Stand Size: <1 1-5 >5 View Radius _____ Camera: Lucy's Photos: _____

Exposure, Actual °: 16 NE NW SE SW Flat Variable | Steepness, Actual °: ~10 0° 1-5° >5-25° >25

Field Alliance name: Pseudognaphalium luteoalbum

Comments: Monoculture of Pseudognaphalium at inlet of small drainage pond in perhaps last moist area. The rest of the basin consists of cracked clay. The Pseudognaphalium forms a ring of phenologically later individuals (all in seed) whereas the plot is young not yet flowering. Other species in ring include Distichlis, Erigeron, and Senecio.
