

Sources of Supply for ICS Materials

ICS Vest Sources of Supply: There are several sources of supply for ICS vests and can be found by doing a simple web search. The style of the vest is not set, so other than color coding, units can purchase any style of vest that meets their needs (i.e. pockets, Velcro, reflective tape, etc.). Costs vary from \$10/vest to \$50/vest.

There are several sources with the same kind of vests: The great thing about card vests is that you can slide a 4x8" card with the position titles into clear slots on the vest and that gives you significantly more flexibility vs. a screen-printed vest, where the position title is permanent.
