Additional Site Summary Comments:**Concerns and Advice to Responders:**

To protect endangered and sensitive species roosting habitat.

Hazard and Restrictions:

Watch weather and sea conditions. High energy wave action.

Site Strategies:**Strategy: 5-160.1 Objective:** No Onsite Options: Consider Offshore Containment/Recovery/ART*Strategy:* This site is difficult to protect. Mechanical shoreline protection techniques are not likely to be effective because of high wave energy and rocky conditions at the site.

- Recommended response strategy is on-water containment and recovery (e.g towed boom arrays).
- Pursue feasibility of alternative response technologies (e.g. dispersants and in-situ burning) to reduce the volume of oil reaching the site.

Table of Response Resources

Last Page Update**Logistics:***Directions:* Boat hoist available in King Harbor. From Pacific Coast Highway in Redondo Beach go west on Beryl St. until you reach the parking lot. Boat hoist is adjacent to the Harbor Master's office.*Land Access:* Access best by boat.*On-Water Limitations:* Heavy small boat traffic. Boat hoist for boats less than 30 ft and less than 10,000 lbs. All services available.*Facilities, Staging Areas, Command Posts, Available Equipment:**Communications Problems:**Additional Operational Comments:* Consider safety of personnel attempting access to breakwater.
