**Additional Site Summary Comments:****Concerns and Advice to Responders:**

To protect sensitive species breeding and foraging habitat.

**Hazard and Restrictions:**

Watch weather and sea conditions.

**Site Strategies:****Site Validation Level: 0**

**Strategy: 5-410.1 Objective:** No Onsite Options: Consider Offshore Containment/Recovery/ART

**Strategy:** This site is difficult to protect. Mechanical shoreline protection techniques are not likely to be effective because of high wave energy and rocky conditions at the site.

- Recommended response strategy is on-water containment and recovery (e.g. towed boom arrays).
- Pursue feasibility of alternative response technologies (e.g. dispersants and in-situ burning) to reduce the volume of oil reaching the site.

Table of Response Resources

**Last Page Update****Logistics:***Directions:* Access best by boat.*Land Access:* Access best by boat.*On-Water Limitations:* Limited services available at Avalon, Two Harbors and Catalina Harbor.*Facilities, Staging Areas, Command Posts, Available Equipment:**Communications Problems:**Additional Operational Comments:* Small aircraft can fly to Catalina Island.

CDFW - OSPR & USCG Site: 5-410 Name: Arrow Point - Catalina Island

A. Caputo (OSPR) & S. Torres(OSPR) Date: 9/26/2023

**No shoreline strategies;  
consider offshore strategies**
