIP on July 15, 2013 for the following nonattainment and maintenance areas:

- Ventura County Portion of SCCAB – nonattainment area for 2008 8-hour Ozone
- Morongo Areas of Indian Country (Morongo Band of Mission Indians) - nonattainment area for 2008 8-hour Ozone
- Pechanga Areas of Indian Country (Pechanga Band of Luiseno Mission Indians of the Pechanga Reservation) - nonattainment area for 2008 8-hour Ozone
- SCAB excluding Morongo and Pechanga Areas of Indian Country – nonattainment 2008 8-hour Ozone
- SCAB – nonattainment or maintenance area for: 2011 CO; 2010 NO_2; 1997 and 2006 $PM_{2.5}$; and 1997 PM_{10}
- Western MDAB (Antelope Valley portion of Los Angeles County and San Bernardino County portion of MDAB excluding Searles Valley) – nonattainment area for 2008 8-hour Ozone
- San Bernardino County portion of MDAB:
  - Searles Valley – nonattainment for 1997 PM_{10}
  - San Bernardino County (excluding the Searles Valley area) – nonattainment area for 1997 PM_{10}
- Riverside County Portion of SSAB (Coachella Valley) – nonattainment area for: 1997 PM_{10}, and 2008 8-hour Ozone
- Imperial County Portion of SSAB – nonattainment for 2008 8-hour Ozone, 2006 $PM_{2.5}$, and 1997 PM_{10}

CONFORMITY TESTS AND FINDINGS

Under the U.S. DOT Metropolitan Planning Regulations and EPA's Transportation Conformity Regulations, SCAG's 2015 FTIP needs to pass five tests:

✓ Consistency with SCAG's RTP/SCS
(23 CFR, Section 450.324 of the U.S. DOT Metropolitan Planning Regulations)

✓ Regional Emission Analysis
(40 CFR, Sections 93.109, 93.110, 93.118, and 93.119)

✓ Timely Implementation of TCMs
(40 CFR, Section 93.113)

✓ Financial Constraint
(40 CFR, Section 93.108 and 23 CFR, Section 450.324)

✓ Interagency Consultation and Public Involvement
(40 CFR, Sections 93.105 and 93.112 and 23 CFR, Section 450.324)

SCAG has made the following conformity findings for the 2015 FTIP under the required federal tests:

✓ **Consistency with 2012-2035 RTP/SCS Test**

Finding: SCAG's 2015 FTIP (project listing) is consistent with the 2012-2035 RTP/SCS as amended (policies, programs, and projects).

✓ **Regional Emissions Tests**

These findings are based on the regional emissions test analyses shown in Tables 21 - 48 in Section II of this Technical Appendix.

Finding: The regional emissions analyses for the 2015 FTIP is an update to the regional emissions analyses for the 2013 FTIP as previously amended and are identical to the regional emissions analyses for the Amendment No. 2 to the 2012-2035 RTP/SCS.

Finding: The 2015 FTIP regional emissions analysis for 1997 and 2006 $PM_{2.5}$ and its precursors meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in the South Coast Air Basin (SCAB).

Finding: The 2015 FTIP regional emissions for 2008 ozone precursors meet all applicable emission budget tests for all milestone, attainment, and planning horizon years for the Morongo Band of Mission Indians (Morongo), Pechanga Band of Luiseno Mission Indians of the Pechanga Reservation (Pechanga), SCAB excluding Morongo and Pechanga, South Central Coast Air Basin ([SCCAB], Ventura County portion), Western Mojave Desert Air Basin ([MDAB], Los Angeles County Antelope Valley portion and San Bernardino County western portion of MDAB), and the Salton Sea Air Basin ([SSAB], Riverside County Coachella Valley and Imperial County portions).

Finding: The 2015 FTIP regional emissions for NO_2 meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in the SCAB.

Finding: The 2015 FTIP regional emissions for CO meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in SCAB.

Finding: The 2015 FTIP regional emissions for PM_{10} and its precursors meet all applicable emission budget tests for all milestone, attainment, and planning horizon years in SCAB and the SSAB (Riverside County Coachella Valley portion).

Finding: The 2015 FTIP regional emissions for PM_{10} meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years for the MDAB (San Bernardino County portion excluding Searles Valley portion) and Searles Valley portion of San Bernardino County) and for the SSAB (Imperial County portion).

Finding: The 2015 FTIP regional emissions analysis for 2006 $PM_{2.5}$ and its precursors meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years for the SSAB (urbanized area of Imperial County portion).

✓ **Timely Implementation of TCM Test**

Finding: The TCM project categories listed in the 1994/1997/2003/2007/2012 Ozone SIPs for the SCAB area were given funding priority, are expected to be implemented on schedule, and, in the case of any delays, any obstacles to implementation have been or are being overcome.

Finding: The TCM strategies listed in the 1994 (as amended in 1995) Ozone SIP for the SCCAB (Ventura County) were given funding priority, are expected to be implemented on schedule, and, in the case of any delays, any obstacles to implementation have been or are being overcome.

✓ **Inter-agency Consultation and Public Involvement Test**

Finding: The 2015 FTIP complies with all federal and state requirements for interagency consultation and public involvement by following the strategies described in SCAG's Public Participation Plan (PPP) (for more information on SCAG's PPP, please visit http://scag.ca.gov/Documents/PPP2014_Adopted-FINAL.pdf). In accordance with the PPP, SCAG's Transportation Conformity Working Group serves as a forum for interagency consultation.

The 2015 FTIP was discussed with the Transportation Conformity Working Group (TCWG), which includes representatives from the federal, state, and local air quality and transportation agencies, on multiple occasions (September 24, 2013; October 22, 2013; December 3, 2013; January 28, 2014; February 25, 2014; March 25, 2014; April 22, 2014; May 27, 2014; and June 24, 2014). The draft conformity analysis for the 2015 FTIP was released for a 30-day public review on July 1, 2014 and two public hearings were held on July 10 and July 24, 2014 at the SCAG's Los Angeles office with video-conferencing available from the County Regional Offices. The 2015 FTIP is posted on the SCAG website, noticed in numerous newspapers, and distributed to libraries throughout the region. All conformity-specific comments, as well as other comments on the 2015 FTIP, have been documented and responded to as appropriate.

✓ **Financial Constraint Test**

Finding: The 2015 FTIP is fiscally constrained since it complies with federal financial constraint requirements under 23 U.S. Code Section 134(h) and 23 CFR Section 450.324(e). SCAG's 2015 FTIP demonstrates financial constraint in the financial plan by identifying all transportation revenues including local, state, and federal sources available to meet the region's programming totals.

REGIONAL EMISSIONS ANALYSIS

BACKGROUND

SCAG's Regional Travel Demand Model is an advanced four step model that meets and in many cases exceeds the state of the practice. The Model meets all the requirements of the Transportation Conformity Rule, specifically 40 CFR 93.122(b) (see Table 10). The results from the Regional Travel Demand Model are input to the ARB's EMFAC model for calculating regional emissions.

REGIONAL TRAVEL DEMAND MODEL OVERVIEW

SCAG is the primary agency responsible for the development and maintenance of travel demand forecasting models for the SCAG Region. SCAG has been developing and improving these travel demand forecasting models since 1967. SCAG's Modeling Task Force, consisting of modeling technical peers from the various county and state agencies and private firms, meets every other month at SCAG to discuss regionally significant modeling projects and modeling issues, including the development, maintenance, and application of SCAG's Regional Travel Demand Model as well as the travel demand models used by other stakeholders agencies. The SCAG model has undergone periodic peer reviews, the latest occurring in June 2011 (see SCAG Regional Travel Model Enhancement Program and Year 2008 Model Validation Report).

SCAG's regional transportation modeling area covers the entire SCAG region, including Counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. This modeling area is divided into 11,267 Transportation Analysis Zones (TAZs) with an additional 40 external cordon stations, 12 airport nodes, and 31 port nodes for the Ports of Los Angeles and Long Beach. The Model was validated for the Year 2008, which is the base year for the 2012-2035 Regional Transportation Plan/Sustainable Communities Strategy (2012-2035 RTP/SCS) (see Year 2008 Model Validation Report).

MODEL INPUTS AND ASSUMPTIONS

SCAG's modeling methodologies, parameters, and inputs are regularly updated to reflect current travel conditions and demographic changes.

Socioeconomic Data by Census Block Group – Socioeconomic data (SED), which describes population, households, and employment at Block Group level, are used as major input to SCAG's Regional Travel Demand Model. The concept is that travel is a derived demand, which is directly related to the demographics and economic characteristics of households. The model uses both aggregate and disaggregate SED. The aggregate data are counts of population, households and employment for each TAZ. The disaggregate data are Public Use Microdata Sample (PUMS) records from the Census, which contain detailed information about person and household characteristics in the region.

Highway Networks – The highway networks were originally developed from the Thomas Brothers GIS database and then updated with street inventory survey data (the latest SCAG region street inventory survey was conducted in year 2008) in the TransCAD environment. The networks include detailed coding of the region's freeway system (mixed-flow lane, auxiliary lane, HOV lane, HOT lane, toll lane, truck lane, etc.) as well as arterials, major collectors, and some minor collectors. Separate highway networks for each time period were developed to simulate time of day differences in roadway capacity and vehicle travel restrictions, such as arterial parking restrictions during peak hours, HOV lane minimum vehicle occupancy requirement, and heavy-duty vehicle restrictions on certain roadways.

Land Use and Accessibility for Auto Ownership Model – Accessibility refers to the ease of reaching goods, services, activities, and destinations. Many factors affect accessibility, including the quality and affordability of transport options, transport system connectivity, and land use patterns. The auto and non-auto accessibilities of a zone directly influence household auto ownership. Land use patterns, in particular high density and mixed-use developments, also directly influence household auto ownership.

Land Use, Parking, Pricing, TDM, Walk and Bike for Mode Choice Model – Land use, zonal parking, roadway pricing, and Travel Demand Management (TDM) are inputs to mode choice, in addition to the modal level of service obtained from the highway, transit, and non-motorized networks. Parking fees/restrictions, road pricing cost/policies, and land use densities have direct influence on travelers' mode choice. For example, increasing parking fees encourages travelers to shift from auto to transit. Also, high employment and residential densities encourage the use of transit and non-motorized modes.

Transit Networks – The transit networks include more than 3,300 transit routes/patterns, representing approximately 70 transit operators with fixed route service over the entire SCAG region. The transit routes are completely compatible with the highway geography. Separate transit networks are developed for five time periods based on the transit service information contained in the up-to-date Los Angeles County Metropolitan Transportation Authority (LACMTA) Transit Trip Master database and data collected from transit agencies not included in the TripMaster database. Transit services are grouped into 8 transit modes (Local Bus, Rapid Bus, Express Bus, Bus Rapid Transit (BRT), Transit Way, Urban Rail, Commuter Rail, and High Speed Rail (HSR), according to their service characteristics and fare structures. The transit networks include detailed representation of all rail stations, transfer opportunities among the different modes and between transit routes and park-and-ride locations. A TeleAtlas street network along with Census Block level data is used to calculate walk accessibilities and to develop walk access to transit.

External Trips – External trips (i.e., inter-regional trips) are trips with one or both ends located outside the SCAG modeling area. SCAG's model includes 40 cordon locations consisting of freeways and arterials leading into and out of the SCAG modeling area. A cordon traffic origin-destination survey was conducted in year 2003 and the results were used to develop inter-regional Light and Medium (LM) duty vehicle trip matrices, including External-to-External (E-E), External-to-Internal (E-I), and Internal-to-External (I-E) trips. The origin-destination survey is updated for the 2012-2035 RTP/SCS and 2015 FTIP.

Airport Trips – Airports trips include passenger trips and cargo trips, and are represented by approximately 100 zones in the SCAG modeling area. The daily airport passenger trips are disaggregated into regional model TAZ (using employment data for business trips and household data for non-business trips) and further split into five time periods by four modes of travel: drive alone, 2-person carpool, 3-person carpool, and 4-or-more person carpool. The airport vehicle trips are merged with the other auto vehicle trips prior to the network assignment step. Air cargo truck trips are disaggregated into the regional model TAZs based on the North American Industry Classification System (NAICS) employment data. The daily air cargo trips are split into five time periods by three heavy-duty truck (HDT) types (light HDT, medium HDT, and heavy HDT) and merged with the HDT truck trips prior to network assignment.

Employment, Commodity Flow, Ports, and Warehouse Activities – These inputs to the transportation model are data related to the freight activities, including employment by industrial classification, commodity flows, seaports, warehousing, trucking and wholesale trade, etc.

MODEL MODULES AND PROCEDURES

Household Classification and Population Synthesizer – This module classifies zonal households into several household segments. Prior to the application of Auto Ownership module, households are classified across the following four attributes:

1. Household Size (4 categories): the number of one-person households, two-person households, three-person households, and four or more person households.
2. Number of Workers (4 categories): the number of households with no worker, one worker, two workers, and three workers or more.
3. Household Income (4 categories): the number of households with annual household income (in 1999 dollars) less than $25K (Low), $25K–$50K (Medium), $50K–$100K (High), and $100K or more (Very High).
4. Type of Dwelling Unit (2 categories): single-family detached, and multi-family/attached and group quarters.

For Home-Based-Work (HBW) trip generation, households are aggregated across the dwelling unit type and size attributes, and then further disaggregated into four Age of Head of Household groups (18 to 24 years old, 25 to 44 years old, 45 to 64 years old, and 65 years old or older). The Population Synthesizer is a module that generates a synthetic population by expanding existing disaggregate sample data (from 2000 Census PUMS data) to mirror known aggregate distributions of household and person attributes (from SCAG zonal data). A set of population and household variables of interest are used as control variables in the population synthesizer. A synthetic population is generated for the entire SCAG region using this procedure.

Auto Ownership Model – The auto ownership model provides an estimate of households by auto ownership level (0, 1, 2, 3, 4 or more) for each zone. This information is used in trip generation models to estimate zonal person trips. The basic structure of the auto ownership model is a multinomial logit formulation, using input socioeconomic variables (household size, household income, number of workers, and type of dwelling unit) and land use and accessibility

variables (mixed residential and employment, intersection density, transit accessibility, and non-motorized accessibility).

Trip Generation Model – Trip generation is the process of estimating daily person trips generated by (i.e., trip production) and attracted to (i.e., trip attraction) each TAZ on an average weekday. The trip generation model contains 9 trip purposes: home-based work (HBW), home-based school (HBSC), home-based college/university (HBCU), home-based shopping (HBS), home-based social-recreational (HBSR), home-based serving-passenger (HBSP), home-based other (HBO), work-based other (WBO), and other-based other (OBO) trips. HBW trips are further split into 10 types based on trip categories ("Direct" versus "Strategic") and market segmentation (zero car households, households with fewer cars than workers, other households with income less than $25,000, income between $25,000 and $50,000, and income equal to or higher than $50,000). "Direct" homework trips go directly between home and work. "Strategic" home-work trips include one or more intermediate stops between home and work. In total, there are 16 trip types: 8 types for home-based work, and one type for each of the other 8 trip purposes.

Trip Distribution Models – The trip distribution model estimates the number of trips from each TAZ to each other TAZ. Destination choice models are developed for HBW, HBS, HBSR, HBSP, HBO, WBO, and OBO trip purposes while a gravity model approach is used to distribute trips for HBSC and HBCU trip purposes. The trip distribution is estimated as a function of the attractiveness of the destination zone and the travel impedance from origin to destination. The destination choice models include other variables, such as intrazonal indicators, employment or residential density variables, and flags for special generators. For each of the 9 trip purposes, the productions and attractions are split into both peak and off-peak periods.

Mode Choice Models – Mode choice is the process of taking the zone-to-zone person trips by trip purpose from the trip distribution model, and determining how many of these trips are made by various travel modes. The SCAG mode choice model is a nested logit model. The top branch of the nesting structure includes Auto, Transit, and Non-Motorized. The branch under Auto includes Drive Alone and Shared Ride which is further split into 2-person carpool, 3-person carpool, and 4-or-more person carpool. The branch under Transit includes Local Bus, Rapid Bus, Express Bus, BRT, Transit Way, Urban Rail, Commuter Rail, and High Speed Rail (HSR). The branch under Non-Motorized includes Walk and Bicycle. Separate mode choice models are estimated for each trip purpose and time period. Mode choice is a function of level of service attributes (in-vehicle travel time, out-of-vehicle travel time, fares, parking fees, roadway tolls, auto operating costs), household attributes such as income, and zonal attributes such as residential and employment densities.

Heavy Duty Truck (HDT) Model – HDT trucks are defined by ARB as a truck with a gross vehicle weight of 8,500 pounds or more. The SCAG HDT Model includes internal truck and external truck trip models. The internal truck trips are generated using a cross classification method by applying truck trip rates for a two-digit NAICS code by the number of employees in that category and the number of households within each zone. The daily truck trip ends are distributed using a gravity model to create daily truck trips for each of the three truck types: 1) light HDT, 2) medium HDT, and 3) heavy HDT. The external truck trips are developed using an

econometric model to estimate inbound and outbound commodity flows by counties. The county to county commodity data are allocated to the zonal level based on NAICS employee distribution and then converted to trucks trips using observed data collected during model development. Seaport and airport related truck trips were included as special generator truck trips. The daily truck trips by truck types are allocated to five time periods and merged with the auto trips in trip assignment.

Network Assignment Model – Network assignment is the process of loading vehicle trips on the appropriate networks. For highway assignment, the Regional Model consists of a series of multi-class simultaneous equilibrium assignments for eight classes of vehicles (drive alone, 2-person carpool using HOV, 2-person carpool using general purpose lanes, 3 or more person carpool using HOV, 3 or more person carpool using general purpose lanes, light HDT, medium HDT, and heavy HDT) and for each of the five time periods. During this assignment process, trucks are converted to Passenger Car Equivalent (PCE) for each link and each truck type based on 1) percentage of trucks, 2) percentage of grade, 3) length of the link, and 4) level of congestion (v/c ratios). Transit vehicles are also included in the highway assignment. For transit trip assignment, the final transit trips from the last loop mode choice models are aggregated by access mode and time period, and then assigned to transit networks for each time period. The vehicle trip tables obtained from mode choice, airport, and heavy duty models are aggregated to the 4,109 Tier 1 zone systems prior to network assignment.

Model Convergence – In order to maintain consistency between the speeds predicted by the highway assignment and the travel times input to the entire travel demand model chain, the predicted speeds are used to re-compute highway and transit travel times, and the entire model sequence are repeated until input and output speeds are consistent with each other.

Highway Performance Monitoring System (HPMS) VMT-based Post-Process – In this step, the outputs from the Network Assignment Model, which including traffic volumes, speeds, Vehicle Miles Traveled (VMT), Vehicle Hours Traveled (VHT), and Vehicle Hours of Delay (VHD) are adjusted so that the base-year model VMT by air-basin by county is consistent with HPMS VMT as appropriate.

MODEL OUTPUTS

Population Synthesizer Outputs – The synthetic households by Number of Workers, Household Size, Household Income, and Type of Dwelling Unit, and a separate classification of households by Number of Workers, Age of Household Head, and Household Income are the outputs from the Population Synthesizer module and the inputs to the Trip Generation Model.

Auto Ownership Model Outputs – The auto ownership model generates households by auto ownership, in other words, the number of households with 0 car, 1 car, 2 cars, 3 cars, and 4 or more cars for each zone, which are the inputs to the Trip Generation Model.

Trip Generation Model Outputs – The output from trip generation model includes person trip tables by 9 trip purposes, of which HBW trips are further split into 8 types by 4 income groups

and Direct/Strategic categories for both peak and off-peak periods. These 32 person trip tables are used individually in the Trip Distribution step.

Trip Distribution Model Outputs – The Trip Distribution Model distributes person trips from each trip production zone to each and every attraction zones, resulting in 32 person trip Production/Attraction (PIA) matrices, which are the inputs to the Mode Choice Model.

Mode Choice Model Outputs – The outputs from the Time of Day Model include passenger vehicle trip matrices in OD format by time period and occupancy level. These matrices are then combined with external trips, airport trips, and HDT trips to produce final vehicle OD matrices (3 passenger vehicle classes and 3 HDT classes in 5 time periods) for the Network Assignment step. The 3 passenger vehicle classes are drive alone, 2-person carpool, and 3-person carpool. The 3 HDT classes are light HDT, medium HDT, and heavy HDT. Transit person trips matrices for each of five time periods are also produced in this step for transit assignment.

Network Assignment Model Outputs – Major outputs of the Network Assignment Model are highway and transit level of service attributes, including traffic flows and the associated speeds, VMT, VHT, and VHD on the highway networks as well as transit boarding and passenger loads on each transit line for each time period.

2015 FTIP MODELING ASSUMPTIONS

Socio-Economic Data – Tables 1 and 2 show population and employment summaries by county and air basin which are consistent with the 2012 RTP/SCS growth projections. This forecast was developed under direction from SCAG's Community, Economic and Human Development Policy (CEHD) Committee and in collaboration with SCAG's subregions and local jurisdictions. The process involved several major steps outlined as follows:

1. Analysis of regional growth trends and estimates from sources ranging from the U.S. Departments of Commerce, Health and Human Services, Bureau of Labor Statistics and Internal Revenue Service and the California Department of Finance and Employment Development Department.
2. Analysis of key assumptions (fertility rate, mortality rate, net immigration, labor force rates, headship rates, etc.) and methodologies (cohort-component and shiftshare models).
3. Review and feedback by SCAG's three Panels of Forecasting Experts, counties, subregions and cities including subregional workshops and one-on-one meetings.

The comprehensive discussion of the socio-economic data is included in the 2012-2035 RTP/SCS Growth Forecast Report.

Networks – A summary of the transportation system attributes for the highway and transit networks for Years 2008 to 2035 are shown in Tables 3, 4 and 5. Lane mile data includes freeway to freeway connectors. Other freeway ramps, freeway Type 3 lanes, and centroid connectors are not included. Note that values in the tables in this report may not add exactly due to rounding. A detailed list of modeled projects is in the Modeling List Appendix.

Work-at-Home and Telecommuting – Home-Based-Work trips were reduced for Work-at-Home and Telecommuting. In year 2014, Work-at-Home trips were 5.03 percent and Telecommute trips were 5.86 percent for a total Home-Based-Work trip reduction of 10.89 percent. Trip rates used in trip generation are based on the 2000 Travel Survey. Table 6 below shows the total reductions to the home-based-work person trips over the 2000 base as applied in the trip generation model.

Auto Operating Cost – There are two components used in calculating auto operating cost: the cost of gasoline and "other" costs. The "other" costs category includes costs for repairs, light maintenance, lubrication, tires, and accessories. The assumption used in the modeling work is that if an auto is available at the household then the depreciation of the car and the insurance costs are already being paid for whether the car is left at home or used for commuting to work. Table 7 lists the auto operating costs used for 2012-2035 RTP/SCS and 2015 FTIP. All costs are in 1999 constant dollars. Note: costs are expressed in 1999-dollar values for input into the mode choice models. Auto Operating costs are calculated using the following formula: Auto Operating Cost = Fuel Cost / Fuel Economy + Other Costs.

Transit Fares – The transit network includes three types of transit fares: base boarding fares, zone fares, and transfer fares; and two types of fare factors: base fare factor and transfer fare factor. Fare values were collected through the Transit Level of Service Data Collection program. Considering the complex fare structure for most carriers, only published full cash fares for initial boarding and transfers are used to represent the base fare and transfer fare. To account for the revenue composition of different fare types, such as one-way walkup fares, daily/weekly/monthly passes, Senior/Student/Disabled fares, and other special fares, base fare factors and transfer fare factors are estimated from the boarding and revenue data provided by transit operators. By applying fare factors to the published full cash fare, the resulting fares represent actual fares paid by an average passenger. Finally, all boarding fares (base fare and

transfer fare) are converted into 1999 dollars using a CPI adjustment factor derived from the CPI factor published by the US Department of Labor for the Los Angeles-Riverside-Orange County metropolitan area.

The fare structure varies significantly by operator and by service for the same operator. For example, LACMTA has both local and express bus service. For local bus, the general fare is a flat rate of $1.25. For express bus, there is a surcharge of $0.60 for each zone in addition to the $1.25 fare. However, OCTA, another major operator in the region, charges a general fare of $1.50 for local bus. For express bus, the fare is a flat rate of $3.00 or $4.50 depending on the route. To accommodate variations in the fares for different routes, the transit network codes general flat fares (i.e., base fares, transfer fares) at the route level, while the fare factors are calculated at the carrier level.

Two other major operators, Metrolink and Amtrak, follow a zone-based fare structure. For example, Metrolink fares are calculated with a distance-based formula using the shortest driving distance between stations, with an 80-mile maximum charge. To capture the published cash fare between two station pairs, a fare matrix was developed for Metrolink and Amtrak. Similarly, the LACMTA Express bus and Los Angeles Department of Transportation (LADOT) Commuter Express bus that have zone-based fare are also included as a zone-to-zone fare matrix. Similar to the development of fare factors for flat-rate routes, a fare factor matrix was developed based on Metrolink sales and boarding data to represent the weighted average fare for each station pair. In addition, regression analysis was conducted to generate the relationship between the distance and fares for Metrolink to predict future fares for new stations.

No real cost increase in transit fares was assumed from 2008 to 2035.

Non-Motorized Trips – 2035 Plan scenario assumes that there will be a shift of approximately one percent of the motorized trips to non-motorized forms of travel (i.e., walking and bicycling) due to the RTP's investment in active transportation.

Capacity and Free Flow Speed – Highway capacities (including for heavy duty truck) used in the Model for each of the facility types vary, depending on area location (i.e., CBD, urban, suburban, rural, or mountain) (see Table 8 below). Free flow speeds are based on posted speeds.

Table 8 Highway Capacities and Free Flow Speeds Used in the Model

Facility Type	Vehicles / Lane / Hour	Free Flow Speed (MPH)
Freeway (MF, HOV)	1,900 – 2,100	60 – 75
Principal Arterial	475 – 975	21 – 56
Other Arterial	475 – 975	19 – 55
Collector	375 – 975	17 – 52

Toll Roads – There were approximately 325 lane miles of toll roads in 2008, increasing to about 1,600 toll/HOT lanes in 2035. This includes a regional Express Lane network (Table 9) that would build upon the success of the 91 Express Lanes and Transportation Corridor Agencies (TCA) Toll Roads in Orange County and two demonstration projects in Los Angeles County.

The effect of the toll charges on the toll roads was incorporated into the highway assignment procedure. The toll charge was added to each toll facility by inserting the cost to the appropriate link and identifying the link with a unique Toll Class Number. Toll costs (in 1999 dollars) were converted to a time value (in minutes) in the network assignment step.

Conformity requirements – Table 10 below is a summary of the conformity requirements related to travel demand model and how SCAG's regional travel demand model satisfies these requirements.

Table 10 Conformity Requirements Related to Travel Demand Model

CFR	Requirement	How Requirement is Satisfied
93.122(b)(1)(i)	Network-based travel models must be validated against observed counts (peak and off-peak, if possible) for a base year that is not more than 10 years prior to the date of the conformity determination. Model forecasts must be analyzed for reasonableness and compared to historical trends and other factors, and the results must be documented.	The SCAG travel demand models were estimated and calibrated using data from SCAG's Year 2000 Post-Census Regional Travel Survey, 2003 External Travel Survey, the 2010 US Census and various Transit on-board Surveys. The model was validated against 2008 ground counts and 2008 HPMS data.
93.122(b)(1)(ii)	Land use, population, employment, and other network-based travel model assumptions must be documented and based on the best available information.	All land use, population, households, employment, and network-based model assumptions were updated for 2012-2035 RTP/SCS and 2015 FTIP and documented in 2012-2035 RTP/SCS Growth Forecast Report and this Conformity Report.
93.122(b)(1)(iii)	Scenarios of land development and use must be consistent with the future transportation system alternatives for which emissions are being estimated. The distribution of employment and residences for different transportation options must be reasonable.	Land development and use are consistent with future transportation systems. The distribution of employment, population, and household is reasonable with respect to the transport systems.
93.122(b)(1)(iv)	A capacity-sensitive assignment methodology must be used, and emissions estimates must be based on a methodology which differentiates between peak and off-peak link volumes and speeds and uses speeds based on final assigned volumes.	The SCAG travel demand model includes separate multi-modal user equilibrium assignments for peak and off-peak time periods. The network assignments are capacity-sensitive. Link speeds are calculated based on final assigned volumes.

CFR	Requirement	How Requirement is Satisfied
93.122(b)(1)(v)	Zone-to-zone travel impedances used to distribute trips between origin and destination pairs must be in reasonable agreement with the travel times that are estimated from final assigned traffic volumes. Where use of transit currently is anticipated to be a significant factor in satisfying transportation demand, these times should also be used for modeling mode splits.	The SCAG travel demand model includes full feedback of travel time among trip generation, trip distribution, mode choice, and trip assignment steps. Both highway and transit times are included in the mode choice model.
93.122(b)(1)(vi)	Network-based travel models must be reasonably sensitive to changes in the time(s), cost(s), and other factors affecting travel choices.	The SCAG travel demand model was developed with rigorous model calibration and validation effort that includes extensive model sensitivity tests to ensure the model is reasonably sensitive to changes in the time(s), cost(s), and other factors affecting travel choices. Travel time(s) such as in-vehicle and out-of-vehicles times, cost(s) such as auto costs and transit fares, and other factors such as transportation infrastructure capacity and control measures are directly modeled in various model components such as auto ownership, trip generation, destination choice, mode choice, and route choice models.

SUMMARY OF REGIONAL VEHICLE MILES TRAVELED

Table 11 below is a summary of VMT in 1,000-mile increments by air basin. VMT data were produced from the SCAG Regional Travel Model and does not include VMT from school buses, urban buses, and motor homes (non-modeled). These non-modeled VMT were provided by the ARB and are included in the emissions analysis.

2015 FTIP REGIONAL EMISSIONS ANALYSIS

EPA's Transportation Conformity Rule requires that the 2015 FTIP regional emissions be consistent with (i.e., not exceed) the motor vehicle emissions budgets in the applicable SIPs. Consistency with emissions budgets must be demonstrated for each year that the applicable emissions budgets are established, for the transportation planning horizon year, and for any milestone years as necessary so that the years for which consistency is demonstrated are no more than ten years apart. Where there are no EPA approved SIP budgets, an interim emission test is used for conformity. For the interim emissions tests, the build scenario's emissions must be less than or equal to the no-build scenario's emissions and/or the build scenario's emissions must be less than or equal to the base year. Listed below is a description of the various network scenarios.

2015 FTIP Conformity Base Year – The conformity base year is 2011for 2008 8-hour ozone; 2008 for 2006 PM2.5; 2002 for 1997 PM2.5; 1990 for all other pollutants.

2015 FTIP No Build – The "No Build" scenario includes all existing regionally significant highway and transit projects, all ongoing TDM or Transportation System Management (TSM) activities, and all projects which are undergoing right-of-way acquisition, are currently under construction, have completed the NEPA process, or are in the first year of the previously conforming FTIP (2011).

2015 FTIP Build – The "Build" scenario is generally defined as all FTIP projects, including the 2015 FTIP No Build, and the future transportation system that will result from full implementation of the 2015 FTIP and the 2012-2035 RTP/SCS.

For more specific individual project information as part of the FTIP modeling and regional emissions analysis, refer to the 2015 FTIP Modeled Projects list (pg II-41).

Section 93.122(d)(2) of the EPA Transportation Conformity Rule requires that in PM non-attainment and maintenance areas for which the SIPs identify construction-related fugitive dust as a contributor to the area problem, the regional emissions analysis should include construction-related fugitive PM. Of the SCAG PM nonattainment areas, only the SCAB and the Coachella Valley portion of SSAB have PM SIPs. The relevant emissions budgets for these two areas include construction emissions, and the 2015 FTIP PM regional emissions analyses include construction emissions as appropriate.

The on-road motor emissions estimates for the 2015 FTIP were analyzed using the EMFAC2011 emission model developed by ARB. For paved road dust, SCAG uses the approved EPA's AP-42 method and VMT by facility type for all applicable years.

REQUIRED REGIONAL EMISSIONS TESTS FOR 2015 FTIP

The required regional emissions tests for the 2015 FTIP are presented in Tables 12 through 20. Since transportation conformity findings must go out to the RTP's horizon year (i.e. 2035), the latest budget years deemed adequate by U.S. EPA serve as the budgets for future years in each emissions test.

SUMMARY OF REGIONAL EMISSIONS ANALYSIS

The following tables summarize the required regional emission analyses for each of the non-attainment and maintenance areas within SCAG's jurisdiction. For those areas which require budget tests, the FTIP emissions values in the summary tables below utilize the rounding convention used by ARB to set the budgets (i.e., any fraction rounded up to the nearest ton), and are the basis of the conformity findings for these areas.

DETAILED EMISSIONS ANALYSES

The following tables present further detail of the emissions analyses for all non-attainment and maintenance areas within SCAG's jurisdiction. For those areas which require budget tests, the FTIP emissions values in the tables below utilize the rounding convention used by ARB to set the budgets (i.e., any fraction rounded up to the nearest ton), and are the basis of the conformity findings for these areas.

LISTING OF MODELED PROJECTS IN 2015 FTIP

The 2015 FTIP modeled projects are included in this section and are organized by county in order of state highway, local highway and transit projects. The listings provide the following information:

- County
- System
- Lead Agency
- RTP ID Number
- FTIP ID Number
- Street: From and to
- Project Description
- Modeling Network
- State highway projects reflect the route and post miles

For other project information, refer to Volume III of the 2015 FTIP and locate the project by the project number.

Please visit http://www.scag.ca.gov/ftip/pdf/final/2015/Final2015FTIP_TA_Sec02.pdf for a full size version of the following modeled project listings.

Los Angeles	Local Highway	SANTA MONICA	LAF1343		1							Ocean Park Bl, Main St, Nelson Wy Signal System. Install communication & signal modifications needed to bring intersections onto the signal control system along the Ocean Park Bl, Main St, and Nelson Wy corridors. Includes 26 intersections on 3 corridors.											2015
Los Angeles	Local Highway	INGLEWOOD	LAF5300		1							City of Inglewood ITS - Phase IV. 2.7 miles of fiber-optics on La Cienega Blvd., Centinela Ave., Florence Ave. and Prairie Ave. New CCTV, speed detection systems and web-based traveler information. Upgrade the current Traffic Control System (TCS) to Adaptive TCS and replace 4 Type 170 controllers with Type 2070 controllers on Prairie Ave.											2018
Los Angeles	Local Highway	CULVER CITY	LAF5302		1							Culver City Adaptive Traffic Control System (ATCS) Project. This project is located in Culver City in the Westside subregion. It will upgrade the current Traffic Control System to an Adaptive Traffic Control System (ATCS). Project will replace 90 Type 170 controllers with Type 2070, add additional vehicle detectors at 102 locations, and upgrade communications equipment and connection to fiber-optic backbone. The ATCS will control 102 intersections throughout Culver City. Funds are requested for design and construction costs. Project sponsor will be required, upon completion of the project, to demonstrate congestion reduction and transit travel time reduction benefits. In addition, project sponsor will be required to credit to MTA, as cost savings in proportion to the MTA share of the total cost of this grant, any element of the work scope for this project that can utilize previously-installed signal infrastructure (interconnect, signal equipment, etc.).											2019
Los Angeles	Local Highway	SANTA CLARITA	LAF5303		1							It will deploy an adaptive traffic signal system on 12 corridors with 101 traffic signals: McBean Pkwy, Magic Mountain Pkwy, Wiley Canyon Rd, Orchard Village Rd, Lyons Av, Railroad Av, Newhall Av, Bouquet Cnyn Rd, Golden Valley Rd, Newhall Ranch Rd, Sierra Hwy, and Via Princessa.											2019
Los Angeles	Local Highway	GLENDALE	LAF5307		1							Glendale Sub-Regional Traffic Management Center Implementation. This project is located in the City of Glendale and will connect to the traffic signal network citywide. It will design and implement a sub-regional Traffic Management Center (TMC), located within the existing City of Glendale's TMC (GTMC), comprising a new video wall, computer servers, workstations, network and video equipment, data archive storage system, battery back up systems, and Commercial off the shelf (COTS) traffic signal control system. The new system will also be integrated with Metro's Regional Integration of ITS (RIITS) and the County Information Exchange Network (IEN) systems.											2017
Los Angeles	Local Highway	AZUSA	LAF5309		1							City of Azusa Traffic Management System. This project will upgrade traffic signals at 43 intersections in the City of Azusa. The project will fund the design and construction/implementation of controllers, wiring, detection, conduit, fiber optic, countdown pedestrian heads, signals, video detection, CCTV cameras and traffic control and monitoring upgrades at the 43 intersections.											2017
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5310		1							Ramona Boulevard/Baldlo Street/Covina Boulevard TSSP/BSP. Implemention of a Traffic Signal Synchronization Project (TSSP) on Ramona Bl/Baldlo St/Covina Bl from Santa Anita Av to the 57 Freeway. A Bus Signal Priority (BSP) project will be implemented on Ramona Bl/Baldlo St from Tyler Av to Grand Av to give transit priority for Foothill Transit operations to improve run times with minimal impact on cross-street traffic.											2019
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5314		1							Gateway Cities Forum Traffic Signal Corridors Project - improve traffic signal operations by upgrading each traffic signal to federal and state standards, providing additional vehicle detection to enable operation as a fully traffic-actuated signal, installing the appropriate components to enable each signal to be capable of time-based coordination and retiming signals to improve the overall progression of traffic.											2019
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5315		1							San Gabriel Valley Forum Traffic Signal Corridors Project. This project includes 6 intersections at Myrtle Av/Peck Rd between Huntington Dr and Clark St and provides for system wide coordination, timing and operational improvements and traffic signal synchronization, equipment upgrades and intersection operational improvements. The original scope of this project was reduced by eliminating the Olympic Bl route which is being done as part of other projects.											2019
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5316		1							South Bay Forum Traffic Signal Corridors Project - systemwide coordination, timing and operational improvements and traffic signal synchronization, equipment upgrades and intersection operational improvements in South Bay region. 25 signals system wide. Additionally, this project will install any warranted and feasible roadway improvements along the routes to improve overall progression											2019
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5115		1					40th Street West	57th Street	Avenue L Roadway Widening Project. This project will widen Avenue L from one lane to two lanes in each direction from 40th St West to 57th St, a distance of 1.7 miles. The roadway will be reconfigured to include left- and right-turn pockets where Avenue L intersects with 40th, 42nd, 45th, 50th and 55th Streets. The project includes curbs and gutters, a 12-foot-wide Class II bike lane in each direction and 8-foot wide sidewalks on both sides of the street.											2017
Los Angeles	Local Highway	REDONDO BEACH	LAF5301		1					Aviation Blvd	Inglewood Avenue	Grant Avenue Signal Improvements. This project is located in Redondo Beach in the South Bay subregion on Grant Av between Inglewood Av and Aviation Bl. The project will upgrade six existing traffic signals. The project involves synchronization, bike detection, signal replacement, video detection, adaptive signal coordination, wireless connection and integration into the Redondo Beach Traffic Management Center (TMC). Funds are requested for design and construction costs. Project sponsor will be required, upon completion of the project, to demonstrate congestion reduction and transit travel time reduction benefits. In addition, project sponsor will be required to credit to MTA, as cost savings in proportion to the MTA share of the total cost of this grant, any element of the work scope for this project that can utilize previously-installed signal infrastructure (interconnect, signal equipment, etc.).											2019
Los Angeles	Local Highway	BURBANK	LAF5306		1					Glenoaks Ave.	SR-134	This project is located in the San Fernando Valley/North County subregion on Hollywood Way between San Fernando Bl and Olive Av, and on Buena Vista St between Glenoaks Bl and Riverside Dr. It will upgrade 20 signals on Hollywood Way and 18 on Buena Vista St., connect 38 signals to the fiber-optic cable trunk line, and purchase fiber-optic modems. It will implement a demand-responsive traffic signal system along Hollywood Way and Buena Vista St. The project also includes license, system integration and testing of the Quick Track Adaptive Control Software.											2019
Los Angeles	Local Highway	HAWTHORNE	LAF5101		1					Hawthorne Blvd.	Crenshaw Blvd.	El Segundo Boulevard Improvement Project. This project is located in the City of Hawthorne and will improve El Segundo Bl at the intersections of Hawthorne Bl, Prairie Av, Doty Av, Cerise Av, and Chadron Av, a distance of 1.3 miles.											2017
Los Angeles	Local Highway	PASADENA	LAF5305		1					Hill Avenue	Sierra Madre Villa Avenue	Mobility Corridors - Rose Bowl Access Systems. This project is located in the City of Pasadena on these three corridors: Colorado Bl, Lincoln Bl and Orange Grove Bl. The number of intersections scheduled for upgrades and enhancements is 28. This project will implement the following improvements to all above-mentioned corridors and corresponding intersections: new 332-type traffic-signal cabinets, advanced Type 2070 traffic-signal controllers, implementation of new vehicular video-detection systems and advanced communication systems to allow for connectivity to the City's Transportation Management Center. Connectivity will be accomplished via fiber optics and all communication devices necessary to integrate the traffic signal controllers into the City's fiber-optic network will be designed for at each intersection.											2018
Los Angeles	Local Highway	SANTA CLARITA	LA0G754		1					Jakes Way	Soledad Canyon	Vista Canyon Road Bridge over the Santa Clara River and roadway from Vista Canyon Community (Jakes Way/Lost Canyon) to Soledad Canyon Road. Includes 750-foot long bridge, 1 lane in each direction, Class I bike lane.											2017
Los Angeles	Local Highway	SANTA CLARITA	LA0G755		1					McBean Pkwy	Avenue Tibbitts	Newhall Ranch Road Bridge widening over the San Francisquito Creek											2015

TIMELY IMPLEMENTATION OF TCMS

INTRODUCTION

This section itemizes and reports the findings of timely implementation of Transportation Control Measure (TCM) projects specified in the fiscally constrained portion, or the first two years (i.e., FY 2014/15-2015/16) of the 2015 FTIP. The findings are required only for the applicable TCM projects contained in the approved SIPs for the relevant air basins.

TRANSPORTATION CONFORMITY RULE

The criteria for identifying TCM projects and the requirements for timely implementation of these projects are defined in the U.S. EPA's Transportation Conformity Rule, 40 CFR Parts 51 and 93:

> *Transportation control measure (TCM) is any measure that is specifically identified and committed to in the applicable implementation plan, including a substitute or additional TCM that is incorporated into the applicable SIP through the process established in CAA section 176(c)(8), that is either one of the types listed in CAA section 108, or any other measure for the purpose of reducing emissions or concentrations of air pollutants from transportation sources by reducing vehicle use or changing traffic flow or congestion conditions. Notwithstanding the first sentence of this definition, vehicle technology-based, fuel-based, and maintenance-based measures which control the emissions from vehicles under fixed traffic conditions are not TCMs for the purposes of this subpart*[1].

Section 108(f)(1)(A) of the federal Clean Air Act (CAA) lists the following sixteen measures as illustrative of TCMs. However, this list should not be considered exhaustive.

- *Programs for improved use of public transit;*
- *Restriction of certain roads or lanes to, or construction of such roads or lanes for use by, passenger buses or high occupancy vehicles;*
- *Employer-based transportation management plans, including incentives;*
- *Trip-reduction ordinances;*
- *Traffic flow improvement programs that achieve emission reductions;*
- *Fringe and transportation corridor parking facilities, serving multiple occupancy vehicle programs or transit service;*
- *Programs to limit or restrict vehicle use in downtown areas or other areas of emission concentration, particularly during periods of peak use;*
- *Programs for the provision of all forms of high-occupancy, shared-ride services;*
- *Programs to limit portions of road surfaces or certain sections of the metropolitan area to the use of non-motorized vehicles or pedestrian use, both as to time and place;*

[1] U.S. EPA, Transportation Conformity Regulations Updated April 2012, page 8.

- *Programs for secure bicycle storage facilities and other facilities, including bicycle lanes, for the convenience and protection of bicyclists, in both public and private areas;*
- *Programs to control extended idling of vehicles;*
- *Programs to reduce motor vehicle emissions, consistent with Title II of the Clean Air Act, which are caused by extreme cold start conditions;*
- *Employer-sponsored programs to permit flexible work schedules;*
- *Programs and ordinances to facilitate non-automobile travel, provision and utilization of mass transit, and to generally reduce the need for single-occupant vehicle travel, as part of transportation planning and development efforts of a locality, including programs and ordinances applicable to new shopping centers, special events, and other centers of vehicle activity;*
- *Programs for new construction and major reconstruction of paths, tracks or areas solely for the use by pedestrian or other non-motorized means of transportation, when economically feasible and in the public interest; and*
- *Programs to encourage the voluntary removal from use and the marketplace of pre-1980 model year light duty vehicles and pre-1980 model light duty trucks.*[2]

In addition to the types of measures listed above, other measures may be considered as TCM projects if they reduce emissions or concentrations of air pollutants from transportation sources by modifying vehicle use, changing traffic flow, or mitigating traffic congestion conditions. TCM projects may be voluntary programs, incentive-based programs, regulatory programs, as well as market- or pricing-based programs. However, all TCM categories must be listed in the applicable (EPA-approved) SIP to be considered TCMs.

It should be noted, however, that measures and projects that use technology to reduce emissions – such as innovations in fuel formulation technologies, or the promotion of zero-emission vehicles, or of alternative fueled engines – cannot be considered TCM projects. Roadway capacity enhancement projects are also not typically considered TCMs.

The transportation conformity process is designed to ensure timely implementation of TCM strategies, thus reinforcing the link between AQMP/SIPs and the transportation planning process. If a TCM cannot be implemented or is only partially implemented, the shortfall must be made up by either substituting a new TCM strategy or by enhancing other control measures through the substitution.

CRITERIA AND PROCEDURES FOR THE TIMELY IMPLEMENTATION OF TCMS

The Transportation Conformity Rule (40 CFR 93.113) states:

> *(a) The transportation plan, TIP, or any FHWA/FTA project which is not from a conforming plan and TIP must provide for the timely implementation of TCMs from the applicable implementation plan.*

[2] Clean Air Act, pages 29-30.

(b) For transportation plans, this criterion is satisfied if the following two conditions are met:

(1) The transportation plan, in describing the envisioned future transportation system, provides for the timely completion or implementation of all TCMs in the applicable implementation plan which are eligible for funding under title 23 U.S.C. or the Federal Transit Laws, consistent with schedules included in the applicable implementation plan.

(2) Nothing in the transportation plan interferes with the implementation of any TCM in the applicable implementation plan.

(c) For TIPs, this criterion is satisfied if the following conditions are met:

(1) An examination of the specific steps and funding source(s) needed to fully implement each TCM indicates that TCMs which are eligible for funding under title 23 U.S.C. or the Federal Transit Laws are on or ahead of the schedule established in the applicable implementation plan, or, if such TCMs are behind the schedule established in the applicable implementation plan, the MPO and DOT have determined that past obstacles to implementation of the TCMs have been identified and have been or are being overcome, and that all State and local agencies with influence over approvals or funding for TCMs are giving maximum priority to approval or funding of TCMs over other projects within their control, including projects in locations outside the nonattainment or maintenance area.

(2) If TCMs in the applicable implementation plan have previously been programmed for Federal funding but the funds have not been obligated and the TCMs are behind the schedule in the implementation plan, then the TIP cannot be found to conform if the funds intended for those TCMs are reallocated to projects in the TIP other than TCMs, or if there are no other TCMs in the TIP, if the funds are reallocated to projects in the TIP other than projects which are eligible for Federal funding intended for air quality improvement projects, e.g., the Congestion Mitigation and Air Quality Improvement Program.

(3) Nothing in the TIP may interfere with the implementation of any TCM in the applicable implementation plan.

(d) For FHWA/FTA projects which are not from a conforming transportation plan and TIP, this criterion is satisfied if the project does not interfere with the implementation of any TCM in the applicable implementation plan[3]*.*

APPLICABLE SIPS IN THE SCAG REGION

In the SCAG region, ozone SIPs developed in the South Coast Air Basin and the Ventura County portion of the South Central Coast Air Basin contain TCM strategies and are subject to EPA's Transportation Conformity Rule analyses. The two SIPs with TCM strategies are:

2007 Ozone SIP (SCAB)

On March 1, 2012, the U.S. EPA published in the Federal Register the final rule approving the State Implementation Plan (SIP) revisions submitted by California to provide for attainment of the 1997 8-hour ozone national ambient air quality standards in the South Coast Air Basin. The final rule became effective on April 30, 2012. The TCM categories in the 2007 Ozone AQMP/SIP are consistent with the TCM01 categories established in the 1994 Ozone SIP.

On May 23, 2014, the U.S. EPA published in the Federal Register a new proposed rule to approve the portions of the SCAQMD's Final 2012 Air Quality Management Plan that update the approved control strategy for the 1997 8-hour ozone standard and that provide a demonstration of attainment of the 1-hour ozone standard by December 31, 2022. Once finalized, the 2012 South Coast Ozone AQMP/SIP will become the applicable Ozone SIP for the SCAB. It is important to note that the TCM categories in the 2012 Ozone AQMP/SIP are consistent with the TCM categories in the 2007 Ozone AQMP/SIP.

2007 Ozone SIP (Ventura County Portion of SCCAB)

The EPA approved the 1994 Ozone SIP revisions on January 8, 1997. The 2007 Ozone AQMP/SIP revision (pending EPA approval) makes no changes to previously approved TCMs contained in the 1994 SIP (as amended in 1995).

It is noted that the Ventura County SIP does not claim emission reduction credits from TCM projects. They have been included to assist transportation and air quality agencies to identify projects that have the potential of reducing vehicle emissions, vehicle trips and vehicle miles traveled.

TCM REPORTING PROCESS IN THE SCAG REGION

Only those TCM-category projects that have been committed for implementation are considered for purposes of timely implementation reporting. As such, only those projects designated as TCMs in the first two years (the fiscally constrained portion) of the prevailing FTIP are considered for reporting.

In the SCAG region, new TCMs are identified by the FTIP process. Projects that meet the TCM criteria become committed TCMs and part of the applicable SIP after: 1) funds are committed for right-of-way or construction in the first two years (the fiscally constrained portion) of the FTIP; 2) the FTIP is approved by the Regional Council; and 3) state and federal approval of the FTIP. New TCMs (i.e., those projects first identified in the 2015 FTIP) are listed later by county in this Section. However, project status for these new TCMs will be provided in the next

required timely implementation report, assuming the 2015 FTIP is approved by the Regional Council and by FHWA and FTA.

The projects reported on in this report are those TCM-category projects which have committed to right-of-way acquisition, construction or implementation in the first two years of the prevailing FTIP (the 2012-2035 RTP/SCS and 2013 FTIP, as amended). In addition, those TCM projects designated for reporting in previous FTIPs, and which are still under construction or implementation, will continue to be reported. TCM projects completed during this FTIP cycle are also reported.

Although project implementation remains an enforceable commitment by project sponsor agencies, SCAG is responsible for assuring the timely implementation of TCMs. Per a request from the federal agencies, beginning with the 2003 AQMP/SIP, SCAG began to develop a protocol for tracking currently anticipated project completion dates against previously reported completion dates, as provided by the county transportation commissions (CTCs). It is SCAG's intention that project completion dates reported when a TCM is first listed in an approved FTIP will be reported in all subsequent Timely Implementation Reports alongside the most current completion dates, until such a time as the project is completed. In this case, ongoing projects include the original date listed beginning with the 2004 RTIP, or a later FTIP when first listed as a committed TCM.

SCAG relies on the established project status update process used for the RTP and the FTIP to gather data from CTCs for preparing the TCM Timely Implementation Report. It is an iterative and collaborative process. The final data gathered on TCM project implementation status, currently anticipated completion dates, and, when delay occurs, reasons for the delay and efforts to overcome the implementation obstacles, is used to establish the final Timely Implementation Report. SCAG's process integrates an assessment of the specific steps and funding sources needed to fully implement each TCM, and confirms that the projects are on or ahead of schedule; or, in the case that some particular project is delayed, the analysis establishes that the obstacles to implementation have been or are being overcome, and that the project is henceforth expected to be expeditiously implemented.

TIMELY IMPLEMENTATION OF TCM PROJECTS IN THE SCAG REGION

The federal Transportation Conformity Rule states that timely implementation is to be measured against the TCM projects in the applicable SIP. SCAG evaluates the TCM-category projects to determine the anticipated level and current status of implementation. The enforceable commitment is to report on the funding and implementation of TCM projects in the first two years of the six-year FTIP. In each FTIP, TCM category projects roll forward and the enforceable commitment is automatically revised to encompass the first two-year schedule of TCM-category projects without the need for a SIP revision. The implementation status of each of these TCM projects then continues to be reported on in subsequent FTIPs, until the TCM project is reported as having been completed, or the suitably replaced or substituted project has been completed.

South Coast Air Basin

The 2007 AQMP/SIP includes the following three TCM project categories:

- High Occupancy Vehicle (HOV) Measures,
- Transit and Systems Management Measures, and
- Information-based Transportation Strategies.

It should be noted that the TCM project categories in Appendix IV-C, Regional Transportation Strategy and Control Measures, of the 2007 Ozone AQMP/SIP, are consistent with those of TCM01 specified in the 1994 and subsequent Ozone SIPs, and are updated by the list provided in the Timely Implementation Report section of this document.

Ventura County Portion of SCCAB

The applicable TCM projects in Ventura County include the following strategies:

- Ridesharing
- Non-Motorized Strategies
- Traffic Flow Improvement Strategy
- Land Use Strategy Transit Strategies

Overview

As a federally designated Metropolitan Planning Organization (MPO), SCAG is required to adopt a Transportation Improvement Program (TIP) for the six-county region comprising Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura Counties – also referred to as SCAG's Federal Transportation Improvement Program (FTIP). The FTIP must include a financial plan that complies with federal financial constraint requirements. In non-attainment and maintenance areas, the financial plan must limit the programming of projects for the first two years of the FTIP to those for which funds are *available or committed* (23 CFR 450.324(e)). Revenues may be *reasonably available* in the third and fourth year of the FTIP to support programming levels for that year. In accordance with 23 U.S. Code Section 134(h) and 23 CFR Section 450.324(e), SCAG's 2015 FTIP demonstrates financial constraint by identifying all transportation revenues including local, state, and federal sources available to meet the region's programming totals.

The policy boards of the region's county transportation commissions have approved their respective programs and committed necessary funds to implement the projects listed in the 2015 FTIP. SCAG has received final resolutions from each of the county transportation commissions certifying financial constraint (see Attachment B). Additionally, the 2015 FTIP is consistent with the adopted 2012-2035 RTP/SCS (April 4, 2012) as required by the California Government Code, Section 65080.

SCAG's 2015 FTIP utilizes the 2014 State Transportation Improvement Program (STIP) Fund Estimate, adopted by the California Transportation Commission on August 6, 2013. Additionally, programming levels for the Regional Surface Transportation Program (RSTP) and the Congestion Mitigation Air Quality (CMAQ) program are based on estimated distribution of funds provided by the California Department of Transportation (Caltrans) to MPOs. In addition to state and federal funded projects, the 2015 FTIP includes local projects that are regionally significant and may require federal approval, regardless of funding source. Local funding sources associated with these projects are identified as well. Consistent with federal guidelines, the 2015 FTIP revenues and programming estimates are expressed in year-of-expenditure (or nominal) dollars.

Financial Capacity

2015 FTIP SOURCES AND USES OF FUNDS

The following financial capacity assessment for the 2015 FTIP shows that programming totals do not exceed projected revenues for the SCAG region. The 2015 FTIP demonstrates financial constraint by year, limiting programming of projects in the first two years to those for which funds are available or committed. Additionally, revenues are reasonably available in the third year of the 2015 FTIP, consistent with programmed levels for that year.

Local, state, and federal funding shares are presented in Figures 1 and 2. Total funds programmed for the SCAG region's 2015 FTIP is $31.8 billion. Local funds comprise 62 percent of total dollars programmed in the 2015 FTIP, state funds 14 percent and federal funds 24 percent. Uses of funds in the 2015 FTIP by modal category show that state highway projects total 39 percent of funds programmed, transit projects 38 percent, and local highway projects 23 percent.

Additional details on revenue sources and uses are presented in the tables located in Attachment D. There are a total of three tables in Attachment D, including a table showing revenue estimates for the first four years of the FTIP (FY2014/15 – FY2017/18); a corresponding table showing programmed totals; and a final table comparing revenue estimates to the programmed totals.

Financial Condition

The 2015 FTIP is consistent with the financial forecasting model developed by SCAG for the region's 2012–2035 Regional Transportation Plan/Sustainable Communities Strategy (2012–2035 RTP/SCS)—the long-range transportation plan for the six-county SCAG region. The policies and investment strategies of SCAG's 2012–2035 RTP/SCS set the framework for the 2015 FTIP. Further, the financial plan for the 2012–2035 RTP/SCS provides a basis for identifying how much money is available to support the region's surface transportation investments.

The financial plan identifies all existing local, state, and federal transportation revenues that are committed, available, and reasonably available. The region has successfully secured the necessary resources to support transportation investments proposed in past planning cycles and this financial plan continues to incorporate recent milestones in realizing additional sources of funds for transportation investments. Most counties in the region voted to support local sales taxes to fund transportation projects. Ventura County is the only county in the region without a dedicated sales tax for transportation. While most counties impose a 0.5 percent sales tax to fund transportation projects, Los Angeles County levies a permanent 1 percent tax (a combination of two half-cent sales taxes). Since the 2008 RTP, voters in Los Angeles County have passed Measure R, which imposes an additional 0.5 percent sales tax to fund transportation projects. Unlike the other Los Angeles County sales taxes, Measure R is not permanent and expires in 2039. Additionally, several local sales taxes have been renewed in recent years. Prior to the 2008 RTP, Orange, Riverside, and San Bernardino Counties extended their sales tax measure through 2039 or beyond. Since the 2008 RTP, Imperial County has renewed its Measure D through 2050. As a result of these extensions, revenues from the local sales tax measures will be available for the entire 2012–2035 RTP/SCS planning period, which includes the 2015 FTIP timeframe.

In developing the region's financial plan, SCAG assessed the region's growth trends and economic outlook, stability of revenue streams, debt management policies, and commitments to maintaining and operating the region's transportation system. The following discussion highlights these critical areas.

GROWTH TRENDS

General economic as well as demographic trends and conditions directly impact transportation revenues in the SCAG region. The growth trends described in this section were integrated into SCAG's financial forecasting efforts.

Population and Employment Growth

The SCAG region is the second most populated metropolitan area in the United States. By July 1, 2013, the region's population had reached 18.5 million residents, an 11.5 percent increase (1.9 million more people) since 2000. Los Angeles County and Orange County accounted for 38.0 percent of the region's population growth over the last 13 years, adding 0.7 million residents,

while Riverside and San Bernardino Counties together added 1.1 million residents. In terms of relative growth, the Inland Empire (Riverside and San Bernardino Counties) and Imperial County are the fastest growing areas in the region. Riverside County grew by 45.6 percent, San Bernardino County by 20.8 percent and Imperial County by 25.1 percent. Los Angeles, Orange, and Ventura Counties were the slowest growing counties, in terms of percentage—only 5.0, 8.8, and 11.0 percent increases, respectively, during the same period (between 2000 and 2013).

	Population		Change 2000–2013	
	2000	2013	Number	Percent

Despite lasting impacts from the economic recession between 2007 and 2009, the region's total employment was estimated to be 8.1 million in 2013, increasing by 0.5 million employed workers (5.9 percent) since 2000. The largest gains in employment between 2000 and 2013 were experienced in Riverside County, which grew by 211,100 employed workers (32.8 percent). Los Angeles County (Los Angeles-Long Beach-Glendale MSA) continued to maintain the majority of the region's employment (55.4 percent) yet only increased by 1.0 percent between 2000 and 2011. Regional unemployment was 5.0 percent in 2000 and peaked at 12.4 percent in 2010. It has since dropped down to 9.3 percent in the latest 2013 estimates from the State of California Employment Development Department. In 2013, regional unemployment ranged from a low of 6.2 percent in Orange County (Santa Ana-Anaheim-Irvine MSA) to a high of 24.5 percent in Imperial County (El Centro MSA).

Income

Income is one of the most important indicators of economic well-being in the region. In 2000, per capita income of the region was approximately $30,191. By 2012, per capita income grew to

$42,892, an increase of 42.1 percent. After adjusting for inflation, regional per capita income increased from 2000 to 2012 by 3.0 percent. If the SCAG region was a state, it would rank as the 16th highest per capita income in 2000. By 2012, the SCAG region would have dropped to the 25th highest per capita income compared to other states.

	Per Capita Income (2012$)		Change 2000–2012

ECONOMIC OUTLOOK

Overall economic conditions play a large role in determining the level of revenues available for transportation. Although it is difficult to predict the future, especially given the recent economic turmoil, SCAG's financial model takes a conservative approach in forecasting revenues. The approach includes maintaining historical growth trends for key revenue sources, including locally generated sales tax revenues as well as both state and federal gas tax revenues.

Inflation

The effect of inflation can be significant, causing both costs and revenues to be higher in nominal dollar terms. SCAG's revenue model utilizes historical inflation trends as measured by the Gross Domestic Product (GDP) Price Deflator—an approach consistent with that used by the Federal Office of Management and Budget in preparing the Budget of the United States Government. Figure 3 shows inflation trends since World War II as measured by the GDP Price Deflator. Inflation has varied considerably over the long term, but has trended between 2 and 4 percent, as illustrated by the blue-green line. On the basis of this information, a 2.9 percent inflation rate was used in the 2012–2035 RTP/SCS financial plan to adjust constant dollar revenue forecasts into nominal (or year-of-expenditure) dollars.

FIGURE 3 HISTORICAL INFLATION TRENDS

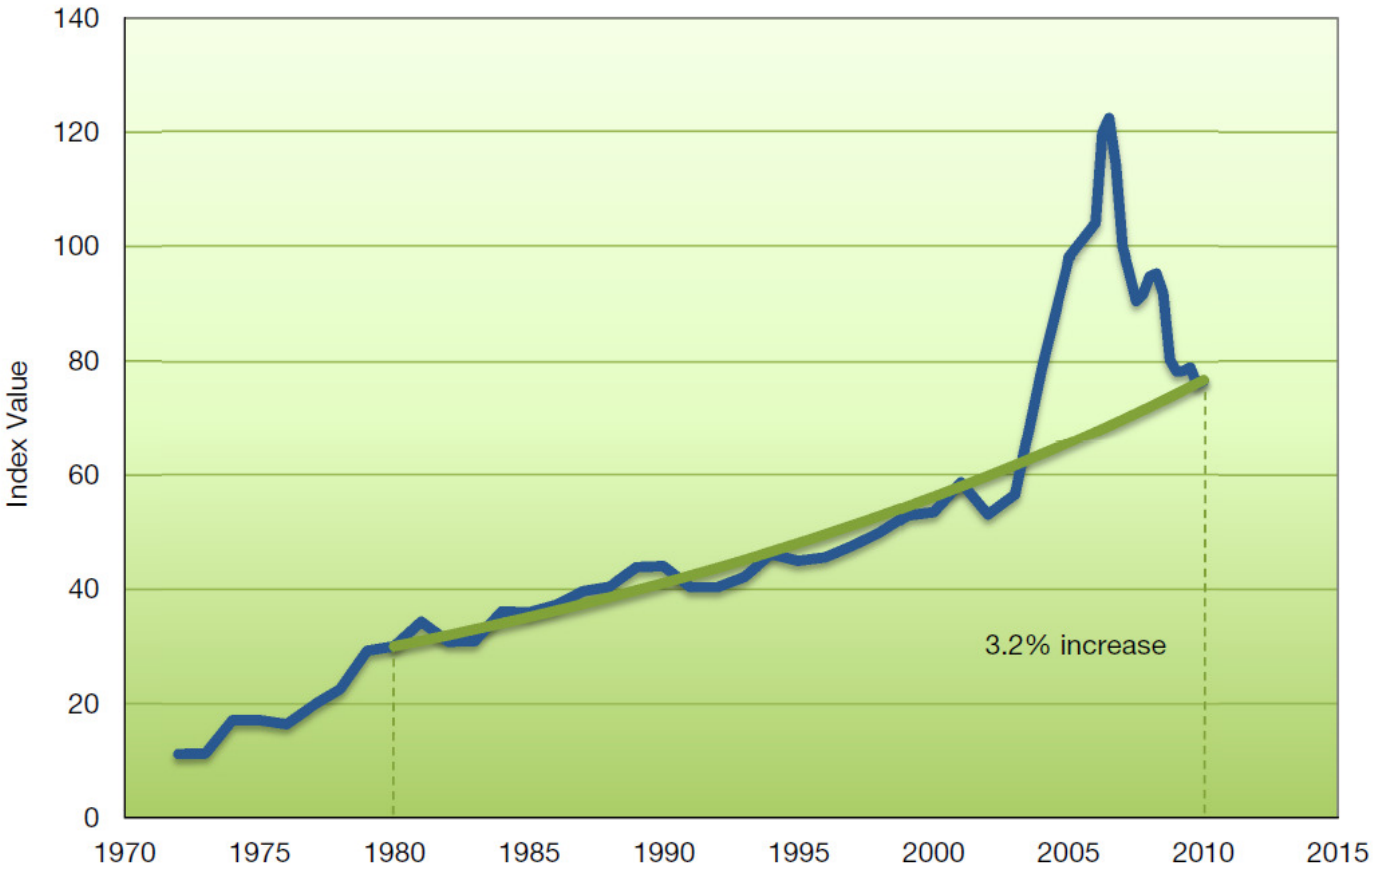

Source: Office of Management and Budget

Construction Cost Increases

While inflation clearly affects the nominal dollars reported for future revenues, the rise in construction costs can further erode the purchasing power of transportation revenues. After spiking dramatically in 2007, construction costs have corrected in recent years. Figure 4 shows the increase and decline in California highway construction costs since the early 1970s. The United States Army Corps of Engineers Index for Roads, Railroads, and Bridges shows similar trends. While the recent correction in construction costs has slowed the longer-term increase in costs, the growth still remains above general inflation. The 2012–2035 RTP/SCS financial plan uses a 3.2 percent annual inflation factor to estimate future, nominal costs. The faster increase in construction costs than in revenues contributes to a decline in purchasing power for transportation funding over the planning period.

FIGURE 4 HIGHWAY PROJECT COSTS

Retail Sales Growth

Changes in personal consumption, population, available land, and retail locations are the biggest contributors to the growth in retail sales. The recession has dealt a blow to retail sales, which reached their peak in FY2007. Retail sales have begun to improve and are expected to rise over the RTP/SCS planning period. Over the 30-year period from FY1980 to FY2010, regional retail sales averaged an annual growth rate of 2.1 percent in real terms (when the effects of inflation are eliminated). However, the growth was uneven. The 2012–2035 RTP/SCS financial plan assumes uneven growth will continue to occur, with retail sales growth ranging from 1.2 percent to 3.9 percent annually in real terms.

Status of the Federal Highway Trust Fund

The Federal Highway Trust Fund provides federal highway and transit funding from a nationally imposed 18.3-cent per gallon gasoline tax[1]. As shown in Figure 5, the Federal Highway Trust Fund revenues averaged an annual growth rate of 2.8 percent in real terms from FY1980 to FY2010. Expenditures have outpaced revenues over the last decade, necessitating the United States Congress to authorize transfers from the General Fund to keep the Federal Highway Trust Fund solvent. The financial plan assumes that Congress will reach agreement on maintaining solvency of the Federal Highway Trust Fund over the planning period. However, the core revenues available from the Federal Highway Trust Fund are expected to decline due to increasing fuel efficiency over the 2012–2035 RTP/SCS planning period.

FIGURE 5 STATUS OF THE FEDERAL HIGHWAY TRUST FUND

Source: Federal Highway Administration

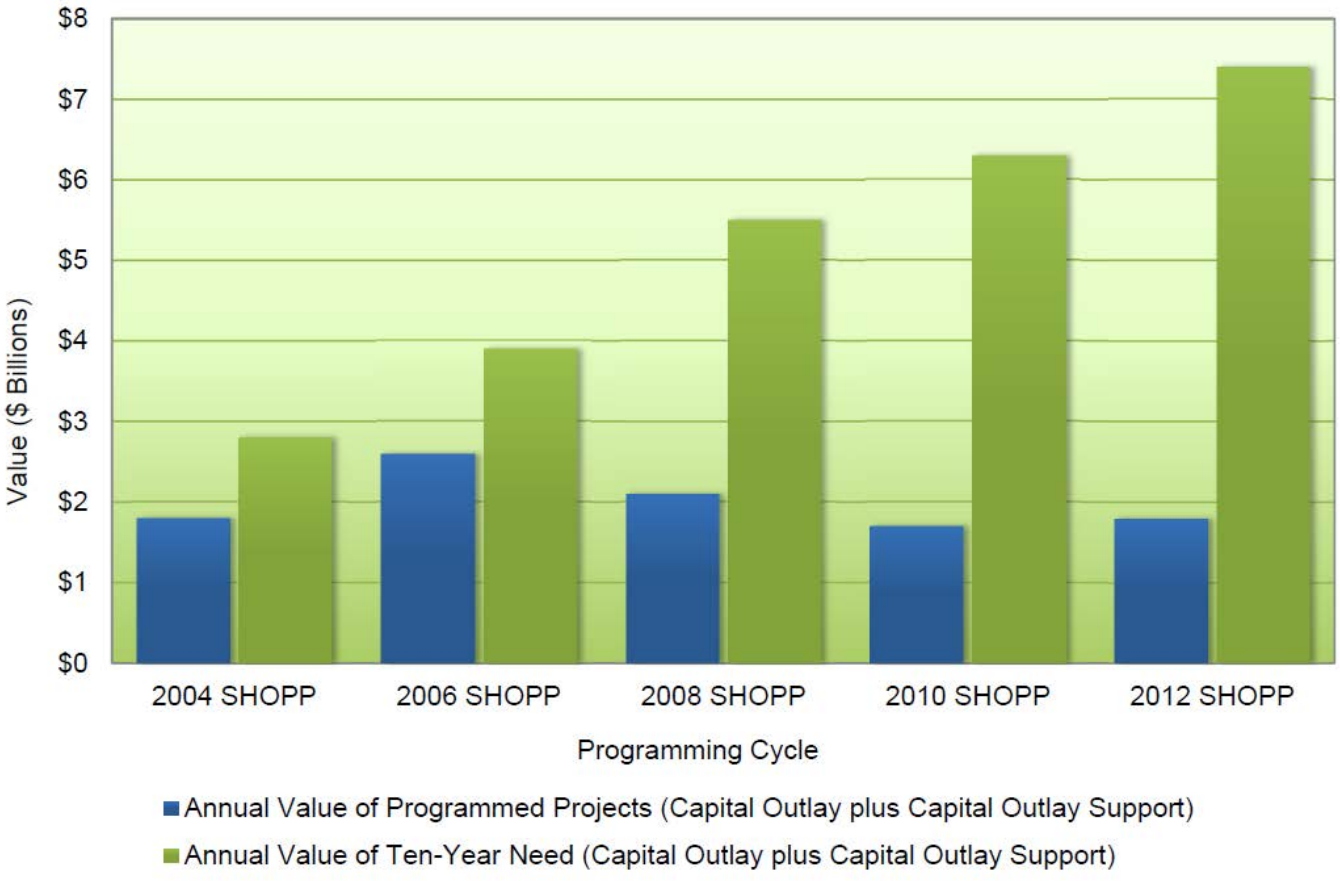

[1] The federal gasoline excise tax is 18.4-cent per gallon. However, only 18.3-cent is deposited into the HTF (15.44-cent for the Highway Account and 2.86-cent for the Mass Transit Account). The additional 0.1-cent is deposited into the Leaking Underground Storage Tank Trust Fund.

Status of the State Highway Account

The viability of the State Highway Account (SHA) remains another critical issue. Despite a recent "Gas Tax Swap," the effective state excise rates have remained unadjusted for more than 15 years. The excise tax revenues, however, remain the only source of funding for the State Highway Operation and Protection Program (SHOPP), which finances projects to maintain the State Highway System.

Despite the entire SHA being dedicated to the SHOPP in some years, previous levels of funding have been considerably less than actual needs (see Figure 6). Continued underinvestment in the rehabilitation and maintenance needs of the State Highway System has serious ramifications—rapidly increasing the number of distressed lane-miles on the State Highway System and eroding the condition of the State's bridges. As a result, the cost of bringing the highway assets back to a state of good repair is expected to grow exponentially.

FIGURE 6 STATUS OF THE STATE HIGHWAY OPERATION AND PROTECTION PROGRAM

Source: California Department of Transportation

The 2011 Ten-Year SHOPP Plan identifies $7.4 billion in statewide annual needs, while expenditures programmed for the next four years are only $1.8 billion annually. Increased fuel efficiency will further erode State Highway Account funding available over the 2012–2035 RTP/SCS planning period.

Operating and Maintaining the Region's Transportation System

A core component of the region's system management strategy is protecting our investment in the current transportation infrastructure. The region has invested billions of dollars in developing its multimodal transportation system and must protect these investments for current and future generations. In accordance with federal guidance on fiscal constraint, the SCAG region addresses system-level operation and maintenance needs in addition to estimating costs associated with capital expansion projects in both the RTP/SCS and the FTIP.

HIGHWAY AND REGIONAL ARTERIAL SYSTEM OPERATION AND MAINTENANCE (O&M) COSTS

As a part of the region's commitment to preserving existing transportation assets, costs associated with operating and maintaining both the state highway and arterial systems are reflected in SCAG's financial forecasting model. SCAG's 2012–2035 RTP/SCS identifies a total of $77.6 billion in costs (through FY2035) to operate and maintain the region's state highway and arterial systems. SCAG recognizes the importance of obtaining additional funding to achieve this level of investment. As such, SCAG continues to maintain the importance of adjusting the federal and state gas taxes and ultimately (post-2025) transitioning to a mileage-based user fee to maintain historical purchasing power.

TRANSIT O&M COSTS

Future transit O&M costs are difficult to predict because they depend on a variety of factors, such as future revenue-miles of service, labor contracts, and the age of rolling stock. The addition of new transit service and capital projects can add to ongoing O&M costs. Over the last decade, these O&M costs grew annually 1 to 10 percent in real terms, depending on the transit operator (see Figure 7). Some of the differences in O&M growth are due to rapid expansion among the newer operators and outsourcing among the older operators.

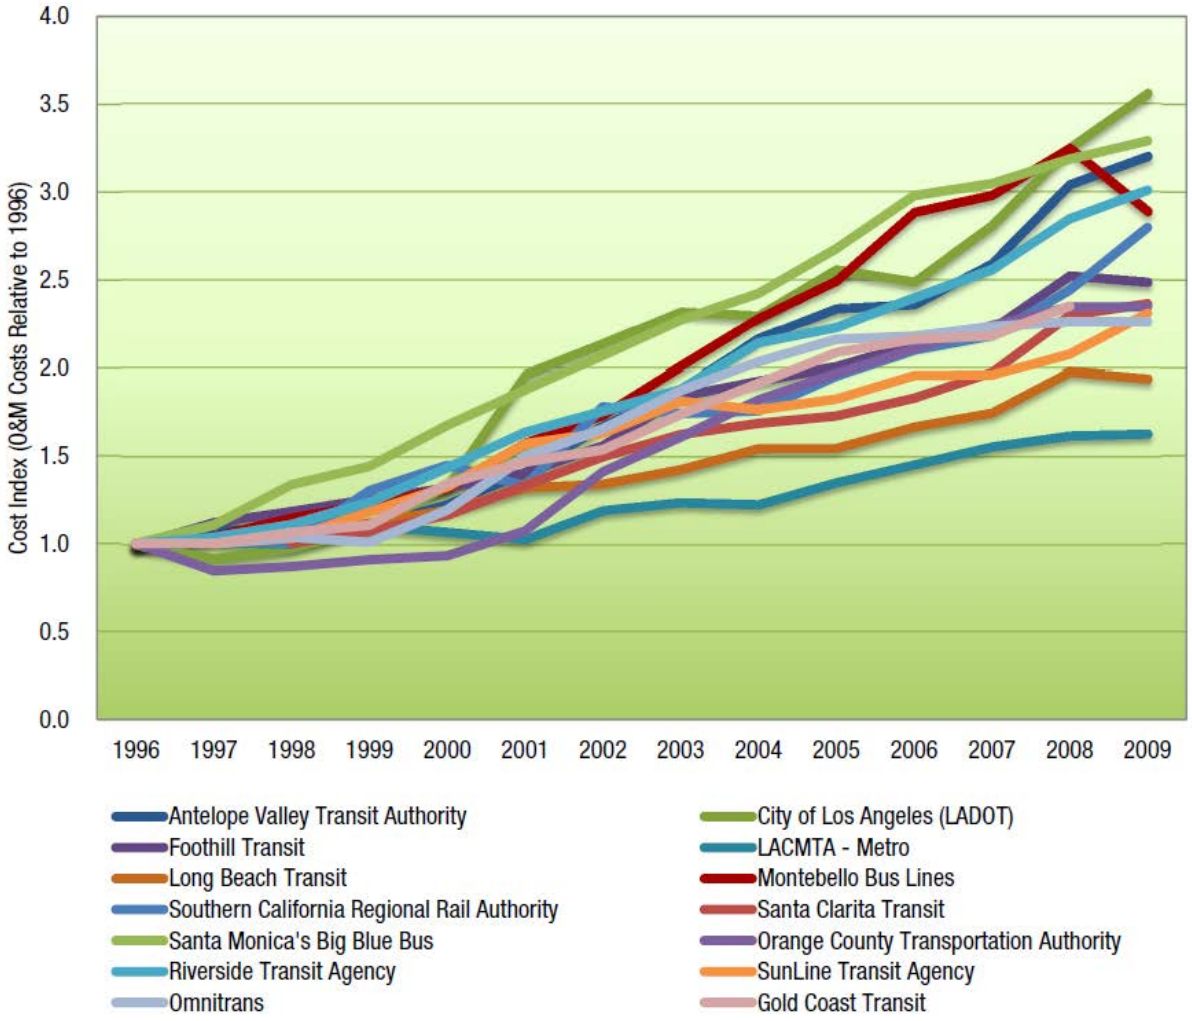

In SCAG's financial forecasting model, transit O&M costs are estimated based upon historical increases:

- The regional average increase (3.6 percent) is used for most operators. This assumes that some of the extraordinary increases for individual operators due to rapid expansion will not continue into the future.

- For Los Angeles County, the financial plan relies on detailed forecasts from the county transportation commission. These forecasts are consistent with historical data and take into account large shifts in O&M costs due to major capital projects.

The 2012–2035 RTP/SCS financial forecast identifies $139.3 billion in transit O&M costs through FY2035.

Debt Management Policies

The local county transportation commissions in the SCAG region issue both short- and long-term debt on an as-needed basis. Primarily secured by local sales tax programs, long-term debt has been issued to fund a portion of the capital development costs of transportation systems throughout the region where doing so is cost-effective, fiscally prudent, and enhances the ability

to facilitate project delivery. Short-term debt instruments have included commercial paper, tax and revenue as well as grant anticipation notes to provide interim cash for projects. In the SCAG region, general policies in the sale and management of debt have been to issue bonds subject to debt limitations; to maintain strong debt service coverage requirements; to obtain the highest possible credit ratings and the lowest cost of borrowing; as well as to minimize risk exposure. The latest outstanding debt for each local county transportation commission is summarized below:

- As of June 30, 2013, Riverside County Transportation Commission (RCTC) had $311.4 million in sales tax revenue bonds and $60.0 million in commercial paper notes outstanding. The sales tax debt limitation for RCTC under the 2009 Measure A program is $975.0 million, which exceeds the total outstanding debt of $371.4 million. In July 2010, RCTC authorized the issuance of toll revenue bonds not to exceed $900.0 million but no toll revenue bonds were issued as of June 30, 2013.[2]

- As of June 30, 2013, Orange County Transportation Authority (OCTA) had $526.6 million in bonds and commercial paper notes outstanding compared to $538.3 million as of June 30, 2012. The June 30, 2013 $526.6 outstanding amount was comprised of $346.2 million in sales tax revenue bonds, $25.0 million in commercial paper notes, and $155.5 million in toll road revenue refunding bonds.[3]

- As of June 30, 2013, Los Angeles County Metropolitan Transportation Authority (LACMTA) had a total of $4,484.8 million in long-term debt outstanding. Of this amount, $3,107.2 million relates to bonds secured by sales tax revenue, $154.9 million is secured by farebox and other general revenues and $815.4 million relates to lease/leaseback obligations.[4]

- As of June 30, 2013, San Bernardino Associated Governments (SANBAG) had $91.9 million in sales tax revenue bonds outstanding. The voters of San Bernardino County approved Ordinance 04-02 in November 2004 which authorized debt not to exceed the total amount of the 2010-2040 Measure I sales tax.[5]

Conclusion

The financial conditions presented provide the overall context for the 2015 FTIP. Incorporating the analytical framework presented in this section to better gauge the region's financial capacity, the Regional Funding and Expenditure Tables in Attachment D reflect a comprehensive investment package consistent with the region's long-term transportation vision as delineated in the adopted 2012–2035 RTP/SCS. Further, the 2015 FTIP for the SCAG region is financially constrained in accordance with 23 U.S. Code Section 134(h) and 23 CFR Section 450.324(e).

[4] LACMTA Comprehensive Annual Financial Report, Fiscal Year Ended June 30, 2013
[5] SANBAG Comprehensive Annual Financial Report, Fiscal Year Ended June 30, 2013

All programming totals are consistent with projected revenues. The policy boards of the region's county transportation commissions have approved their respective programs and committed funds to implement the projects listed in the 2015 FTIP. County resolutions are included in Attachment B to demonstrate financial commitment to these projects. Additional documentation is provided in the following supplementary attachment section.

RESOLUTION NO. 012214-4E

A RESOLUTION OF THE IMPERIAL COUNTY TRANSPORTATION COMMISSION (ICTC) WHICH CERTIFIES THAT ICTC HAS THE RESOURCES TO FUND THE PROJECTS IN THE FFY 2014-15 – 2019/20 TRANSPORTATION IMPROVEMENT PROGRAM AND AFFIRMS ITS COMMITMENT TO IMPLEMENT ALL PROJECTS IN THE PROGRAM

WHEREAS, ICTC is located within the metropolitan planning boundaries of the Southern California Association of Governments; and

WHEREAS, the MAP-21 Moving Ahead for Progress in the 21st Century Act (MAP-21) requires SCAG to adopt a regional transportation improvement program for the metropolitan planning area; and

WHEREAS, MAP-21 also requires that the regional transportation improvement program include a financial plan that demonstrates how the transportation improvement program can be implemented; and

WHEREAS, the ICTC is the agency responsible for short-range capital and service planning and programming for the ICTC area within SCAG; and

WHEREAS, as the responsible agency for short-range transportation planning, the ICTC is responsible for the development of the ICTC Transportation Improvement Program, including all projects utilizing federal and state highway/road and transit funds; and

WHEREAS, the ICTC must determine, on an annual basis, the total amount of funds that could be available for transportation projects within its boundaries; and

WHEREAS, the ICTC has adopted the FFY 2014/15-2019/20 ICTC Transportation Improvement Program with funding for FFY 2014/15 and 2015/16 available and committed, and reasonably committed for FFY 2016/17 through 2019/20.

NOW, THEREFORE, BE IT RESOLVED by the ICTC that it affirms its continuing commitment to the projects in the FFY 2014/15-2019/20 ICTC Transportation Improvement Program (TIP); and

BE IT FURTHER RESOLVED, that the FFY 2014/15-2019/20 ICTC TIP Financial Plan identifies the resources that are available and committed in the first two years and reasonably available to carry out the program in the last four years, and certifies that:

1. Projects in the FFY 2014/15-2019/20 ICTC TIP are consistent with the proposed 2014 State Transportation Improvement Program scheduled to be approved by the California Transportation Commission in April 2014; and

2. All of the projects in the ICTC TIP have complete funding identified in the Program. The ICTC 2014 STIP Regional Improvement Program, as identified in the Financial Plan, will include sufficient funds to complete the project.

3. ICTC has the funding capacity in its county Surface Transportation Program and Congestion Mitigation and Air Quality Program allocation to fund all of the projects in the FFY 2014/15-2019/20 ICTC TIP; and

4. The local match for projects funded with federal STP and CMAQ program funds is identified in the TIP.

5. All the Federal Transit Administration funded projects are programmed within MAP-21 Guaranteed Funding levels.

RESOLUTION CERTIFYING THAT THE LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY (MTA) HAS RESOURCES TO FUND PROJECTS IN FFY 2014/2015 – 2019/2020 TRANSPORTATION IMPROVEMENT PROGRAM AND AFFIRMS ITS COMMITMENT TO IMPLEMENT ALL PROJECTS IN THE PROGRAM

WHEREAS, Los Angeles County is located within the metropolitan planning boundaries of the Southern California Association of Governments (SCAG); and

WHEREAS, the Moving Ahead for Progress in the 21st Century Act (MAP-21) requires SCAG to adopt a regional transportation improvement program for the metropolitan planning area; and

WHEREAS, MAP-21 also requires that the regional transportation improvement program include a financial plan that demonstrates how the transportation improvement program can be implemented; and

WHEREAS, MTA is the agency responsible for short-range capital and service planning and programming for the Los Angeles County area within the SCAG region; and

WHEREAS, as the responsible agency for short-range transportation planning, MTA is responsible for the development of the Los Angeles County Transportation Improvement Program (TIP), including all projects utilizing federal and state highway/road and transit funds; and

WHEREAS, MTA must determine, on an annual basis, the total amount of funds that could be available for transportation projects within its boundaries; and

WHEREAS, MTA has adopted the Federal Fiscal Year (FFY) 2014/2015 – 2019/2020 Los Angeles County TIP with funding for FFY 2014/2015 and 2015/2016 available and committed, and reasonably committed for FFY 2016/2017 through 2019/2020.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Los Angeles County Metropolitan Transportation Authority that it affirms its continuing commitment to the projects in the FFY 2014/2015 – 2019/2020 Los Angeles County TIP; and

BE IT FURTHER RESOLVED, that the FFY 2014/2015 – 2019/2020 Los Angeles County TIP Financial Plan identifies the resources that are available and

committed in the first two years and reasonably available to carry out the program in the last four years, and certifies that:

1. The Regional Improvement Program projects in the FY2014/2015 – 2019/2020 Los Angeles County TIP are consistent with the proposed 2014 State Transportation Improvement Program scheduled to be approved by the California Transportation Commission in March 2014;

2. Los Angeles County has the funding capacity in its county Surface Transportation Program (STP) and Congestion Mitigation and Air Quality Improvement Program (CMAQ) allocations to fund all of the projects in the FFY 2014/2015 – 2019/2020 Los Angeles County TIP;

3. The local match for projects funded with federal STP and CMAQ program funds is identified in the FTIP; and

4. All the Federal Transit Administration funded projects are programmed within MAP-21 Guaranteed Funding levels.

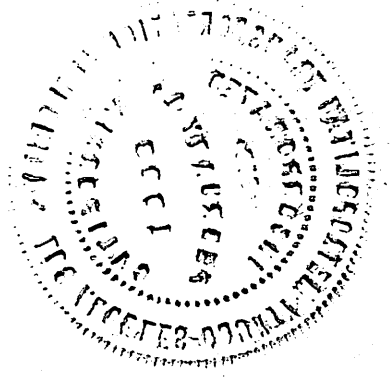

CERTIFICATION

The undersigned, duly qualified and serving as Secretary of the Board of the Los Angeles County Metropolitan Transportation Authority, certifies that the forgoing is a true and correct representation of a Resolution adopted at a legally convened meeting of the Board of Directors of the Los Angeles County Metropolitan Transportation Authority held on _____.

RESOLUTION OF THE RIVERSIDE COUNTY TRANSPORTATION COMMISSION CERTIFYING THAT RIVERSIDE COUNTY HAS RESOURCES TO FUND PROJECTS IN FEDERAL FISCAL YEARS 2014/15 THROUGH 2019/20 TRANSPORTATION IMPROVEMENT PROGRAM AND AFFIRMING COMMITMENT TO IMPLEMENT ALL PROJECTS IN THE PROGRAM

WHEREAS, Riverside County is located within the metropolitan planning boundaries of the Southern California Association of Governments (SCAG); and

WHEREAS, the Moving Ahead for Progress in the 21st Century (MAP-21) requires SCAG to adopt a regional transportation improvement program for the metropolitan area; and

WHEREAS, the MAP-21 also requires that the regional transportation improvement program include a financial plan that demonstrates how the transportation improvement program can be implemented; and

WHEREAS, the Riverside County Transportation Commission (RCTC) is the agency responsible for short-range capital and service planning and programming for the Riverside County area within SCAG; and

WHEREAS, as the responsible agency for short-range transportation planning, the RCTC is responsible for developing the Riverside County Transportation Improvement Program (TIP), including all projects utilizing federal and state highway and transit funds; and

WHEREAS, the RCTC must determine, on an annual basis, the total amount of funds that could be available for transportation projects within its boundaries; and

WHEREAS, the RCTC has adopted the FFY 2014/15 through FFY 2019/20 Riverside County TIP with funding for FFY 2014/15 and FFY 2015/16 available and committed, and reasonably committed for FFY 2016/17 through FFY 2019/2020.

NOW, THEREFORE, BE IT RESOLVED by the RCTC that it affirms its continuing commitment to the projects in the FFY 2014/15 through FFY 2019/20 Riverside County TIP; and

BE IT FURTHER RESOLVED, that the FFY 2014/15 through FFY 2019/20 Riverside County TIP Financial Plan identifies the resources that are available and committed in the first two years and reasonably available to carry out the program in the last four years, and certifies that:

1. Projects in the FFY 2014/15 through FFY 2019/20 Riverside County TIP are consistent with the proposed 2014 State Transportation Improvement Program scheduled to be approved by the California Transportation Commission in March 2014; and

2. All of the projects in the Riverside County TIP have complete funding identified in the Program.

3. Riverside County has the funding capacity in its county Surface Transportation Program (STP) and Congestion Mitigation and Air Quality Program (CMAQ) allocation to fund all of the projects in the FFY 2014/15 through FFY 2019/20 Riverside County TIP, and

4. The local match for projects funded with federal STP and CMAQ program funds is identified in the TIP,

5. All the Federal Transit Administration funded projects are programmed within MAP-21 Guaranteed Funding Levels.

APPROVED AND ADOPTED this 12th day of March, 2014.

RESOLUTION NO. 14-006

A RESOLUTION CERTIFYING THAT THE SAN BERNARDINO COUNTY TRANPORTATION COMMISSION AND OTHER PROJECT SPONSORS HAVE RESOURCES TO FUND THE PROJECTS IN THE FEDERAL FISCAL YEARS 2014/2015 – 2019/2020 TRANSPORTATION IMPROVEMENT PROGRAM AND AFFIRMING THE COMMITMENT TO IMPLEMENT ALL PROJECTS IN THE PROGRAM.

WHEREAS, San Bernardino County is located within the metropolitan planning boundaries of the Southern California Association of Governments (hereinafter referred to as "SCAG"); and

WHEREAS, the Moving Ahead for Progress in the 21st Century Act ("MAP-21") requires SCAG to adopt a Transportation Improvement Program ("TIP") for the metropolitan planning area; and

WHEREAS, MAP-21 also requires that the TIP include a financial plan that demonstrates how the TIP can be implemented; and

WHEREAS, the San Bernardino County Transportation Commission (hereinafter referred to as "SANBAG") is the agency responsible for short-range capital and service planning and programming for the San Bernardino County area within SCAG; and

WHEREAS, as the responsible agency for short-range transportation planning, SANBAG is responsible for the development of the San Bernardino County TIP in coordination with other project sponsors, including all projects using federal and state highway/road and transit funds; and

WHEREAS, SANBAG must determine, on an annual basis, the total amount of funds that could be available for transportation projects within its boundaries; and

WHEREAS, SANBAG has adopted the Federal Fiscal Years 2014/2015-2019/2020 San Bernardino County TIP with funding available and committed for Federal Fiscal Years 2014/2015 and 2015/2016, and reasonably available for Federal Fiscal Years 2016/2017 through 2019/2020.

NOW, THEREFORE, BE IT RESOLVED by the San Bernardino County Transportation Commission as follows:

Section 1. The Commission affirms its continuing commitment to the projects in the Federal Fiscal Years 2014/2015-2019/2020 San Bernardino County TIP.

Section 2. The Federal Fiscal Years 2014/2015-2019/2020 San Bernardino County TIP Financial Plan identifies the resources that are available and committed in the first two years and reasonably available to carry out the program in the last four years, and certifies that:

1. Projects in the Federal Fiscal Years 2014/2015-2019/2020 San Bernardino County TIP are consistent with the proposed 2014 State Transportation Improvement

Program (STIP) scheduled to be approved by the California Transportation Commission in April 2014; and

2. All of the projects in the San Bernardino County TIP have complete funding identified except the following five projects that will require either additional funding or approved schedule changes in the 2014 STIP cycle:

   - SBD31850 – I-215/Barton Rd. Interchange
   - OM630 – I-215/Mt. Vernon Interchange
   - 20111625 – SR-210 Lane Addition
   - 0C2500 – I-10 HOV Lane Addition
   - 200451 – US-395 Widening through Adelanto

   These projects are the County's priorities for 2014 STIP funds. The San Bernardino County 2014 STIP Regional Improvement Program, as identified in the Financial Plan, will include sufficient funds to complete the project. Therefore, as required by MAP-21, SANBAG finds that full funding can reasonably be anticipated to be available for these projects within the time period contemplated for completion of the projects.

3. SANBAG has the funding capacity in its county Surface Transportation Program ("STP") and Congestion Mitigation and Air Quality Program ("CMAQ") apportionments to fund all of the projects programmed for those funds in the Federal Fiscal Years 2014/2015-2019/2020 San Bernardino County TIP; and

4. The local match for projects funded with federal STP and CMAQ program funds is identified in the San Bernardino County TIP; and

5. All of the Federal Transit Administration-funded projects are programmed within MAP-21 Guaranteed Funding levels.

6. SANBAG staff is authorized to amend the TIP based on current funding levels and funding priorities established by the SANBAG Board of Directors and other project sponsors.

Section 3. This Resolution shall take effect immediately upon adoption.

PASSED AND ADOPTED at a meeting of the San Bernardino County Transportation Commission held on February 5, 2014.

[1] JARC/NF funds reflect funding from current executed grants.

[2] 5307 estimated carryover from FY14 grant CA-90-Z128.

[3] COA Study utilizes previously programmed 5309 funds.

[4] Section 5339 Bus and Bus Facilities funding is FY2013 apportionment only. (60020-LA UZA: $4,256; 60420-Riv/San UZA: $1,093,569; 61320-Temecula UZA: $482,338)

[5] TDA Section 6648 - "Allocations Reserved in the Fund" - requires the Commission to reprogram unexpended prior reserved funds after 3 years. Since these funds were allocated for the heavy-duty CNG bus replacement project, but not yet expended, they are being removed from the FY11/12 and FY12/13 SRTPs, respectively, and are hereby reprogrammed in FY14/15 SRTP in the amount of $13,682,692 for the heavy-duty CNG bus expansion project.

Expedited Project Selection Procedures

Expedited Project Selection Procedures

Under California law (AB 1246), the County Transportation Commissions (CTCs- Imperial County Transportation Commission, Los Angeles County Metropolitan Transportation Authority, Orange County Transportation Authority, San Bernardino Associated Governments, Riverside County Transportation Commission, and Ventura County Transportation Commission) are responsible for developing the county transportation improvement programs for submittal to SCAG. SCAG in turn prepares the FTIP using the county TIPs.

SCAG publishes the FTIP guidelines at the beginning of each FTIP cycle and outlines all federal, state, and MPO requirements to facilitate the development of the county TIPs.

SCAG analyzes all of the county TIP projects for consistency with the RTP and for financial constraint. SCAG incorporates the eligible projects into the Federal Transportation Improvement Program (FTIP) for conformity analysis. Projects that are not consistent with the federal and MPO requirements are not incorporated into the FTIP.

Should conflicts arise, they are worked out with the CTCs, SCAG's Regional Council and the AB 1246 CEOs Committee. If a project should fall out, then SCAG coordinates with the CTCs to replace it. The Transportation Conformity Working Group also serves as a mechanism for interagency consultation for TIP issues between staff representatives from SCAG, the CTCs, Caltrans, and federal and state agencies.

2. Project Programming

Once the CTCs have programmed funds to projects, as required by state and federal statutes, projects are then included in the FTIP in accordance with the estimated project delivery schedules. The first four years of the FTIP are required to be financially constrained, and programming beyond this period is for information purposes only. Below are the steps which specify how projects are programmed in the FTIP:

i. The CTCs have established that projects programmed in the first four years are priority projects for the region and are programmed according to estimated project delivery schedules at the time of the TIP submittal. SCAG incorporates the county TIPs into the Federal TIP as submitted by the CTCs in accordance with the appropriate transportation conformity and RTP consistency requirements.

ii. SCAG performs all required conformity and consistency analysis and public hearings on the FTIP and adopts the FTIP.

iii. SCAG submits the FTIP to the Governor (authority delegated to Caltrans) for incorporation into the State's Federal TIP, and SCAG simultaneously submits the conformity findings to the FHWA, FTA, and EPA for approval of the final conformity determination.

3. Expedited Project Selection Procedures

The current Code of Federal Regulations, 23CFR450.330, states the following regarding Expedited Project Selection Procedures (EPSP):

"If the State or public transportation operator(s) wishes to proceed with a project in the second, third year, or fourth year of the TIP, the specific project selection procedures stated in paragraphs (b) and (c) of this section must be used unless the MPO, the State and the public transportation operator(s) jointly develop expedited project selection procedures to provide for the advancement of projects from the second, third or fourth year of the TIP."

In order to address the above regulation the SCAG region (SCAG, County Transportation Commissions (CTCs), and transit operators) developed and agree to the following expedited project selection procedures:

Projects programmed within the first four years may be advanced to accommodate project schedules that have proceeded more rapidly than estimated. This advancement allows project sponsors the flexibility to deliver and obligate state and/or federal funds in a timely and efficient manner. Nevertheless, non-TCM projects can only advance ahead of TCM projects if they do not cause TCM projects to be delayed.

i. SCAG receives request to use EPSP for project(s) in the FTIP.

ii. SCAG analyzes, discusses with CTC, and takes action on the request for the use of EPSP for project(s) in the FTIP.

In addition, SCAG and Caltrans agree that the Caltrans' State Highway Operation Protection Program (SHOPP) Program Manager may advance or delay projects programmed in the adopted SHOPP project schedule upon notifying SCAG.

The Caltrans Division of Local Assistance has implemented a project selection process for the Highway Maintenance (HM) Active Transportation Program (ATP), Highway Safety Improvement Program (HSIP), Highway-Railroad Grade Separation Program, the Highway Bridge Program (HBP), and High Risk Rural Roads (HRRR/HR3) Program to produce the four-year FTIP, Program Schedule planning list. Projects funded through the programs listed may be advanced or delayed within the four-year element of the FTIP by the authorized Program Managers without amending the FTIP, upon notification to SCAG.

Projects from the first four years of the 2015 FTIP have been selected using the project selection procedures.

Amendment and Administrative Modification Approval Procedures – SCAG Executive Director Authority

The Regional Council hereby grants authority to SCAG's Executive Director to approve Federal Transportation Improvement Program (FTIP) amendments and associated conformity determination and to transmit to the state and federal agencies amendments to the most currently approved FTIP. These amendments must meet the following criteria:

a. Changes that do not affect the regional emissions analysis.

b. Changes that do not affect the timely implementation of the Transportation Control Measures.

c. Changes that do not adversely impact financial constraint.

d. Changes consistent with the adopted Regional Transportation Plan as amended.

Amendments triggered by an RTP/SCS amendment must be approved by the Regional Council.

Additionally, the SCAG Regional Council adopted a resolution on October 6, 2011 regarding Administrative Modification approval procedures. It is consistent with the FHWA and FTA letter dated June 3, 2011 and the SCAG Regional Council hereby accepts delegation from Caltrans and delegates authority to SCAG's Executive Director to approve FTIP Administrative Modifications for submittal into the FSTIP consistent with approved FSTIP/FTIP Administrative Modification and Amendment Procedures as may be amended and subject to approval by Caltrans. The following procedures apply to this delegation of authority:

a. SCAG must submit copies of the approved administrative modification to Caltrans, FHWA, and FTA.

b. SCAG will demonstrate in a subsequent amendment that the net financial change from each administrative modification has been accounted for.

c. Caltrans will conduct periodic reviews of SCAG's administrative modification process to confirm adherence to these procedures. Noncompliance with these procedures will result in revocation of the MPO's delegation.

RESOLUTION NO. 11-532-1

A RESOLUTION OF THE SOUTHERN CALIFORNIA ASSOCIATION OF GOVERNMENTS (SCAG) GRANTING AUTHORITY TO SCAG'S EXECUTIVE DIRECTOR TO APPROVE FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM (FTIP) AMENDMENTS AND TO APPROVE FTIP ADMINISTRATIVE MODIFICATIONS

WHEREAS, the Southern California Association of Governments (SCAG) is the federally designated Metropolitan Planning Organization (MPO) pursuant to U.S.C. §134(a) and (g) for the Counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura, and as such, is responsible for the preparation, adoption and regular revision of the Regional Transportation Plan (RTP) and the Federal Transportation Improvement Program (FTIP) pursuant to 23 U.S.C. §§134(g) 49 U.S.C. §5303(f) and 23 C.F.R. §450.312; and

WHEREAS, also pursuant to Section 130004 of the California Public Utilities Code, SCAG is the designated Regional Transportation Planning Agency and, as such, is responsible for preparation of both the RTP and FTIP under California Government Code §§ 65080 and 65082 respectively; and

WHEREAS, on August 10, 2005, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was signed into law, Pub. L. No. 109-59, Title VI, Section 6001(a), 119 Stat. 1839. SAFETEA-LU includes new and revised metropolitan transportation planning provisions and requires that the RTP and FTIP updates reflect these provisions beginning July 1, 2007; and

WHEREAS, under SAFETEA-LU and its implementing regulations under 23 CFR Part 450, and MPO shall develop a FTIP for the metropolitan planning area covering a period of no less than four years, and be updated at least every four years. In addition, the FTIP must also be updated every two years so as to be consistent with the State Transportation Improvement Program (STIP); and

WHEREAS, SCAG received a letter dated June 3, 2011 from Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) regarding revisions to the Federal State Transportation Improvement Program (FSTIP)/FTIP Amendments and Administrative Modification Procedures; and

WHEREAS, under the revised FHWA/FTA procedures, the Regional Council may delegate authority to the SCAG Executive Director to approve FTIP amendments and associated conformity determinations in accordance with requisite procedures; and

WHEREAS, under the revised FHWA/FTA procedures, SCAG may submit to the State Department of Transportation (Caltrans) a board action to approve administrative modifications to the FSTIP in accordance with requisite procedures, and to delegate the approval of such administrative modifications to the SCAG Executive Director.

NOW, THEREFORE BE IT RESOLVED, by the Regional Council of the Southern California Association of Governments as follows:

1. The Regional Council hereby grants authority to the SCAG Executive Director to approve FTIP amendments and associated conformity determinations and to transmit to the state and federal agencies amendments to the most currently approved FTIP. These amendments must meet the following criteria:

    a. Changes that do not affect the regional emissions analysis.

    b. Changes that do not affect the timely implementation of the Transportation Control Measures.

    c. Changes that do not adversely impact financial constraint.

    d. Changes consistent with the adopted Regional Transportation Plan.

2. Amendments triggered by an RTP amendment must be approved by the Regional Council.

3. Consistent with the FHWA and FTA letter dated June 3, 2011, the SCAG Regional Council hereby accepts delegation from Caltrans and delegates authority to SCAG's Executive Director to approve FTIP Administrative Modifications for submittal into the FTSIP consistent with approved FSTIP/FTIP Administrative Modification and Amendment Procedures as may be amended and subject to approval by Caltrans. The following procedures apply to this delegation of authority:

a. SCAG must submit copies of the approved administrative modification to Caltrans, FHWA, and FTA.

b. SCAG will demonstrate in a subsequent amendment that the net financial change from each administrative modification has been accounted for.

c. Caltrans will conduct periodic reviews of SCAG's administrative modification process to confirm adherence to these procedures. Noncompliance with these procedures will result in revocation of the MPO's delegation.

4. SCAG staff shall request Caltrans approval of the delegation of authority procedures set forth above.

APPROVED AND ADOPTED by the Regional Council of the Southern California Association of Governments at its regular meeting on the 6th day of October 2011.

Environmental Justice

The Final 2012-2035 RTP/SCS, approved by the SCAG Regional Council on April 4, 2012 (and approved by FHWA/FTA with regard to transportation conformity on June 4, 2012), included a comprehensive environmental justice analysis. The 2015 FTIP is consistent with the policies, programs, and projects included in the 2012-2035 RTP/SCS, as amended by the proposed 2012-2035 RTP/SCS Amendment No. 2, and as such the environmental justice analysis included as part of the 2012-2035 RTP/SCS appropriately serves as the analysis for the transportation investments in the 2015 FTIP.

A key component of the 2012-2035 RTP/SCS development process was to further implement SCAG's Public Participation Plan, which involved outreach to achieve meaningful public engagement with minority and low-income populations, and included seeking input from our environmental justice stakeholders. As part of the environmental justice analysis for the 2012-2035 RTP/SCS, SCAG identified several performance measures to analyze existing social and environmental equity in the region and to address the impacts of the 2012–2035 RTP/SCS on various environmental justice population groups. These performance measures included impacts related to tax burdens, share of transportation system usage, jobs-housing imbalance or mismatch, potential gentrification and displacement, air quality, health, noise, and rail related impacts. For additional information regarding these and other environment justice performance measures and the detailed environmental justice analysis, please see http://rtpscs.scag.ca.gov/Documents/2012/final/SR/2012fRTP_EnvironmentalJustice.pdf .

Additionally, SCAG recently updated its Public Participation Plan, adopted on April 3, 2014, which addresses Title VI Requirements and Guidelines for Federal Transit Administration Recipients (FTA Circular 4702.1B; Effective October 1, 2012), including enhanced strategies for engaging minority and limited English proficient populations in SCAG's transportation planning and programming processes, as well as Environmental Justice Policy Guidance for Federal Transit Administration Recipients (FTA Circular 4703.1; Effective August 15, 2012).

Interagency Consultation and Public Participation

As stated earlier in this document, the 2015 FTIP complies with applicable federal and state requirements for interagency consultation and public involvement by following the strategies described in SCAG's Public Participation Plan (PPP) (for more information on SCAG's PPP please visit http://scag.ca.gov/Documents/PPP2014_Adopted-FINAL.pdf). In accordance with the PPP, SCAG's Transportation Conformity Working Group serves as a forum for interagency consultation.

The 2015 FTIP was discussed with the Transportation Conformity Working Group (TCWG), which includes representatives from the federal, state, and local air quality and transportation agencies, on multiple occasions (September 24, 2013; October 22, 2013; December 3, 2013; January 28, 2014; February 25, 2014; March 25, 2014; April 22, 2014; May 27, 2014; and June 24, 2014). The draft conformity analysis for the 2015 FTIP was released for a 30-day public review on July 1, 2014 and two public hearings were held on July 10 and July 24, 2014 at the SCAG's Los Angeles office with video-conferencing available from the County Regional Offices. The 2015 FTIP is posted on the SCAG website, noticed in numerous newspapers, and distributed to libraries throughout the region. All conformity-specific comments, as well as other comments on the 2015 FTIP, have been documented and responded to as appropriate.

Likewise, the Guidelines for the 2015 FTIP went through a similar public review process. SCAG, in cooperation with the CTCs, TCWG, and other local, state and federal partners, completed its update of the 2015 FTIP Guidelines. The draft Guidelines were presented to the SCAG Transportation Committee for release on September 12, 2013. SCAG received comments during the review period from local, state and federal agencies as well as other interested parties, and revised the document as necessary. The Final Guidelines for the 2015 FTIP were approved by the SCAG Regional Council on October 3, 2013. Draft 2015 Federal Transportation Improvement Program (FTIP) and Draft Amendment No. 2 to the 2012–2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS)

The Southern California Association of Governments (SCAG) has prepared the Draft 2015 Federal Transportation Improvement Program (Draft 2015 FTIP) in compliance with the adopted 2012-2035 Regional Transportation Plan/Sustainable Communities Strategy (2012-2035 RTP/SCS) and all federal and state requirements, including those set forth in the Moving Ahead for Progress in the 21st Century Act (MAP-21) and metropolitan planning regulations. SCAG has also prepared the Draft Amendment No. 2 to the 2012–2035 RTP/SCS to reflect additions or changes to a number of critical transportation projects that are ready to move forward toward the implementation phase.

On June 5, 2014, the SCAG Transportation Committee approved release of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS for a 30-day public review and comment period, which concludes on July 31, 2014. The Draft 2015 FTIP is comprised of transportation projects for the six-county SCAG region: Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. The Draft 2015 FTIP consists of three (3) volumes: (I) Executive Summary, (II) Technical Appendix, and (III) Project Listing (consistent with the 2012 RTP/SCS). The Technical Appendix includes the federally required conformity analysis for the Draft 2015 FTIP. The Draft Amendment No. 2 to the 2012–2035 RTP/SCS is comprised of transportation project changes for the same six-county region, and consists of a single document containing the changes.

Included in the public review and public hearings of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are the Federal Program of Projects for Fiscal Years 2015-2020 that are funded with Federal Transit Administration (FTA) Section 5307 funds for all urbanized areas in the SCAG six-county region. This public involvement opportunity meets the public involvement requirements for the Program of Projects. Subsequent to public involvement and adoption, the final 2015 FTIP will function as the final program for the region, unless amended, and a final notice is not published. The projects are listed by each respective county in Volume III of the Draft 2015 FTIP. The applicable urbanized areas are: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* *(*Imperial County Portion)*.

The Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are available for public review on the SCAG website at www.scag.ca.gov/FTIP and www.scagrtp.net. Copies are also available for public review at SCAG's Los Angeles office and regional offices (Imperial, Orange, Riverside, San Bernardino, and Ventura). Copies of the Draft 2015 FTIP can also be found at public libraries throughout the region (library listing is available on the SCAG website). SCAG's Regional Council as the agency's governing board is tentatively scheduled to consider approval of the final 2015 FTIP and Amendment No. 2 to the 2012–2035 RTP/SCS on September 11, 2014.

SCAG will be holding two (2) public hearings regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS on the following dates, times and locations:

(1) Thursday, July 10, 2014 @ 10:00 AM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

(2) Thursday, July 24, 2014 @ 3:00 PM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

One may also participate in the public hearings via video conference from SCAG's regional offices. Please visit our website for the public hearing procedures and video conference locations at www.scag.ca.gov/FTIP or www.scagrtp.net.

The purpose of the hearings is to receive public input and comments regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS, which may be used to facilitate changes where appropriate. SCAG encourages the public and all interested parties to submit written comments and/or written information at the public hearings and no later than the close of the public comment period. Written comments will be accepted until 5:00 PM on July 31, 2014 and may be submitted electronically to gutierre@scag.ca.gov, or by U.S. mail as follows:

社區聽證會通知

2015 年聯邦交通改善專案（FTIP）草案
以及 2012-2035 年區域交通規劃/社區可持續發展策略（RTP/SCS）第二次修正草案

根據已經通過的 2012-2035 年區域交通規劃/社區可持續發展策略（RTP/SCS）以及聯邦政府和州政府的相關規定，其中包括 21 世紀前進法案（MAP-21）和大都會地區規劃的相關規定，南加州政府協會（SCAG）準備了 2015 年聯邦交通改善專案（FTIP）草案。為了反映新增加或是已改變的重要交通項目，南加州政府協會也準備了 2012-2035 RTP/SCS 第二次修正草案。

於 2014 年 6 月 5 日，南加州政府協會交通委員會批准向公眾發佈 2015 年 FTIP 草案以及 2012-2035 年 RTP/SCS 第二次修正草案，並開始為期 30 天的公眾審閱與評論。公眾審閱與評論將於 2014 年 7 月 31 日結束。 2015 年 FTIP 草案內容包括南加州地區六個縣（帝王縣、洛杉磯縣、橙縣、河濱縣、聖伯納迪諾縣以及凡杜拉縣）的交通計劃項目。 2015 年 FTIP 草案包括三個部分：第一部分為概述；第二部分為技術資料參考；第三部分為計劃索引（與 2012 RTP/SCS 一致）。技術資料參考包括聯邦政府規定的 2015 年 FTIP 草案的空氣污染排放物分析。 2012-2035 年 RTP/SCS 第二次修正草案包括上述六個縣的交通計劃的變更，以及包含這些變更計劃的相關文件。

這次的公眾審閱與評論（包括 2015 年 FTIP 草案和 2012-2035 年 RTP/SCS 第二次修正草案）還列出了 2015 至 2020 會計年度間，南加州六縣大都會區域的聯邦交通計劃專案。這些專案均由聯邦大眾運輸總署（FTA）5037 專案出資興建。此次公眾參與的流程將完全依照相關規定進行。在公眾參與流程結束並被採納後，2015 年 FTIP 將最終定案。除非本草案有再度修改，最後的通知將不再公佈。2015 年 FTIP 的計劃項目將在第三部分根據其所在的不同縣一一列出。符合條件的都會區域包括：Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* (* 帝王縣境內部分)。

您可以到南加州政府協會網站 www.scag.ca.gov/FTIP 或是 www.scagrtp.net 流覽 2015 年 FTIP 草案和 2012-2035 年 RTP/SCS 第二次修正草案。南加州政府協會也在其洛杉磯總部和其他區域辦公室（帝王縣、橙縣、河邊縣、聖伯納迪諾縣以及凡杜拉縣）備有副本供公眾索取閱讀。南加州政府協會區域議會初步定于 2014 年 9 月 11 日審核通過 2015 年 FTIP 最終定案和 2012-2035 年 RTP/SCS 第二次修正案。

南加州政府協會將就 2015 年 FTIP 草案和 2012-2035 年 RTP/SCS 第二次修正草案舉辦兩場聽證會，時間地點如下：

（1）2014 年 7 月 10 日星期四上午 10 時
南加州政府協會洛杉磯辦公室
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

（2）2014 年 7 月 24 日星期四 下午 3 時
南加州政府協會洛杉磯辦公室
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

公眾也可以通過視訊會議的方式參與公眾聽證會。欲瞭解視訊會議參與流程及地點請流覽我們的網站 www.scag.ca.gov/FTIP 和 www.scagrtp.net。

此次公眾聽證會的目的在於徵詢公眾對於 2015 年 FTIP 草案和 2012-2035 年 RTP/SCS 第二修正草案的意見和建議，以促成草案進行適當的修改。南加州政府協會鼓勵有意參加公眾和社會群體事先以書面方式提交您的意見，截止日期為 2014 年 7 月 31 日。公眾也可以電郵至 gutierre@scag.ca.gov 或通過信函方式寄至：

2015 연방교통개선프로그램안 (2015 FTIP 안) 과 2012-2035 지역교통계획 및 지속가능한 커뮤니티 개발전략(2012-2035 RTP/SCS)의 2 차 개정안

남캘리포니아 정부 연합 (SCAG)은 MAP-21, 연방정부의 광역도시권 계획과 관련된 법규, 2012-2035 RTP/SCS 등을 포함한 연방정부 및 주정부의 법규에 따라 2015 연방교통개선프로그램안을 마련하였습니다. 또한 SCAG 은집행단계에 다다른 중요한 교통 프로젝트들에 대한 추가 또는 수정사항을 반영하기 위하여 2012-2035 RTP/SCS 의 2 차 개정안을 마련하였습니다.

2014 년 6 월 5 일, SCAG 교통 위원회는 2015 FTIP 안과 2012-2035 RTP/SCS 2 차 개정안에 대하여 2014 년 7 월 31 일 까지 30 일 동안 주민의견을 수렴하도록 승인하였습니다. 2015 FTIP 안은 SCAG 지역 6 개 카운티 (Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura)의 교통 프로젝트들로 구성되어 있습니다. 2015 FTIP 안은 2012-2035 RTP/SCS 와 동일하게 (I) 요약본 (II) 기술 부록 (III) 프로젝트 목록 등 세 권의 보고서로 구성되어 있습니다. 기술 부록 (Technical Appendix)에는 연방 정부의 규정에 따른 2015 FTIP 안에 대한적합성 (conformity) 분석이 포함되어 있습니다. 2012-2035 RTP/SCS 의 2 차 개정안은 위의 6 개 카운티 지역내에서 최근변경된 교통 프로젝트들에 관한 내용을 담고 있습니다.

2015 FTIP 안과 2012-2035 RTP/SCS 2 차 개정안에 대한 주민공청회에는 SCAG 지역 내에서 2015-2020 회계년도 기간 중 연방 대중교통국 (Federal Transit Administration (FTA))의 섹션 5037 의 재정지원을 받는 프로젝트들이 포함됩니다. 이번 주민공청회는 연방정부의 프로젝트들에 대한 주민참여규정에 따른 것입니다. 주민공청회 이후 승인이 확정되면, 2015 FTIP 안은 추가 수정이나 공고가 발표되지 않는 이상 SCAG 지역을 위한 최종 프로그램이 될 예정입니다. 공청회 관련 프로젝트들은 2015 FTIP 안의 프로젝트 목록 보고서에 카운티별로 정리되어 있으며, 해당 지역들은 다음과 같습니다: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* *(*Imperial County).*

2015 FTIP 안과 2012-2035 RTP/SCS 2 차 개정안은 SCAG 웹사이트 (www.scag.ca.gov/FTIP 또는 www.scagrtp.net) 에서 열람이 가능합니다. SCAG 로스앤젤레스 (Los Angeles) 사무소를 비롯한 각 지역사무소 (Imperial, Orange, Riverside, San Bernardino, and Ventura), 각 지역 공공도서관에서도 복사본 열람이 가능합니다 (공공도서관 리스트는 SCAG 웹사이트에 들어가시면 확인하실 수 있습니다). SCAG 지역 의회 (Regional Council)는 잠정적으로 2015 FTIP 안과 2012-2035 RTP/SCS 2 차 개정안의 최종본을 2014 년 9 월 11 일에 승인할 계획입니다.

2015 FTIP 안과 2012-2035 RTP/SCS 2 차 개정안에 대한 공청회는 다음과 같이 두 번에 걸쳐 개최될 예정입니다:

(1) Thursday, July 10, 2014 @ 10:00 AM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

(2) Thursday, July 24, 2014 @ 3:00 PM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

주민공청회는 SCAG 지역사무소에 마련된 비디오 컨퍼런스를 통해 참가하실 수도 있습니다. 공청회 진행과정과 SCAG 지역사무소의 위치에 대한 자세한 내용은 www.scag.ca.gov/FTIP 또는 www.scagrtp.net 에서 확인하실 수 있습니다.
이번 공청회의 목적은 2015 FTIP 안과 2012-2035 RTP/SCS 2 차 개정안에 대하여 주민의 의견을 듣고자 함에 있습니다. 공청회 관련 의견은 서면으로도 제출이 가능하오니 좋은 의견이 있으신 주민 및 관련 단체의 많은 참여 바랍니다. 서면의견은 2014 년 7 월 31 일 오후 5 시까지 아래의 이메일 또는 주소로 보내실 수 있습니다.

ANUNCIO DE LA DISPONIBILIDAD Y DE LAS AUDIENCIAS PÚBLICAS

Para los documentos preliminares del Programa de Mejoramiento del Transporte Federal 2015 (FTIP, según sus siglas en inglés) – Draft 2015 Federal Transportation Improvement Program (FTIP) y La Enmienda No. 2 al Plan de Transporte Regional/Estrategia para Comunidades Sostenibles 2012-2035 (RTP/SCS 2012-2035)

La Asociación de Gobiernos del Sur de California (SCAG) ha preparado el Borrador del Programa de Mejoramiento del Transporte Federal 2015 (FTIP 2015) en conformidad con el Plan de Transporte Regional/Estrategia para Comunidades Sostenibles 2012-2035 (RTP/SCS 2012-2035) de SCAG y según los requisitos aplicables de las leyes federales y estatales, incluyendo ésos dispuestos en la ley de Avanzando para el Progreso en el siglo 21 (mejor conocida como MAP-21, según sus siglas en inglés) y con las regulaciones de planificación metropolitano.

El 5 de junio del 2014, el comité de transporte de SCAG aprobó la distribución del Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2035 por un periodo de treinta (30) días de revisión y comentario público el cual se concluye el 31 de julio del 2014. El Borrador del FTIP 2015 contiene los proyectos de transporte para los siguientes seis condados dentro de la región de SCAG: Imperial, Los Angeles, Orange, Riverside, San Bernardino, y Ventura. El Borrador del FTIP 2015 cuenta con tres (3) volúmenes, (I) resumen ejecutivo, (II) apéndice técnico, y (III) lista de proyectos (consistente con el RTP/SCS 2012-2035). El apéndice técnico incluye el análisis de la conformidad para el FTIP 2015 el cual es requerido según la ley federal. La Enmienda No. 2 al RTP/SCS 2012-2035 consiste de un solo documento que contiene cambios a proyectos de transporte dentro de la región de SCAG.

Incluido en la revisión pública y las audiencias públicas del Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015 el Programa Federal de Proyectos para los años 2015-2020 que enumera los proyectos de transporte que han sido propuestos para la programación y que recibirán fondos federales de la sección 5307 de la administración de tránsito (FTA) para todas las áreas urbanizadas en la región cual cubre los seis condados de SCAG. Esta oportunidad de participación pública cumple con los requisitos de participación pública para el Programa Federal de Proyectos. Con posterioridad a la participación pública y la adopción, el 2015 FTIP Final funcionará como el programa final para la región, solamente que se modifique, y un aviso final no este publicado.

Los proyectos están enlistados por condado respectivo en el volumen III del borrador del FTIP 2015. Las áreas urbanas son: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville – Hesperia, Yuma AZ – CA* *(*Porción del condado de Imperial).*

El borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015 están disponibles en la página de Internet de SCAG - www.scag.ca.gov/FTIP y www.scagrtp.net. Copias también están disponibles para ser revisadas en las oficinas regionales de SCAG (Imperial, Orange, Riverside, San Bernardino, y Ventura) y en algunas bibliotecas públicas por toda la región (la lista de las bibliotecas esta disponible en la pagina de Internet de SCAG). La junta gobernante de SCAG, conocida como el Concilio Regional, esta tentativamente programada para considerar la aprobación del Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015 el 11 de septiembre del 2014.

SCAG tiene programada dos (2) audiencias públicas para recibir testimonio público sobre el Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015. Las audiencias están programadas para el:

(1) Jueves, 10 de julio del 2014 a las 10:00am
Oficina de SCAG en Los Angeles
818 West Seventh Street, Piso No. 12
Los Angeles, CA 90017

(2) Jueves, 24 de julio del 2014 a las 3:00pm
Oficina de SCAG en Los Angeles
818 West Seventh Street, Piso No. 12
Los Angeles, CA 90017

Las audiencias públicas también estarán disponibles por medio de conferencia de video en las oficinas regionales de SCAG. Favor de visitar nuestra página de Internet para localidades que ofrecerán las audiencias publicas en video de conferencia. www.scag.ca.gov/FTIP

El propósito de estas audiencias públicas son para invitar a las personas interesadas a hacer comentarios con respecto al Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015, el cual puede ser utilizado para facilitar cambios al plan cuando sea apropiado. SCAG les pide a las personas interesadas que envíen comentarios por escrito o por correo electrónico antes de las 5 de la tarde el 31 de julio del 2014. Los comentarios por correo electrónico pueden ser enviados a gutierre@scag.ca.gov, o por correo a:

Draft 2015 Federal Transportation Improvement Program (FTIP)
Draft 2012 Regional Transportation Plan/Sustainable Communities Strategies
Amendment No. 2
Public Hearing
July 10, 2014

Minutes

THE FOLLOWING MINUTES ARE A SUMMARY OF ACTIONS TAKEN AT THE DRAFT 2015 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM (FTIP)/ DRAFT 2012 REGIONAL TRANSPORTATION PLAN/SUSTAINABLE COMMUNITIES STRATEGY (2012 RTP/SCS) AMEDNMENT NO. 2 PUBLIC HEARING. A DIGITAL RECORDING OF THE ACTUAL MEETING IS AVAILABLE FOR LISTENING IN SCAG'S OFFICE.

The Public Hearing was held at SCAG's office in downtown Los Angeles. The meeting was called to order by Chair, Maria Lopez, SCAG FTIP Manager.

CALL TO ORDER

Maria Lopez, SCAG FTIP Manager, called the Public Hearing to order at 10:02 a.m. Ms. Lopez stated Southern California Association of Governments (SCAG) is currently circulating both the Draft 2015 Federal Transportation Improvement Program (FTIP) and the Draft 2012 RTP/SCS Amendment No. 2 for comments. The Draft 2015 FTIP is a capital listing of all transportation projects proposed in the SCAG region over the next six (6) years and it contains approximately 2, 200 projects programmed at $31.8 billion. The Draft 2015 FTIP is available for review at SCAG's Web site and at 56 libraries throughout the region. Comments will be accepted until 5:00 p.m. July 31, 2014.

Ryan Kuo, SCAG staff, provided an update on the Draft 2012 RTP/SCS Amendment No. 2. Mr. Kuo stated Amendment No. 2 was initiated at the request of county transportation commissions to make urgent changes to some projects in order for them to move forward in a timely manner. It was further noted the 2012 RTP/SCS is being developed concurrently with the Draft 2015 FTIP for timing purposes.

PUBLIC COMMENT PERIOD

Dan Silver, Endangered Habitats League, stated he represents a coalition which strenuously objects to the inclusion of the proposed SR 241 Toll Road extension as part of the Draft 2015 FTIP. Mr. Silver stated the SR 241 extension would bisect San Onofre State Beach and has other flaws. Mr. Silver further noted the Tesoro Extension is a prelude to a larger segment intended to reach Interstate 5 which would not provide the Traffic Demand Management benefits (TDM) claimed by its sponsor, the Transportation Corridor Agencies. Mr. Silver stated the TCA argues SCAG should accept the completed SR 241 as a TDM project although the project was denied by the California Coastal Commission and the United States Department of Commerce upheld that decision. Mr. Silver states the project will fail to provide its intended benefits if there is not a realistic process by which it can be extended to Interstate 5. Mr. Silver asked to show the line on the map that represents the project with the supposed benefits. An ill define stake holders process is not enough. Mr. Silver stated that if this particular measure is challenged, it could void the entire FTIP and if it's a risk SCAG is willing to take?

No other public comments were received at the SCAG downtown office. Ms. Lopez asked if any videoconferencing participants at the regional offices wished to submit a public comment. None were received. Ms. Lopez kept the meeting open and available for any additional public comments.

ADJOURNMENT

Having received no additional public comments Ms. Lopez adjourned the Public Hearing at 10:25 a.m. The next Public Hearing for the Draft 2015 Federal Transportation Improvement Program (FTIP) and the Draft 2012 RTP/SCS Amendment No. 2 is July 24, 2014 at 3:00 p.m.

A DIGITAL RECORDING OF THE ACTUAL MEETING IS AVAILABLE FOR LISTENING IN SCAG'S OFFICE.

The Public Hearing was held at SCAG's office in downtown Los Angeles. The meeting was called to order by Chair, Maria Lopez, SCAG FTIP Manager.

CALL TO ORDER

Maria Lopez, SCAG FTIP Manager, called the Public Hearing to order at 3:01 p.m. Ms. Lopez stated Southern California Association of Governments (SCAG) is currently circulating both the Draft 2015 Federal Transportation Improvement Program (FTIP) and the Draft 2012 RTP/SCS Amendment No. 2 for comments. The Draft 2015 FTIP is a capital listing of all transportation projects proposed in the SCAG region over the next six (6) years and it contains approximately 2, 200 projects programmed at $31.8 billion. In addition, the Draft 2015 FTIP is available for review at 56 libraries throughout the region. Comments will be accepted until 5:00 p.m. July 31, 2014.

Naresh Amatya, SCAG's Transportation Planning Manager, provided an update on the Draft 2012 RTP/SCS Amendment No. 2. Mr. Amatya stated Amendment No. 2 includes six (6) new projects and several changes to existing projects beyond the six (6) year FTIP projects. Comments are also being solicited for the Draft 2012 RTP/SCS Amendment No. 2.

PUBLIC COMMENT PERIOD

Valarie McFall, Transportation Corridor Agencies, stated TCA supports the continued inclusion in the 2015 FTIP of ORA052, SR 241/Foothill Transportation Corridor South. Ms. McFall noted SR 241 functions at no cost to taxpayers and provides relief to Interstate 5, one of the most heavily traveled and congested facilities in the region. Further, the project provides inter-regional mobility and reduces ozone emissions which is needed to meet the federal 1-hour ozone standard by 2022. Because of this it is designated as a Transportation Control Measure (TCM) in the RTP/SCS. Additionally, SR 241 is a tolled facility that reinforces SCAG's regional priced transportation strategy and provides access and congestion relief. It has been assumed and modeled in SCAG's RTP since 1989, and has been designated a TCM since 1991.

Ms. McFall further stated the northern portion of SR 241 has been built in 3 phases since 1993. The next link called the Tesoro Extension will extend SR 241 from Oso Parkway to Cow Camp Road and is needed to meet demand generated by 14,000 homes and 5 million square feet of

commercial development in Rancho Mission Viejo as well as other South County housing and employment growth.

Tomas Oliva – Was asked the ICTC Executive Director to convey the message that he fully supports the 2015 FTIP and hopes that it gets approved.

No other public comments were received at the SCAG downtown office. Ms. Lopez asked if any videoconferencing participants at the regional offices wished to submit a public comment. None were received. Ms. Lopez kept the meeting open and available for any additional public comments.

ADJOURNMENT

Having received no additional public comments Ms. Lopez adjourned the Public Hearing at 3:25 p.m.

社區聽證會通知

2015年聯邦交通改善專案（**FTIP**）草案，
以及**2012-2035**年區域交通規劃/社區可持續發展策略（**RTP/SCS**）第二次修正草案

根據已經通過的2012-2035年區域交通規劃/社區可持續發展策略（RTP/SCS）以及聯邦政府和州政府的相關規定，其中包括21世紀前進法案（MAP-21）和大都會地區規劃的相關規定，南加州政府協會（SCAG）準備了2015年聯邦交通改善專案（FTIP）草案。為了反映新增加或是已改變的重要交通項目，南加州政府協會也準備了2012-2035 RTP/SCS第二次修正草案。

於2014年6月5日，南加州政府協會交通委員會批准向公眾發佈2015年FTIP草案以及2012-2035年RTP/SCS第二次修正草案，並開始為期30天的公眾審閱與評論。公眾審閱與評論將於2014年7月31日結束。 2015年FTIP草案內容包括南加州地區六個縣（帝王縣、洛杉磯縣、橙縣、河濱縣、聖伯納迪諾縣以及凡杜拉縣）的交通計劃項目。2015年FTIP草案包括三個部分：第一部分為概述；第二部分為技術資料參考；第三部分為計劃索引（與2012 RTP/SCS一致）。技術資料參考包括聯邦政府規定的2015年FTIP草案的空氣污染排放物分析。 2012-2035年RTP/SCS第二次修正草案包括上述六個縣的交通計劃的變更，以及包含這些變更計劃的相關文件。

這次的公眾審閱與評論（包括2015年FTIP草案和2012-2035年RTP/SCS第二次修正草案）還列出了2015至2020會計年度間，南加州六縣大都會區域的聯邦交通計劃專案。這些專案均由聯邦大眾運輸總署（FTA）5037專案出資興建。此次公眾參與的流程將完全依照相關規定進行。在公眾參與流程結束並被採納後，2015年FTIP將最終定案。除非本草案有再度修改，最後的通知將不再公佈。2015年FTIP的計劃項目將在第三部分根據其所在的不同縣一一列出。符合條件的都會區域包括：Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* (* 帝王縣境內部分)。

您可以到南加州政府協會網站 www.scag.ca.gov/FTIP 或是 www.scagrtp.net流覽2015年FTIP草案和2012-2035年RTP/SCS第二次修正草案。南加州政府協會也在其洛杉磯總部和其他區域辦公室（帝王縣、橙縣、河邊縣、聖伯納迪諾縣以及凡杜拉縣）備有副本供公眾索取閱讀。南加州政府協會區域議會初步定于2014年9月11日審核通過2015年FTIP最終定案和2012-2035年RTP/SCS第二次修正案。

南加州政府協會將就2015年FTIP草案和2012-2035年RTP/SCS第二次修正草案舉辦兩場聽證會，時間地點如下：

(1) 2014年7月10日星期四上午 10時
南加州政府協會洛杉磯辦公室
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

(2) 2014年7月24日星期四 下午3時
南加州政府協會洛杉磯辦公室

公眾也可以通過視訊會議的方式參與公眾聽證會。欲瞭解視訊會議參與流程及地點請流覽我們的網站www.scag.ca.gov/FTIP 和 www.scagrtp.net。

此次公眾聽證會的目的在於徵詢公眾對於2015年FTIP草案和2012-2035年RTP/SCS第二修正草案的意見和建議，以促成草案進行適當的修改。南加州政府協會鼓勵有意參加公眾和社會群體專先以書面方式提交您的意見，截止日期為2014年7月31日。公眾也可以電郵至gutierre@scag.ca.gov或通過信函方式寄至：

NOTICE OF AVAILABILITY AND PUBLIC HEARINGS

DRAFT 2015 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM (FTIP) AND DRAFT AMENDMENT NO. 2 TO THE 2012–2035 REGIONAL TRANSPORTATION PLAN/SUSTAINABLE COMMUNITIES STRATEGY (RTP/SCS)

The Southern California Association of Governments (SCAG) has prepared the Draft 2015 Federal Transportation Improvement Program (Draft 2015 FTIP) in compliance with the adopted 2012-2035 Regional Transportation Plan/ Sustainable Communities Strategy (2012-2035 RTP/SCS) and all federal and state requirements, including those set forth in the Moving Ahead for Progress in the 21st Century Act (MAP-21) and metropolitan planning regulations. SCAG has also prepared the Draft Amendment No. 2 to the 2012–2035 RTP/SCS to reflect additions or changes to a number of critical transportation projects that are ready to move forward toward the implementation phase.

On June 5, 2014, the SCAG Transportation Committee approved release of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS for a 30-day public review and comment period, which concludes on July 31, 2014. The Draft 2015 FTIP identifies transportation projects in the implementation phase for the six-county SCAG region: Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. The Draft 2015 FTIP consists of three (3) volumes: (I) Executive Summary, (II) Technical Appendix, and (III) Project Listing (consistent with the 2012 RTP/SCS). The Technical Appendix includes the federally required conformity analysis for the Draft 2015 FTIP. The Draft Amendment No. 2 to the 2012–2035 RTP/SCS is comprised of transportation project changes for the same six-county region, and consists of a single document containing the changes.

Included in the public review and public hearings of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are the Federal Program of Projects for Fiscal Years 2015-2020 that are funded with Federal Transit Administration (FTA) Section 5307 funds for all urbanized areas in the SCAG six-county region. This public involvement opportunity meets the public involvement requirements for the Program of Projects. Subsequent to public involvement and adoption, the final 2015 FTIP will function as the final program for the region, unless amended, and a final notice is not published. The projects are listed by each respective county in Volume III of the Draft 2015 FTIP. The applicable urbanized areas are: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* *(*Imperial County Portion)*.

The Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are available for public review on the SCAG website at www.scag.ca.gov/FTIP and www.scagrtp.net. Copies are also available for public review at SCAG's Los Angeles office and regional offices (Imperial, Orange, Riverside, San Bernardino, and Ventura). Copies of the Draft 2015 FTIP can also be found at public libraries throughout the region (library listing is available on the SCAG website). SCAG's Regional Council as the agency's governing board is tentatively scheduled to consider approval of the final 2015 FTIP and Amendment No. 2 to the 2012–2035 RTP/SCS on September 11, 2014.

SCAG will be holding two (2) public hearings regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS on the following dates, times and locations:

(1) Thursday, July 10, 2014 @ 10:00 AM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

(2) Thursday, July 24, 2014 @ 3:00 PM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

One may also participate in the public hearings via video conference from SCAG's regional offices. Please visit our website for the public hearing procedures and video conference locations at www.scag.ca.gov/FTIP or www.scagrtp.net.

The purpose of the hearings is to receive public input and comments regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS, which may be used to facilitate changes where appropriate. SCAG encourages the public and all interested parties to submit written comments and/or written information at the public hearings and no later than the close of the public comment period. Written comments will be accepted until 5:00 PM on July 31, 2014 and may be submitted electronically to gutierre@scag.ca.gov, or by U.S. mail as follows:

ANUNCIO DE LA DISPONIBILIDAD Y DE LAS AUDIENCIAS PÚBLICAS

PARA LOS DOCUMENTOS PRELIMINARES DEL PROGRAMA DE MEJORAMIENTO DEL TRANSPORTE FEDERAL 2015 (FTIP, SEGÚN SUS SIGLAS EN INGLÉS) – DRAFT 2015 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM (FTIP) Y LA ENMIENDA No. 2 AL PLAN DE TRANSPORTE REGIONAL/ESTRATEGIA PARA COMUNIDADES SOSTENIBLES 2012-2035 (RTP/SCS 2012-2035)

La Asociación de Gobiernos del Sur de California (SCAG) ha preparado el Borrador del Programa de Mejoramiento del Transporte Federal 2015 (FTIP 2015) en conformidad con el Plan de Transporte Regional/Estrategia para Comunidades Sostenibles 2012-2035 (RTP/SCS 2012-2035) del SCAG y según los requisitos aplicables de las leyes federales y estatales, incluyendo ésos dispuestos en la ley de Avanzando para el Progreso en el siglo 21 (mejor conocida como MAP-21, según sus siglas en inglés) y con las regulaciones de planificación metropolitano.

El 5 de junio del 2014, el comité de transporte de SCAG aprobó la distribución del Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2035 por un período de treinta (30) días de revisión y comentario público el cual se concluye el 31 de julio del 2014. El Borrador del FTIP 2015 contiene los proyectos de transporte para los siguientes seis condados dentro de la región de SCAG: Imperial, Los Angeles, Orange, Riverside, San Bernardino, y Ventura. El Borrador del FTIP 2015 cuenta con tres (3) volúmenes, (I) resumen ejecutivo, (II) apéndice técnico, y (III) lista de proyectos (consistente con el RTP/SCS 2012-2035). El apéndice técnico incluye el análisis de la conformidad para el FTIP 2015 el cual es requerido según la ley federal. La Enmienda No. 2 al RTP/SCS 2012-2035 consiste de un solo documento que contiene cambios a proyectos de transporte dentro de la región de SCAG.

Incluido en la revisión pública y las audiencias públicas del Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015 el Programa Federal de Proyectos para los años 2015-2020 que enumera los proyectos de transporte que han sido propuestos para la programación y que recibirán fondos federales de la sección 5307 de la administración de tránsito (FTA) para todas las áreas urbanizadas en la región cual cubre los seis condados de SCAG. Esta oportunidad de participación pública cumple con los requisitos de participación pública para el Programa Federal de Proyectos. Con posterioridad a la participación pública y la adopción, el 2015 FTIP Final funcionará como el programa final para la región, solamente que se modifique, y un aviso final no este publicado.

Los proyectos están enlistados por condado respectivo en el volumen III del borrador del FTIP 2015. Las áreas urbanas son: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville – Hesperia, Yuma AZ – CA* *(*Porción del condado de Imperial).*

El borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015 están disponibles en la página de Internet de SCAG - www.scag.ca.gov/FTIP y www.scagrtp.net. Copias también están disponibles para ser revisadas en las oficinas regionales de SCAG (Imperial, Orange, Riverside, San Bernardino, y Ventura) y en algunas bibliotecas públicas por toda la región (la lista de las bibliotecas esta disponible en la pagina de Internet de SCAG). La junta gobernante de SCAG, conocida como el Concilio Regional, esta tentativamente programada para considerar la aprobación del Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015 el 11 de septiembre del 2014.

SCAG tiene programada dos (2) audiencias públicas para recibir testimonio público sobre el Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015. Las audiencias están programadas para el:

(1) Jueves, 10 de julio del 2014 a las 10:00am
Oficina de SCAG en Los Angeles
818 West Seventh Street, Piso No. 12
Los Angeles, CA 90017

(2) Jueves, 24 de julio del 2014 a las 3:00pm
Oficina de SCAG en Los Angeles
818 West Seventh Street, Piso No. 12
Los Angeles, CA 90017

Las audiencias públicas también estarán disponibles por medio de conferencia de video en las oficinas regionales de SCAG. Favor de visitar nuestra página de Internet para localidades que ofrecerán las audiencias publicas en video de conferencia. www.scag.ca.gov/FTIP

El propósito de estas audiencias públicas son para invitar a las personas interesadas a hacer comentarios con respecto al Borrador del FTIP 2015 y la Enmienda No. 2 al RTP/SCS 2012-2015, el cual puede ser utilizado para facilitar cambios al plan cuando sea apropiado. SCAG les pide a las personas interesadas que envíen comentarios por escrito o por correo electrónico antes de las 5 de la tarde el 31 de julio del 2014. Los comentarios por correo electrónico pueden ser enviados a gutierre@scag.ca.gov, o por correo a:

NOTICE OF AVAILABILITY AND PUBLIC HEARINGS

Draft 2015 Federal Transportation Improvement Program (FTIP) and Draft Amendment No. 2 to the 2012–2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS)

The Southern California Association of Governments (SCAG) has prepared the Draft 2015 Federal Transportation Improvement Program (Draft 2015 FTIP) in compliance with the adopted 2012-2035 Regional Transportation Plan/ Sustainable Communities Strategy (2012-2035 RTP/SCS) and all federal and state requirements, including those set forth in the Moving Ahead for Progress in the 21st Century Act (MAP-21) and metropolitan planning regulations. SCAG has also prepared the Draft Amendment No. 2 to the 2012–2035 RTP/SCS to reflect additions or changes to a number of critical transportation projects that are ready to move forward toward the implementation phase.

On June 5, 2014, the SCAG Transportation Committee approved release of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS for a 30-day public review and comment period, which concludes on July 31, 2014. The Draft 2015 FTIP identifies transportation projects in the implementation phase for the six-county SCAG region: Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. The Draft 2015 FTIP consists of three (3) volumes: (I) Executive Summary, (II) Technical Appendix, and (III) Project Listing (consistent with the 2012 RTP/SCS). The Technical Appendix includes the federally required conformity analysis for the Draft 2015 FTIP. The Draft Amendment No. 2 to the 2012–2035 RTP/SCS is comprised of transportation project changes for the same six-county region, and consists of a single document containing the changes.

Included in the public review and public hearings of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are the Federal Program of Projects for Fiscal Years 2015-2020 that are funded with Federal Transit Administration (FTA) Section 5307 funds for all urbanized areas in the SCAG six-county region. This public involvement opportunity meets the public involvement requirements for the Program of Projects. Subsequent to public involvement and adoption, the final 2015 FTIP will function as the final program for the region, unless amended, and a final notice is not published. The projects are listed by each respective county in Volume III of the Draft 2015 FTIP. The applicable urbanized areas are: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* *(*Imperial County Portion)*.

The Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are available for public review on the SCAG website at www.scag.ca.gov/FTIP and www.scagrtp.net. Copies are also available for public review at SCAG's Los Angeles office and regional offices (Imperial, Orange, Riverside, San Bernardino, and Ventura). Copies of the Draft 2015 FTIP can also be found at public libraries throughout the region (library listing is available on the SCAG website). SCAG's Regional Council as the agency's governing board is tentatively scheduled to consider approval of the final 2015 FTIP and Amendment No. 2 to the 2012–2035 RTP/SCS on September 11, 2014.

SCAG will be holding two (2) public hearings regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS on the following dates, times and locations:

(1) Thursday, July 10, 2014 @ 10:00 AM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

(2) Thursday, July 24, 2014 @ 3:00 PM
SCAG Los Angeles Office
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

One may also participate in the public hearings via video conference from SCAG's regional offices. Please visit our website for the public hearing procedures and video conference locations at www.scag.ca.gov/FTIP or www.scagrtp.net.

The purpose of the hearings is to receive public input and comments regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS, which may be used to facilitate changes where appropriate. SCAG encourages the public and all interested parties to submit written comments and/or written information at the public hearings and no later than the close of the public comment period. Written comments will be accepted until 5:00 PM on July 31, 2014 and may be submitted electronically to gutierre@scag.ca.gov, or by U.S. mail as follows:

NOTICE OF AVAILABILITY AND PUBLIC HEARINGS

Draft 2015 Federal Transportation Improvement Program (FTIP) and Draft Amendment No. 2 to the 2012–2035 Regional Transportation Plan/ Sustainable Communities Strategy (RTP/SCS)

The Southern California Association of Governments (SCAG) has prepared the Draft 2015 Federal Transportation Improvement Program (Draft 2015 FTIP) in compliance with the adopted 2012-2035 Regional Transportation Plan/Sustainable Communities Strategy (2012-2035 RTP/SCS) and all federal and state requirements, including those set forth in the Moving Ahead for Progress in the 21st Century Act (MAP-21) and metropolitan planning regulations. SCAG has also prepared the Draft Amendment No. 2 to the 2012–2035 RTP/SCS to reflect additions or changes to a number of critical transportation projects that are ready to move forward toward the implementation phase.

On June 5, 2014, the SCAG Transportation Committee approved release of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS for a 30-day public review and comment period, which concludes on July 31, 2014. The Draft 2015 FTIP identifies transportation projects in the implementation phase for the six-county SCAG region: Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura. The Draft 2015 FTIP consists of three (3) volumes: (I) Executive Summary, (II) Technical Appendix, and (III) Project Listing (consistent with the 2012 RTP/SCS). The Technical Appendix includes the federally required conformity analysis for the Draft 2015 FTIP. The Draft Amendment No. 2 to the 2012–2035 RTP/SCS is comprised of transportation project changes for the same six-county region, and consists of a single document containing the changes.

Included in the public review and public hearings of the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are the Federal Program of Projects for Fiscal Years 2015-2020 that are funded with Federal Transit Administration (FTA) Section 5307 funds for all urbanized areas in the SCAG six-county region. This public involvement opportunity meets the public involvement requirements for the Program of Projects. Subsequent to public involvement and adoption, the final 2015 FTIP will function as the final program for the region, unless amended, and a final notice is not published. The projects are listed by each respective county in Volume III of the Draft 2015 FTIP. The applicable urbanized areas are: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, and Yuma AZ – CA* *(*Imperial County Portion)*.

The Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS are available for public review on the SCAG website at www.scag.ca.gov/FTIP and www.scagrtp.net. Copies are also available for public review at SCAG's Los Angeles office and regional offices (Imperial, Orange, Riverside, San Bernardino, and Ventura). Copies of the Draft 2015 FTIP can also be found at public libraries throughout the region (library listing is available on the SCAG website). SCAG's Regional Council as the agency's governing board is tentatively scheduled to consider approval of the final 2015 FTIP and Amendment No. 2 to the 2012–2035 RTP/SCS on September 11, 2014.

SCAG will be holding two (2) public hearings regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS on the following dates, times and locations:

(1)Thursday, July 10, 2014
@ 10:00 AM
SCAG Los Angeles Office

Hiệp Hội Các Chính Phủ Nam California (SCAG) đã chuẩn bị Bản Phác Thảo Chương Trình Cải Tiến Giao Thông Liên Bang 2015 (Bản Phác Thảo 2015 FTIP) theo đúng với Kế Hoạch Giao Thông Khu Vực/Chiến Lược Các Cộng Đồng Không Ảnh Hưởng Tới Môi Trường 2012–2035 (2012–2035 RTP/SCS) đã được thông qua và phù hợp với mọi đòi hỏi của liên bang và tiểu bang, bao gồm cả những điều được định ra trong Đạo Luật Bước Tới để Tiến Bộ trong Thế Kỷ 21 (MAP-21) và các qui chế về qui hoạch đô thị. SCAG cũng đã chuẩn bị Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS để phản ánh những điều thêm vào hay thay đổi đối với một số những kế hoạch giao thông quan trọng hiện đã sẵn sàng để tiến vào giai đoạn thực hiện.

Vào ngày 5 Tháng Sáu 2014, Ủy Ban Giao Thông của SCAG đã chấp thuận cho phổ biến Bản Phác Thảo 2015 FTIP và Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS để công chúng xem xét và bình phẩn trong một thời hạn 30 ngày, chấm dứt vào ngày 31 Tháng Bảy 2014. Bản Phác Thảo 2015 FTIP bao gồm những kế hoạch giao thông cho khu vực SCAG sáu quận-hạt: Imperial, Los Angeles, Orange, Riverside, San Bernardino, và Ventura. Nội dung Bản Phác Thảo 2015 FTIP gồm có ba (3) tập: (I) Tóm Lược Điều Hành, (II) Phụ Bản Kỹ Thuật, và (III) Liệt Kê Kế Hoạch (nhất quán với Kế Hoạch 2012 RTP/SCS). Nội dung Phụ Bản Kỹ Thuật là phần phân tích tỉnh tuân thủ của Bản Phác Thảo 2015 FTIP do liên bang đòi hỏi. Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS gồm những thay đổi kế hoạch giao thông cho cùng khu vực sáu quận-hạt này, và chỉ có một tài liệu duy nhất chứa đựng những thay đổi.

Bao gồm trong việc công chúng xem xét và điều trần cho công chúng đối với Bản Phác Thảo 2015 FTIP và Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS là Chương Trình các Kế Hoạch Liên Bang những Năm Tài Chính 2015-2020 được tài trợ với ngân quỹ Liên Bang Federal Transit Administration (FTA) Section 5307 cho mọi khu đô thị hóa của khu vực SCAG sáu quận-hạt. Cơ hội để công chúng tham dự này đáp ứng những đòi hỏi phải được công chúng tham dự đối với Chương Trình các Kế Hoạch. Sau khi đã được công chúng tham dự và chấp thuận, Chương Trình 2015 FTIP chung cuộc sẽ hoạt động như chương trình chung cuộc cho khu vực, trừ khi bị tu chỉnh, và một thông báo chung cuộc sẽ không được công bố. Các kế hoạch được liệt kê bởi các quận-hạt thứ tự ghi trong Tập III của Bản Phác Thảo 2015 FTIP. Những khu đô thị hóa liên quan là: Camarillo, El Centro–Calexico, Hemet, Indio–Cathedral City, Lancaster–Palmdale, Los Angeles–Long Beach–Anaheim, Mission Viejo–Lake Forest–San Clemente, Murrieta–Temecula–Menifee, Oxnard, Riverside–San Bernardino, Santa Clarita, Simi Valley, Thousand Oaks, Victorville–Hesperia, và Yuma AZ – CA* (*Phần Quận-Hạt Imperial).

Bản Phác Thảo 2015 FTIP và Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS hiện đang có để công chúng xem xét tại trang mạng SCAG www.scag.ca.gov/FTIP và www.scagrtp.net. Cũng còn có các ấn bản cho công chúng xem xét tại văn phòng SCAG Los Angeles và những văn phòng địa phương (Imperial, Orange, Riverside, San Bernardino, và Ventura). Cũng còn có thể tìm thấy các ấn bản Bản Phác Thảo 2015 FTIP tại những thư viện công cộng trong toàn khu vực (danh sách thư viện có tại trang mạng SCAG). Hội Đồng Khu Vực của SCAG, với thẩm quyền là hội đồng điều hành của cơ quan, dự tính xem xét chuẩn thuận bản chung cuộc của Chương Trình 2015 FTIP và Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS vào ngày 11 Tháng Chín 2014.

SCAG sẽ tổ chức hai (2) buổi điều trần cho công chúng về Bản Phác Thảo 2015 FTIP và Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS vào những ngày giờ và tại những địa điểm sau:

(1) Thứ Năm 10 Tháng Bảy 2014 @ 10:00 AM
Văn Phòng SCAG Los Angeles
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

(2) Thứ Năm 24 Tháng Bảy 2014 @ 3:00 PM
Văn Phòng SCAG Los Angeles
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017

Mọi người cũng còn có thể tham dự những cuộc điều trần cho công chúng dưới hình thức hội thảo qua truyền hình từ các văn phòng SCAG địa phương. Xin vui lòng vào thăm trang mạng của chúng tôi để biết về những quy trình điều trần cho công chúng và những địa điểm hội thảo qua truyền hình tại www.scag.ca.gov/FTIP hay www.scagrtp.net.

Mục đích của những cuộc điều trần là đón nhận ý kiến và bình phẩn của công chúng đối với Bản Phác Thảo 2015 FTIP và Bản Phác Thảo Tu Chỉnh Số 2 cho 2012–2035 RTP/SCS; những ý kiến và bình phẩn này có thể được sử dụng để tạo thuận lợi cho những thay đổi nào thích hợp. SCAG khuyến khích công chúng và những bên có quan tâm nạp những bình phẩn viết thành văn và/hoặc những thông tin viết thành văn tại những buổi điều trần cho công chúng, không trễ hơn lúc giai đoạn bình phẩn của công chúng kết thúc. Hạn chót để nhận những bình phẩn viết thành văn là 5:00 PM ngày 31 Tháng Bảy 2014 và có thể gửi nạp theo lối điện tử tới gutierre@scag.ca.gov, hay qua đường bưu điện Hoa Kỳ tới địa chỉ:

Subject: Draft 2015 Federal Transportation Improvement Program (FTIP) and Draft Amendment No. 2 to the 2012–2035 Regional Transportation Plan/ Sustainable Communities Strategy (RTP/SCS)

The *Draft 2015 Federal Transportation Improvement Program (FTIP)* and *Draft Amendment No. 2 to the 2012–2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS)* are ready for your review and comment. The Draft FTIP is comprised of the following reports: The *Draft Executive Summary, Volume I,* the *Draft Technical Appendix Volume II,* and the *Draft List of Projects Volume III*. The *Draft List of Projects* includes a breakdown by county of projects for state highways, local highways, and transit projects. The Draft 2015 FTIP implements projects for fiscal years 2014/15-2019/20. The *Draft Technical Appendix* includes the federally required conformity analysis and findings for the SCAG region. The Draft Amendment No. 2 to the 2012–2035 RTP/SCS includes changes to projects beyond the scope of the FTIP.

The Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS can be accessed on SCAG's webpage (http://scag.ca.gov/FTIP and http://rtpscs.scag.ca.gov) starting on July 1, 2014. The review period for the Draft documents will conclude on July 31, 2014. Copies of the *Draft 2015 FTIP* documents are also available for review at the SCAG office and electronic copies (CD's) at various public libraries throughout the region. Please see SCAG's website for the list of libraries.

SCAG will hold two (2) public hearings regarding the Draft 2015 FTIP and Draft Amendment No. 2 to the 2012–2035 RTP/SCS on the following dates, times, and locations:

(1) Thursday, July 10, 2014 @ 10:00 a.m.
SCAG Los Angeles Office

FTIP 15-1	10-Jul-14	Dan Silver	Endangered Habitats League	Public comment (Public Hearing 07-10-14): Dan Silver, Endangered Habitats League, stated he represents a coalition which strenuously objects to the inclusion of the proposed SR 241 Toll Road extension as part of the Draft 2015 FTIP. Mr. Silver stated the SR 241 extension would bisect San Onofre State Beach and has other flaws. Mr. Silver further noted the Tesoro Extension is a prelude to a larger segment intended to reach Interstate 5 which would not provide the Traffic Demand Management benefits (TDM)* claimed by its sponsor, the Transportation Corridor Agencies. Mr. Silver stated the TCA argues SCAG should accept the completed SR 241 as a TDM project although the project was denied by the California Coastal Commission and the United States Department of Commerce upheld that decision. Mr. Silver states the project will fail to provide its intended benefits if there is not a realistic process by which it can be extended to Interstate 5. Mr. Silver asked to show the line on the map that represents the project with the supposed benefits. An ill define stake holders process is not enough. Mr. Silver stated that if this particular measure is challenged, it could void the entire FTIP and if it's a risk SCAG is willing to take?	*Staff clarified with Mr. Silver that the term "Transportation Control Measure" (TCM) was intended rather than "Traffic Demand Management"(TDM) The FTIP is developed through a "bottom-up" approach; the project was submitted to SCAG by OCTA as part of their county TIP. The project is also part of OCTA's long range plan as submitted by TCA and is part of SCAG's 2012 RTP/SCS. The TCM designation of a given project does not dictate whether or not the project is included in the RTP/SCS or FTIP. It should be noted that the TCM portion of the SR-241 extension project is the approximately 11 mile portion within the SCAG region and the South Coast Air Basin. The approximately 5 mile portion of the SR-241 project in the San Diego region (and included in SANDAG's FTIP and RTP/SCS) is not a TCM per the Clean Air Act. It should be further noted that the decision of the Coastal Commission does not impact the TCM portion of the SR-241 extension because the Coastal Commission's jurisdiction lies solely within the San Diego region.	10-Jul-14

FTIP 15-2	11-Jul-14	Dan Wentzel	Private Citizen	I believe SCAG should be working on establishing daily passenger rail between Los Angeles and the Coachella Valley with service in the morning and early evening. If that means using regulation to force the freights to share the railways, if that means building new tracks, if that means upgrading existing stations, then I would like to see that in the FTIP if possible. Thank you. Dan Wentzel	In the SCAG region, projects are submitted for inclusion in the RTP/SCS by a sponsoring local lead agency. To date, no passenger rail service between Los Angeles and the Coachella Valley has been submitted for inclusion in the RTP/SCS or FTIP. Currently, the Riverside County Transportation Commission is studying rail service to the Coachella Valley and Pass Area (see http://www/rctc.org/planning/rail/coachella-valley-rail-service). SCAG continues to support the extension of passenger rail service throughout the region, and would consider the inclusion of this project at the appropriate time in the future.	14-Jul-14
FTIP 15-3	21-Jul-14	Abhijit J. Bagde	CALTRANS, HQ	Thank you very much for providing us an opportunity to review SCAG's Draft 2015 FTIP. My compliments to you and your staff for preparing an excellent document. Please include response to the comments below when submitting final 2015 FTIP to Caltrans. Let me know of any questions. Thank you. General comments: 1. Expedited Project Selection Procedures (EPSP), Technical Appendix, Volume II of III, Section iv, Attachment E: Below are suggested edits: a. SCAG and Caltrans agree that the Caltrans' State Highway Operation Protection Program (SHOPP) Program Manager may advance or delay projects programmed in the adopted SHOPP project schedule upon notifying SCAG. b. The Caltrans Division of Local Assistance has implemented a project selection process for the Highway Maintenance (HM) Active Transportation Program (ATP), Highway Safety Improvement Program (HSIP), Highway-Railroad Grade Separation Program, the Highway Bridge Program (HBP), and	EPSP language in Technical Appendix will be updated to reflect agreed procedure for SHOPP, HM, ATP, HSIP, HBP, and HRRR/HR3. Projects funded through the programs listed may be advanced within the four-year element of the FTIP by authorized Program Managers without amending the FTIP, upon notification to SCAG.	21-Jul-14

				6. Transportation Enhancement (TE) funds in the amount of $426K are programmed in the FY 2014/15. With the passage of Moving Ahead for Progress in the 21st Century Act (MAP-21), Congress eliminated the Transportation Enhancement (TE) Program and, established the Transportation Alternatives Program (TAP). Existing TE projects may remain in the 2015 FSTIP provided they are eligible for State Highway Account or Federal funds in lieu of TE funds.	TE funds will be removed from FY 2014/15 and beyond in amendment 15-01	
				7. Federal Transit: 5310 Program funding is awarded by CTC on an annual basis. Explain the basis of revenue/programming for the 4-year cycle of the 2015 FTIP. Also project list for FY 2014/15 has not been selected by CTC yet.	5310 funds will be removed from FY14/15 and beyond. 5310 funded projects will be amended into FTIP when selected.	
				Project Listings:		
				3. LALS03, LAF5609, 0P240: See comment no. 6 regarding TE funding under Financial Summary above.	TE funds will be removed from FY 2014/15 and beyond in amendment 15-01

FTIP 15-4	24-Jul-14	Valarie McFall	Transportation Corridor Agencies	Public comment (Public Hearing 07-24-14): Valarie McFall, Transportation Corridor Agencies, read the following letter: Hasan Ikhrata Southern California Association of Governments 818 West Seventh Street, 12th Floor Los Angeles, CA Subject: 2015 FTIP Comments Dear Mr. Ikhrata: The Foothill/Eastern Transportation Corridor Agency (TCA) is pleased to comment on the Draft 2015 FTIP, now open for public comment. This letter supports the continued inclusion in the FTIP of ORA052, SR 241/Foothill Transportation Corridor South, and clarifies several misperceptions of the project that were entered into the record at the July 10, 2014, public hearing. • ORA 052/SR 241 performs important regional functions at no cost to taxpayers. The project provides relief to Interstate 5, which is one of the most heavily traveled and congested facilities within the SCAG region. The project provides inter-regional mobility and enhances transportation security between the SCAG and SANDAG regions. SR 241 reduces ozone emissions that are needed to meet the federal 1-hour ozone standard by 2022, and because of that it is designated as a Transportation Control Measure (TCM) in the RTP/SCS and AQMP. The project reduces GHG emissions on the regional transportation network, and is incorporated into the region's RTP/SCS. SR 241 is a tolled facility that reinforces SCAG's regional priced transportation strategy, and provides access, congestion relief and emission reductions at no cost to the taxpayer. ORA 052/SR 241 has been assumed and modeled in SCAG's RTP since 1989, and has been designated a TCM since 1991. • SR 241 is needed now to provide local mobility and	We appreciate the information provided regarding ORA052/ SR 241 project. ***See also response to comment ID FTIP 15-1***	24-Jul-14

				congestion relief in South Orange County. The northern portion of SR 241 has been built in 3 phases since 1993. The next link in the project, called the Tesoro Extension, will extend SR 241 from Oso Parkway to Cow Camp Road. Advancing major freeway projects in multiple, stand-alone, independent phases as funds become available are the norm within the SCAG region. The environmental document that is being prepared pursuant to NEPA, will document that the Tesoro Extension has independent utility and provides traffic relief for local arterials and Interstate 5. The Tesoro Extension is needed without further delay to meet demand generated by 14,000 homes and 5 million square feet of commercial development in Rancho Mission Viejo, plus additional demand from other South County housing and employment growth. In fact, if SR 241 were not built, an alternative project would eventually have to be added to the FTIP and RTP- but without the regional congestion relief, air pollutant and greenhouse gas benefits, extensive mitigations and taxpayer relief provided by SR 241. • SR 241 is designated a Transportation Control Measure (TCM). Ozone reductions from the SR 241 TCM are still needed to reach attainment by 2022. SR 241 has been designated a TCM since the 1991 AQMP because its pricing policy lowers congestion that leads to increased ozone emissions. USEPA has published in the Federal Register its intent to approve a new 1-hour Ozone Standard attainment date of September 31, 2022, for the South Coast Air Basin. The proposal is scheduled to be finalized by August 13, 2014. EPA's proposed action underscores that ozone-reducing TCMs, including SR 241, are still necessary to meet regional air quality requirements. This development supports SCAG's decision to retain SR 241's TCM designation in the 2015 FTIP, and TCA's efforts to construct the Tesoro Extension as soon as possible. • Completion of SR 241 has been delayed from its original 2010 opening date. The project has encountered obstacles in obtaining Coastal Commission approval for its connection with Interstate 5 within San Diego County. Per the Secretary of Commerce's 2008 decision to uphold the Coastal Commission's denial, TCA is working with stakeholders to define a path for the southernmost portion of the alignment through Camp Pendleton, connecting with Interstate 5.

				However, within the SCAG region, the Tesoro Extension, and any future extension south of Cow Camp Road, do not require a Coastal Commission permit. Because federal conformity regulations require the SR 241 TCM to be completed as expeditiously as possible, TCA is doing everything within its authority to secure permits/approvals for the Tesoro Extension. Concurrently, TCA is working with environmental organizations opposed to the project to identify viable options for the final five miles of SR 241 (south of Cow Camp Road) within the SCAG region. • SR 241 is making steady progress toward construction and meets all federal transportation conformity regulatory requirements. SR 241 has made continuous and substantial progress toward construction since the 2013 FTIP was federally approved. Only two more regulatory approvals (a State Water Resources Control Board waste discharge requirements permit and a biological opinion from the U.S. Fish and Wildlife Service) are needed for the Tesoro Extension. In addition, numerous required technical studies have already been approved. Most recently, an option agreement between TCA and Rancho Mission Viejo on right of way acquisition for SR 241 was approved in June 2014. • SR 241 is financially constrained, with no taxpayer subsidy. TCA's December 2013 refinancing for SR 241 enhances the project's fiscal constraint, as assured by TCA's adopted FY2015 Capital Improvement Program. The CIP clearly identifies and programs funds sufficient to construct the Tesoro Extension, as well as provide funding to continue working with stakeholders to identify viable solutions for the final five miles within the SCAG region. In addition, TCA has reached a Cooperative Agreement with Caltrans that allows TCA to toll SR241 south of Oso Parkway through 2040, with future extensions to be negotiated between TCA and the State. TCA's three decades of expertise in constructing toll roads with efficient design/build techniques further enhances its fiscal constraint. • SR 241 is an integral part of the 2015 FTIP. Working with our partners at Caltrans, TCA is committed to completion of the 61-mile toll road system within the SCAG region in an environmentally responsible and expeditious manner. We are committed to advancing the Tesoro Extension at the earliest

				feasible date to provide congestion relief to the regionally significant I-5 corridor, and to deliver needed congestion relief to South Orange County residents and employees. TCA will be pleased to respond to any questions that FHWA and SCAG staff and leadership may have during the 2015 FTIP process. As a supplement to this testimony, we have submitted detailed documentation to SCAG of SR 241 's continuous progress toward opening since the last FTIP adoption, to establish that the project is undertaking all actions required to "overcome obstacles" to permits/approvals as required by federal transportation conformity regulations. With this plan, Southern California has made some impressive strides in this direction, such as: • Reduces overall traffic congestion and allows residents to spend less time in their cars • Triples spending on bike and pedestrian projects and increases transit investments by 13% • Meets the projected economic market demand by planning for a diversity of housing types, including a more adequate number of small-lot single family homes and dwellings in mixed- use, walkable neighborhoods • Saves 400 square miles of open space and mitigates habitat loss via planning for more cost- effective future environmental mitigation With these visionary policies in place, we were excited to review the projects that use the policies listed above to create more sustainable communities. However, it was not clear in the draft 2015 FTIP how the selected projects furthered the goals, policies, and performances measures of the 2012 – 2035 RTP/SCS. In the spirit of collaboration, we would like to provide you with comments to ensure the connection between the 2012 RTP/SCS and 2015 FTIP is clear. The FTIP allocates federal funds over the course of four years to implement the RTP. The FTIP is also required to be consistent with the RTP. Section I of the draft FTIP states, "SCAG's 2015 FTIP (project listing) is consistent with the 2012 – 2035 RTP/SCS as amended (policies, programs, and projects). While we applaud the consistency between the FTIP and RTIP, we believe the FTIP should also be utilized to showcase the connection between selected projects and their role to implement the goals, policies, and performance measures of the 2012 – 2035 RTP/SCS. For better connection between the 2015 FTIP and 2012 – 2035 RTP/SCS, we ask that Section I be expanded to clearly show how the transportation investments in the FTIP meet the goals, policies and performance measures in the 2012 RTP/SCS and SB375. For example, providing a deeper analysis of projects consistency with the RTP/SCS that asks questions such	It is noted that the US Department of Transportation (USDOT) is currently moving forward with the rulemaking process to implement the provisions of the Moving Ahead for Progress in the 21st Century Act (MAP-21) relative to performance measures and reporting. At this point, specific measures, targets, and the type of information regarding performance that will eventually be required to be included in future FTIPs have not been identified. SCAG is monitoring and participating in these processes, and will continue to work with our stakeholders on this important topic.

				as: • How will the projects in the FTIP reduce VMT per capita? • How will projects in the FTIP reduce the number of bicycle and pedestrian injuries and fatalities? • How will projects in the FTIP increase transit investments? • How will projects in the FTIP be assessed to determine whether or not projects have growth inducing impacts for existing communities, in particular vulnerable and low income communities? • How many projects in the FTIP will directly benefit disadvantaged communities? • How will projects in the FTIP promote a jobs-housing fit? • How will projects in the FTIP improve investment opportunities for transit and Active Transportation projects that benefit low income, especially rural, communities? • How will projects in the FTIP protect open space and agricultural lands? • How will projects in the FTIP promote public health? Inserting this analysis in the FTIP will highlight projects that align with the 2012 – 2035 RTP/SCS while eliminating projects that do not promote the goals of the RTP. This analysis will also elevate SCAG's position as model for other regions to make a stronger connection between the FTIP and RTP/SCS. As organizations invested in a sustainable Southern California, we recognize and thank SCAG for the enormous progress that Southern California has made in recent years. This is a large and diverse region that has long lacked a transit system with regional reach. By including the analysis listed in this letter, the FTIP will build upon the visionary regional plan to further commit Southern California to the path of reduced greenhouse gas emissions, increased transit and bike options, and

Please consider the following comments: 2015 FTIP 1) Section III: Project VEN040502 status comment "replacement with VEN040502" is not clear. It states that the project was replaced by another project with the same project I.D. number. 2) Section III: The 2015 FTIP project completion date is not entered for VEN110308. 3) Section III: Project VEN93017 status states completion date is the same as the 2013 FTIP Transportation Control Measures (TCM) report, however, the table shows a different completion date for the 2015 FTIP. 4) Local Highway Project Listings: Project VEN130103 is marked as a TCM, but is constructing a Class III bike lane which	1) VEN040502 will be replaced with a different TCM project. 				is not a TCM according to 2015 FTIP guidelines. RTP Amendment #2 1) RTP modeled projects list: The following projects appear to be TCMs that should be subject to timely implementation, but are not listed in the timely implementation tables: VEN071104 Bike Lanes 1.3 miles, VEN34089 Sidewalks .6 mile, VEN110112 Sidewalks .4 mile. The 2015 FTIP guidelines state that bike lanes 1 mile or greater and sidewalks ¼ mile or greater are TCMs. 2) RTP modeled projects list: Project VEN070201 includes HOV lanes; however, this project does not appear on the timely implementation report. This project appears to be a TCM.	Staff Note: Comment regarding RTP Amendment #2 pertains to the FTIP (see response below) 1) Per Final 2015 FTIP Guidelines, VEN071104 is a non-reportable TCM because the bike lane is only 0.9 mile; VEN34089 is not a TCM because the sidewalk is replacement only; VEN110112 is a committed TCM and is scheduled to be completed by August 31, 2014 – the TCM project has been added to the TCM Timely Implementation Report. 2) VEN070201 is a committed TCM – the TCM project has been added to the TCM Timely Implementation Report.	
FTIP 15-8	31-Jul-14	Michael Morris Jr.	Federal Highway Administration Cal-South	Thank you for the opportunity to review and comment on the Southern California Association of Government's (SCAG) Draft 2015 Federal Transportation Improvement Program (FTIP). After the Federal Highway Administration's (FHWA) review of SCAG's Draft 2015 FTIP, the document's content was inclusive and comprehensive of federal regulatory transportation improvement program requirements as referenced in 23 Code of Federal Regulations (CFR) § 450.324. In summary, SCAG's FTIP was developed in partnership with the six County Transportation Commissions (CTCs) of Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura – as well as with California Department of Transportation's (Caltrans) Districts 7, 8, 11, and 12. All project listings identify specific funding sources and fund amounts, and are prioritized to implement the region's overall strategy for providing mobility, improved efficiency, and enhanced safety in support of efforts to attain federal and state air quality standards in reduction of transportation related air pollution. FTIP projects include capital and non-capital highway improvements, transit, rail and bus facilities, high occupancy vehicle (HOV) lanes,	Comment Noted.	31-Jul-14

				signal synchronization, intersection improvements, freeway ramps, and non-motorized projects. Along with this instance to offer FHWA comments, SCAG provided all interested parties – including the public – with a chance to do the same via a 30-day public comment period. SCAG's FTIP also wholly documents regionally significant projects, sufficiently details descriptions for all projects, and delineates an adequate financial plan. SCAG's FTIP covers a period of at least four years and is consistent with the 2012/2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS). We are pleased with SCAG's resulting Draft 2015 FTIP document, and recommend SCAG to move forward with developing the Final 2015 FTIP product. If any questions ensue from FHWA's comments, or if SCAG would require assistance with development of the final outcome, please feel free to contact me. Thanks!		
FTIP 15-09	31-Jul-14	Joyce Dillard	Private Citizen	State requires General Plan and Elements to be executed which includes the CIRCULATION ELEMENT. Government Code Section 65302 reads: (b) (1) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, any military airports and ports, and other local public utilities and facilities, all correlated with the land use element of the plan. (2) (A) Commencing January 1, 2011, upon any substantive revision of the circulation element, the legislative body shall modify the circulation element to plan for a balanced, multimodal transportation network that meets the needs of all users of streets, roads, and highways for safe and convenient travel in a manner that is suitable to the rural, suburban, or urban context of the general plan. (B) For purposes of this paragraph, "users of streets, roads, and highways" mean bicyclists, children, persons with disabilities, motorists, movers of commercial goods, pedestrians, users of public transportation, and seniors. 				in 2014 with a focus on Economics, Equity, Climate Change and Healthy Communities with an Online Mapping Tool to provide planners with customizable city maps with access to State GIS Geographic Information System data for each element. Guidelines state: Consistency Within Elements Each element's data, analyses, goals, policies, and implementation programs must be consistent with and complement one another. Established goals, data, and analysis form the foundation for any ensuing policies. For example, if one portion of a circulation element indicates that county roads are sufficient to accommodate the projected level of traffic while another section of the same element describes a worsening traffic situation aggravated by continued subdivision activity, the element is not internally consistent (Concerned Citizens of Calaveras County v. Board of Supervisors (1985) 166 Cal.App.3d 90). And In addition, preparing, adopting, implementing, and maintaining the general plan serves to: • Identify the community's land use, circulation, environmental, economic, and social goals and policies as they relate to land use and development And The plan's text and diagrams must be reconciled, because "internal consistency requires that general plan diagrams of land use, circulation systems, open-space and natural resources areas reflect written policies and programs in the text for each element." (Curtin's California Land-Use and Planning Law, 1998 edition, p. 18). Without consistency in all five of these areas, the general plan cannot effectively serve as a clear guide to future development. Decision-makers will face conflicting directives; citizens will be confused about the policies and standards the community has selected; findings of consistency of subordinate land use decisions such as rezonings and subdivisions will be difficult to make; and land owners,	submitted by County Transportation Commission as part of their county TIP.

				business, and industry will be unable to rely on the general plan's stated priorities and standards for their own individual decision-making. Beyond this, inconsistencies in the general plan can expose the jurisdiction to expensive and lengthy litigation. CITY OF LOS ANGELES has no CIRCULATION ELEMENT. The Transportation Element adopted August 8, 1999, CF 97-1387 superseding the Scenic Highways Plan adopted in May13, 1978, CF 98-0894 and the Highways and Freeways Element adopted in 1959. City of Los Angeles Mobility Plan 2035 was has been circulated this year but not approved. This plan emphasizes bicycles, pedestrians and transit while ignoring the traffic congestion and greenhouse gas emissions from sitting in traffic. Goods movement and pipelines are ignored, yet are contributory factors in transportation planning. CITY OF LOS ANGELES has the FRAMEWORK ELEMENT Policy No. 3.3.2 which reads: 3.3.2 Monitor population, development, and infrastructure and service capacities within the City and each community plan area, or other pertinent service area. The results of this monitoring effort will be annually reported to the City Council and shall be used in part as a basis to: a. Determine the need and establish programs for infrastructure and public service investments to accommodate development in areas in which economic development is desired and for which growth is focused by the General Plan Framework Element. b. Change or increase the development forecast within the City and/or community plan area as specified in Table 2-2 (see Chapter 2: Growth and Capacity) when it can be demonstrated that (1) transportation improvements have been implemented or funded that increase capacity and maintain the level of service, (2) demand management or behavioral changes have reduced traffic volumes and maintained or improved levels of service, and (3) the community character will not be significantly impacted by such increases. Such modifications shall be considered as amendments to Table 2-2 and depicted on the community plans. c. Initiate a study to consider whether additional growth

				should be accommodated, when 75 percent of the forecast of any one or more category listed in Table 2-2 (see Chapter 2: Growth and Capacity) is attained within a community plan area. If a study is necessary, determine the level of growth that should be accommodated and correlate that level with the capital, facility, or service improvements and/or transportation demand reduction programs that are necessary to accommodate that level. d. Consider regulating the type, location, and/or timing of development, when all of the preceding steps have been completed, additional infrastructure and services have been provided, and there remains inadequate public infrastructure or service to support land use development. (P42, P43) Annual Reports for Infrastructure have not been executed. With that, the projects in this Draft for the City of Los Angeles have no applicability for providing mobility and improving both the efficiency and safety of the transportation system. 				Please redesign this plan to enhance transportation not just special interests and developers. Sports venues and tourism is the design of the hotel developers for the use of transit to increase their revenues. Our VISION

An international and regional planning forum trusted for its leadership and inclusiveness in developing plans and policies for a sustainable Southern California.

Our MISSION

Under the guidance of the Regional Council and in collaboration with our partners, our mission is to facilitate a forum to develop and foster the realization of regional plans that improve the quality of life for Southern Californians.

Funding: The preparation of this document was financed in part through funds from the Federal Highway Administration and Federal Transit Administration in accordance with the provisions under the Metropolitan Planning Program as set forth in Section 104(f) of Title 23 of the U.S. Code. Additional financial assistance was provided by the California Department of Transportation.

SCAG General Fact Sheet

WHAT IS SCAG?

The Southern California Association of Governments (SCAG) is the nation's largest Metropolitan Planning Organization (MPO) and Council of Governments (COG), encompassing six counties, six county transportation commissions, 191 cities and the region's Native American tribes. As a designated Joint Powers Authority under California law, SCAG is an association of local governments and agencies that meets and confers on regional transportation, land use and other issues of common concern.

BACKGROUND

SCAG was founded in 1965, when local elected officials from 56 cities and five counties convened to create a regional planning effort for Southern California's future. In 1992, SCAG expanded its 20-member Executive Committee to include a 70-member Regional Council, responsible for helping with new federal and state mandates, as well as to provide more broad-based representation of the region. The current Regional Council consists of 86 members.

WHAT DOES SCAG DO?

In addition to its designation as an MPO and a COG, SCAG also serves as a Regional Transportation Planning Agency. Under federal and state laws, SCAG is tasked with developing a Regional Transportation Plan (RTP) and a Federal Transportation Improvement Program (FTIP) every four years. Under California's Sustainable Communities and Climate Protection Act of 2008 (SB 375), SCAG has the added responsibility to develop a Sustainable Communities Strategy (SCS) to address greenhouse gas emission reductions as an element of the RTP. SCAG is responsible for implementing the state Regional Housing Needs Assessment (RHNA) program on behalf of Southern California. SCAG also conducts extensive growth forecasting which is provided to local governments, including critical land use and demographic data to strengthen their planning efforts. SCAG acts as an information clearinghouse, providing mapping, forecasting, regional statistics and data to members, stakeholders and the general public, upon request.

HOW ARE DECISIONS MADE AT SCAG?

General Assembly (GA) – SCAG is governed by the General Assembly, which annually brings together the official representatives of SCAG's membership and helps set the agency's course for the coming year. General Assembly representatives consider and adopt the SCAG Bylaws and the General Fund budget and elect the incoming President, First Vice President and Second Vice President.

Regional Council (RC) – Decision-making occurs through SCAG's Regional Council, a governing body composed of elected officials representing the six counties and 191 cities in the SCAG region. The board also includes representatives from the County Transportation Commissions and the recognized tribal governments. SCAG's policy-making process is guided by the work of SCAG's Policy Committees: Executive/Administration; Transportation; Community, Economic and Human Development; Energy and Environment; and Legislative/Communications and Membership. Members of the Regional Council serve on one Policy Committee for a two-year term. Much of the discussion and debate on the "nuts and bolts" of an issue occur in the Policy Committees and all issues considered by the Regional Council must first originate through one or more of the committees. In addition to Regional Council members, Policy Committees also include members from stakeholder organizations throughout the region.

THE SCAG REGION

ORGANIZATIONAL RESPONSIBILITIES

- Maintain a continuous, comprehensive, and coordinated planning process (the "3 Cs") resulting in a RTP and a FTIP
- Develop a SCS to address greenhouse gas emissions as an element of the RTP
- Develop demographic projections
- Develop integrated land use, housing, employment, transportation programs and strategies for the South Coast Air Quality Management Plan
- Co-lead agency for air quality planning in the Central Coast and Southeast Desert air basin districts
- Responsible for developing and ensuring that the Regional Transportation Plan and the Federal Transportation Improvement Program conform to the purposes of the State Implementation Plans for specific transportation-related criteria pollutants, per the Clean Air Act
- Authorized regional agency for intergovernmental review of proposed programs for federal financial assistance and direct development activities
- Review environmental impact reports for projects having regional significance to ensure they are in line with approved regional plans
- Develop an area-wide, waste treatment management plan
- Responsible for preparation of the Regional Housing Needs Assessment
- Along with the San Diego Association of Governments and the Santa Barbara County/Cities Area Planning Council, SCAG is responsible for preparing the Southern California Hazardous Waste Management Plan

Project will replace existing 2 lane bridge with 4 lane bridge and 1 turn lane @ Lost Hills Rd/US 101 interchange. This will bring bridge to current lane configuration of Lost Hills Rd on either side of bridge. Interchange will eliminate cross-traffic movement to access NB US 101. There will be no additional lanes on US 101. Replacement bridge will be wider,4 lns rather than 2 and will span approx. 280 ft, accommodating width of road on either side of bridge structure.

Description: PTC 2,500 Agency CALABASAS

This project would redesign the intersection at the Parkway Calabasas on/off ramp for the US101. Presently, traffic queues obstruct through traffic along Calabasas Road, and there are no pedestrian improvements. This project would widen Calabasas Road from Mureau Road to the Parkway Calabasas offramp and provide bike lanes and sidewalks.
