Concerns and Advice to Responders:

Oil could get in rip rap and cause re-sheening. Morro Rock is a bird rookery. Southern sea otters (threatened) pup year-round.

Hazard and Restrictions:

Rough surf.

Site Strategies:**Site Validation Level: II**

Strategy: 4-150.1 Objective: No Onsite Options: Consider Offshore Containment/Recovery/ART

Strategy: Offshore containment and recovery (OCR) is the preferred option although heavy surf may hinder these operations. No specific response equipment listed due to the many variables associated with each spill regarding OCR. Early consideration should be given to the use of applied response technologies.
