Hispanic or Latino	450	11.7
White alone	305	7.9
Black or African American alone	2	0.1
American Indian and Alaska Native alone	5	0.1
Asian alone	9	0.2
Native Hawaiian and Other Pacific Islander alone	0	0.0
Some Other Race alone	71	1.8
Two or More Races	58	1.5
Not Hispanic or Latino	3,388	88.3
White alone	2,522	65.7
Black or African American alone	187	4.9
American Indian and Alaska Native alone	8	0.2
Asian alone	496	12.9
Native Hawaiian and Other Pacific Islander alone	14	0.4
Some Other Race alone	10	0.3
Two or More Races	151	3.9
RELATIONSHIP		
Total population	3,838	100.0
In households	3,838	100.0
Householder	1,683	43.9
Spouse [6]	797	20.8
Child	818	21.3
Own child under 18 years	597	15.6
Other relatives	161	4.2
Under 18 years	26	0.7
65 years and over	49	1.3
Nonrelatives	379	9.9
Under 18 years	8	0.2
65 years and over	13	0.3
Unmarried partner	102	2.7
In group quarters	0	0.0
Institutionalized population	0	0.0
Male	0	0.0

Subject	Number	Percent
Female	0	0.0
Noninstitutionalized population	0	0.0
Male	0	0.0
Female	0	0.0
HOUSEHOLDS BY TYPE		
Total households	1,683	100.0
Family households (families) [7]	981	58.3
With own children under 18 years	369	21.9
Husband-wife family	797	47.4
With own children under 18 years	289	17.2
Male householder, no wife present	62	3.7
With own children under 18 years	26	1.5
Female householder, no husband present	122	7.2
With own children under 18 years	54	3.2
Nonfamily households [7]	702	41.7
Householder living alone	484	28.8
Male	233	13.8
65 years and over	61	3.6
Female	251	14.9
65 years and over	68	4.0
Households with individuals under 18 years	392	23.3
Households with individuals 65 years and over	423	25.1
Average household size	2.28	(X)
Average family size [7]	2.81	(X)
HOUSING OCCUPANCY		
Total housing units	1,754	100.0
Occupied housing units	1,683	96.0
Vacant housing units	71	4.0
For rent	31	1.8
Rented, not occupied	6	0.3
For sale only	12	0.7
Sold, not occupied	1	0.1
For seasonal, recreational, or occasional use	6	0.3
All other vacants	15	0.9
Homeowner vacancy rate (percent) [8]	1.2	(X)
Rental vacancy rate (percent) [9]	4.4	(X)
HOUSING TENURE		
Occupied housing units	1,683	100.0
Owner-occupied housing units	1,009	60.0
Population in owner-occupied housing units	2,514	(X)
Average household size of owner-occupied units	2.49	(X)
Renter-occupied housing units	674	40.0
Population in renter-occupied housing units	1,324	(X)
Average household size of renter-occupied units	1.96	(X)

X Not applicable.

[1] Other Asian alone, or two or more Asian categories.

[2] Other Pacific Islander alone, or two or more Native Hawaiian and Other Pacific Islander categories.

[3] One of the four most commonly reported multiple-race combinations nationwide in Census 2000.

[4] In combination with one or more of the other races listed. The six numbers may add to more than the total population, and the six percentages may add to more than 100 percent because individuals may report more than one race.

[5] This category is composed of people whose origins are from the Dominican Republic, Spain, and Spanish-speaking Central or South American countries. It also includes general origin responses such as "Latino" or "Hispanic."

[6] "Spouse" represents spouse of the householder. It does not reflect all spouses in a household. Responses of "same-sex spouse" were

edited during processing to "unmarried partner."

[7] "Family households" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same-sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption.

Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. "Nonfamily households" consist of people living alone and households which do not have any members related to the householder.

[8] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been sold but not yet occupied; and then multiplying by 100.

[9] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of the renter-occupied units, vacant units that are "for rent," and vacant units that have been rented but not yet occupied; and then multiplying by 100.

SELECTED ECONOMIC CHARACTERISTICS

2008-2012 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

People in families	(X)	(X)	3.2%	+/-3.2
Unrelated individuals 15 years and over	(X)	(X)	12.5%	+/-6.6

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2008-2012 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
