SITE DESCRIPTION:

This site begins at the mouth of the Little River and extends south to the mouth of the Mad River. Clam Beach is managed by Humboldt County Parks. The beaches have fine to medium grain sand. Small tidal inlets at Strawberry and Patrick Creeks are present on the site.

SEASONAL and SPECIAL RESOURCE CONCERN

Snowy Plovers (FT) may be present year round. Nesting occurs from approximately March through August.

RESOURCES OF PRIMARY CONCERN

Contact Humboldt County Parks for guidance prior to initiating response. Clam beach is snowy plover breeding habitat above the high tide line (Critical Habitat). Nests are difficult to see and easy to step on. Responders should minimize traffic routes and try to limit activity to the area below the high tide line. Avoid areas enclosed by symbolic fencing or otherwise marked as nesting habitat.

Snowy plover (FT) (01-12); FWS Critical Habitat, nesting (03-08)

Coastal Cutthroat trout (SSC) may be present in Strawberry and Patrick Creeks. These trout may be anadromous and present through beach area if creeks have enough flow.

Pacific razor clams (01-12) and Dungeness crabs utilize the inter and subtidal zones. Clams burrow into the sand. Crabs may bury themselves to the tops of the carapace.

CULTURAL, HISTORIC, and ARCHEOLOGICAL SENSITIVITIES

Cultural, Historical, and Archeological sites are known to exist in the area, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082 and State Office of Historical Preservation (916) 445-7000, and/or Ms. Vicki Bates, Coordinator of the North Coast Information Center (707) 482-1822.

KEY CONTACTS: Trustee (T); Entry/Owner/Access (E); Cultural (C); or Other Assistance (O)

Type	Name / Title	Organization	Phone
E		Humboldt County Sheriff	(707) 445-7251
